-

IOM Colombia

Visit

- ▶ Peace process was emphasized since it represents a huge challenge for the Government.
- ▶ IOM's expertise in topics such as demobilization, reintegration and victims' reparation was presented and the role that can be played by the Mission to support the Government was also underlined.
- ▶ Peace talks are currently debating the second item of the agenda which refers to political participation.

Reflections

- Recognition of professional staff;
- Recognition of IOM on the ground;
- Renew the donor's interest in Haiti to support the transition from the emergency phase to recovery and technical cooperation;
- Develop more income-generating projects in Haiti;
- Colombia should be used as a model in them of activities, cooperation with the government, etc.
- Council chair visit should take place at the beginning of the mandate of each Chair.

Thank you
