**Marie McAuliffe**

Head, Migration Policy Research  
Division, IOM

Co-editor WMR 2018

# Revised World Migration Report Series

# World Migration Report 2018

## Part I: Key Data and Information on Migration

Migration and Migrants: A global overview

Migration and Migrants: Regional dimensions and developments

Migration research and analysis: Growth, reach and recent contributions

## Part II: Complex and Emerging Migration Issues

Global migration governance

Mobility, migration and transnational connectivity

Understanding migration journeys from migrants' perspectives

Media reporting of migrants and migration

Migration, violent extremism and social exclusion

Migrants and cities: Stepping beyond WMR 2015

## Chapter 2 | Migration & migrants: A global overview

- Overview of global data and trends on international migrants (stocks) and international migration (flows)
- Discussion of some specific migrant groups
- IOM programmatic and operational data (e.g. missing migrants, assisted voluntary return and reintegration, displacement tracking, migrant health, resettlement)

### KEY THEMES

- International migrants: numbers and trends
- International migration flows: numbers and gaps
- Migrant workers
- Remittances
- Refugees and asylum seekers
- Internally displaced persons
- Data gaps and challenges

## Chapter 3 | Migration & migrants: Regional dimensions and developments

- Overview of key migration statistics by region
- Descriptions of “key features and developments” at the regional and sub-regional levels
- Features of each subregion, such as:
  - Labour migration and remittances
  - Irregular migration
  - Migrant smuggling and human trafficking
  - Internal and international displacement
  - Integration

6 world regions: Africa, Asia, Europe, Latin America and the Caribbean, Northern America and Oceania

## Chapter 4 | Migration research and analysis

- Overview on the increases in information and analysis on migration as the topic has become more salient globally
- Examination of the variety and nature of the different types of research and analysis on migration produced by academia, governments, intergovernmental organizations and think tanks
  - key contributions, growth over time, relative strengths and weaknesses
- Opportunities to further leverage policy, practice and research spheres to develop new lines of thinking and effective policy responses
