REPORT OF MANAGEMENT

21 April 2017

REPORT OF MANAGEMENT

The Financial Report of IOM aims to provide transparency of, and accessibility to, financial information of the Organization. It is regarded as an important element in the overall framework of accountability and financial integrity of the Organization.

The financial statements and related notes and associated disclosures have been drawn up in accordance with the International Public Sector Accounting Standards (IPSAS), the Financial Regulations and relevant resolutions adopted by the governing bodies of the Organization. Contributions from governments and other sources have been used solely for the purposes for which they were given, where these were specifically designated. All transactions have been properly documented.

The system of internal control relating to financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Financial Regulations. This system includes relevant policies and procedures that: i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transaction; ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements and that receipts and expenditures are being made in accordance with authorizations of management in compliance with the Organization's Financial Regulations; and iii) provide reasonable assurance regarding the prevention or timely detection of unauthorized acquisition, use or disposition of the Organization's assets. Because of the limitations inherent in a decentralized Organization, internal control over the financial reporting may not prevent or detect all misstatements.

To the best of our knowledge and belief, these financial statements present fairly the Organization's financial position at 31 December 2016. IOM has provided the Ghana Audit service, appointed by the Council, with all relevant information and access as agreed in the terms of the audit engagement. The opinion of the external auditor is provided on the next page.

OPINION OF THE EXTERNAL AUDITOR

AG/IOM/01

THE AUDITOR-GENERAL

Ministry Block O, P. O. Box M 96, Accra, Ghana Tel: 233 (0) 302 664928 / 675496 Fax: 233 (0) 302 662493 Website: www.ghaudit.org

17 May 20 1

Dear Mr. Swing

AUDIT REPORT OF THE EXTERNAL AUDITOR ON THE FINANCIAL STATEMENTS OF THE INTERNATIONAL ORGANIZATION FOR MIGRATION FOR THE YEAR ENDED 31 DECEMBER 2016

Sir.

My Ref. No:

Your Ref. No:

I have the honour to transmit the financial statements of the International Organization for Migration for the year ended 31 December 2016. I have audited these statements and have expressed my opinion thereon.

Please accept the assurances of my highest consideration.

Yours sincerely,

DANIEL YAW DOMELEVO AUDITOR GENERAL

Mr. William Lacy Swing
Director General
International Organization for Migration
17, route des Morillons
CH 1211
Geneva 19
Switzerland

OPINION OF THE EXTERNAL AUDITOR (continued)

INDEPENDENT AUDITOR'S REPORT

To: THE 108TH COUNCIL INTERNATIONAL ORGANIZATION FOR MIGRATION

Report on the Financial Statements

We have audited the financial statements of the International Organization for Migration (IOM), which comprise the statement of financial position as at 31 December 2016, the statement of financial performance for the year ended 2016, statement of changes in equity, statement of cash flows, statement of comparison of budget and actual amounts, statement of financial performance and budget comparison, notes to the financial statements, for the financial year ended 31 December 2016, and other explanatory notes.

Management's Responsibility for the Financial Statements

Management of IOM is responsible for the preparation and fair presentation of the financial statements in accordance with International Public Sector Accounting Standards (IPSAS). This responsibility includes the design, implementation and maintenance of internal control procedures relevant to the preparation of financial statements that are free from material misstatements, whether due to fraud or error. This responsibility also includes the selection and application of appropriate accounting policies and the use of accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the International Standards on Auditing. These standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion

OPINION OF THE EXTERNAL AUDITOR (continued)

on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the financial position of the International Organization for Migration as at 31 December 2016, and its financial performance and of its cash flows for the period 1 January 2016 to 31 December 2016.

Report on Other Legal and Regulatory Requirements

Further, in our opinion, the transactions of the International Organization for Migration that have come to our notice or which we have tested as part of our audit have, in all significant respects, been in accordance with the IOM Financial Regulations.

In accordance with Regulation 12.1 of the Financial Regulations, we have also issued a Long–Form Report on our audit of the International Organization for Migration.

Daniel Yaw Domelevo Auditor-General of Ghana External Auditor

17 May, 2017

FINANCIAL HIGHLIGHTS

OVERVIEW

1. Combined total expenditure for the administrative and operational programmes reached USD 1.602 billion in 2016, representing an increase of USD 17.1 million (or an increase of 1.08%) compared with the 2015 (restated) result of USD 1.585 billion.

| | USD r | million | Diffe | rence |
|--|---------|------------------|------------------------|-------------|
| Expenditure | 2016 | 2015 Restated | % of total expenditure | USD million |
| Administrative programme | 46.3 | 45.8 | 0.03% | 0.5 |
| Operational programmes | 1 556.0 | 1 539.4 | 1.05% | 16.6 |
| Total expenditure for the year (excluding exchange rate differences) | 1 602.3 | 1 585.2 | 1.08% | 17.1 |

- While the total expenditure increased only moderately from 2015 to 2016, notable changes were experienced both in the geographical and the service segment division of operational activities. A significant decrease in operational programmes was experienced in Latin America and the Caribbean (decrease of USD 219.1 million) mainly owing to several large infrastructure programmes in Peru for which IOM provides technical and administrative assistance reaching their final stages in 2016, which is also reflected in the decrease in Migration and Development activities (decrease of USD 201.4 million in Latin America and the Caribbean, USD 204.3 million globally). These notable reductions were largely offset by an increase in Movement, Emergency and Post-crisis Migration Management activities (USD 153.9 million) in Europe, Africa and the Middle East and under Global Support/Services. There was also a significant increase in operational programmes in the area of Regulating Migration (USD 65.9 million), mainly related to return assistance provided for migrants and governments, as well as to counter-trafficking, border management and technical cooperation activities in Africa and Europe. Migration Health activities also increased during 2016, while Reparation Programmes decreased due to reduced programming in Latin America and the Caribbean and Africa. Activities in Asia in all service categories remained close to the 2015 figures. Crises in the Central African Republic, Iraq, Nigeria, South Sudan, the Syrian Arab Republic and Yemen required IOM to provide a continued extensive level of humanitarian assistance during 2016.
- 3. Four new Member States joined IOM in 2016, bringing the total membership to 166 (up from 162 in 2015). The number of financially active projects increased to 3,020 during the course of the year (2015: 2,760). At 31 December 2016, 1,710 projects remained active (2015: 1,980). In 2016, 10,184 staff (excluding consultants) were employed in 408 field locations throughout the world (2015: 9,282 staff in 401 field locations). The majority of IOM staff continues to be located in the field (97%), with only 3 per cent based in Geneva at Headquarters.
- 4. IOM received an opinion from the Ghana Audit Service, stating that the financial statements and related notes and other disclosures give a true and fair view of the financial position for the year ended 31 December 2016.

ADMINISTRATIVE PROGRAMME

- 5. The administrative programme remains a very small part of total expenditure, accounting for only 3 per cent of consolidated expenditure in 2016.
- 6. At 31 December 2016, total outstanding assessed contributions amounted to CHF 4,846,263 (2015: CHF 5,705,901), a decrease of CHF 859,638. Six Member States have concluded payment plans, accounting for CHF 612,853 of the total amount outstanding (see Appendix 2 for the list of outstanding assessed contributions at 31 December 2016).
- 7. In line with the decrease in outstanding assessed contributions, the amount of aged receivables (contributions for 2015 and prior years) within the total outstanding assessed contribution receivable balance has also decreased compared to the previous year by CHF 678,757 (2015: increase of CHF 611,013). The total outstanding assessed contributions requiring a provision thus decreased to CHF 1,903,569 at 31 December 2016 (2015: CHF 2,582,326).

FINANCIAL HIGHLIGHTS (continued)

- 8. Assessed contributions for the 2016 administrative programme totalled CHF 45,459,030 (2015: CHF 42,587,417). Programme expenditures during the course of the year of CHF 45,559,478 (2015: CHF 42,611,928) resulted in an over-expenditure of CHF 100,448 (2015: over-expenditure of CHF 24,511). After factoring in the above-mentioned decrease in the provision for doubtful receivables of CHF 678,757 (2015: increase of CHF 611,013) and the excess of expenses brought forward at the beginning of the year of CHF 635,524, the administrative programme ended with a deficit of CHF 57,215 (2015: deficit of CHF 635,524).
- 9. The Administrative Part of the Budget benefits from being naturally hedged, as most expenditures are in the same currency as the revenues, namely the Swiss franc.

OPERATIONAL PROGRAMMES

- 10. The Summary update on the Programme and Budget for 2016 (C/107/15) estimated expenditure of approximately USD 1,586.2 million for the operational programmes of IOM, based on the information available at that time.
- 11. Total expenditure realized under the operational programmes increased by USD 16.6 million from USD 1,539.4 million in 2015 (restated) to USD 1,556.0 million in 2016, a 1.05 per cent increase overall.
- 12. The field locations with the highest levels of expenditure were (in descending order) Jordan, Iraq, Turkey, South Sudan, Colombia, Peru, Lebanon and Indonesia. Appendix 5 lists total expenditure by field location.
- 13. Total expenditure, by service classification, is summarized in the table below.

| Our continued construction and the con- | USD million | | | |
|--|-------------|------------------|-------------------------|--|
| Operational programmes expenditure by service classification | 2016 | 2015 Restated | Increase/ (Decrease) | |
| Movement, Emergency and Post-crisis Migration Management | 908.3 | 754.4 | 153.9 | |
| Migration Health* | 162.4 | 148.2 | 14.2 | |
| Migration and Development | 71.9 | 276.2 | (204.3) | |
| Regulating Migration | 321.3 | 255.4 | 65.9 | |
| Facilitating Migration | 58.5 | 56.9 | 1.6 | |
| Migration Policy and Research | 7.2 | 3.9 | 3.3 | |
| Reparation Programmes | 17.4 | 28.0 | (10.6) | |
| General Programme Support | 9.0 | 16.4 | (7.4) | |
| Total | 1 556.0 | 1 539.4 | 16.6 | |

Health issues cut across all areas of IOM's work. This figure reflects only specific migrant health activities and does not include the health-related expenditure integrated into other services.

14. Total expenditure, by region, is summarized in the table below.

| Operational programmes expenditure | USD million | | | |
|--|-------------|------------------|-------------------------|--|
| Operational programmes expenditure by region | 2016 | 2015 Restated | Increase/ (Decrease) | |
| Asia and Oceania | 271.2 | 274.5 | (3.3) | |
| Africa | 388.5 | 349.4 | 39.1 | |
| Europe | 306.0 | 207.4 | 98.6 | |
| Latin America and the Caribbean | 193.4 | 412.5 | (219.1) | |
| Middle East | 307.2 | 222.1 | 85.1 | |
| North America | 24.7 | 23.1 | 1.6 | |
| Global Support/Services* | 65.0 | 50.4 | 14.6 | |
| Total | 1 556.0 | 1 539.4 | 16.6 | |

^{*} Several projects have been recategorized from Global Support to the respective regions in 2016, as have comparatives for 2015.

FINANCIAL HIGHLIGHTS (continued)

- 15. The key fluctuations by region and service, as highlighted in the above tables, can be summarized as follows:
- Movement, Emergency and Post-crisis Migration Management increased by USD 153.9 million. This
 increase was largely due to an upsurge in resettlement assistance provided to migrants in the Middle
 East and Africa, an increase in humanitarian assistance provided to internally displaced persons in
 all regions, and to expanded community stabilization activities in Africa, Asia and Oceania, Europe
 and the Middle East.
- The increase in Migration Health of USD 14.2 million occurred due to expanded health promotion and assistance activities provided for migrants under global programmes, and to a notable increase in Latin America and the Caribbean due to increased health promotion and assistance activities in Colombia.
- Migration and Development decreased by USD 204.3 million, with the decrease mainly occurring in Peru due to the large infrastructure programmes for which IOM provides technical and administrative assistance reaching their final stages in 2016. In other regions activities remained close to the 2015 level.
- Regulating Migration increased by USD 65.9 million, primarily due to an increase in return assistance for migrants and governments in Europe, particularly with respect to voluntary return and reintegration. This increase followed the significant decrease in these activities in 2015 resulting from funding mechanism-related challenges beyond IOM's control. The programmes were resumed in most of the host countries concerned during the reporting year. A noteworthy increase was also experienced in counter-trafficking and return assistance programmes in Africa.
- Facilitating Migration increased by USD 1.6 million, mainly due to increased activities in Asia and Oceania and in the Middle East, which were balanced by slight reductions in other regions.
- Migration Policy and Research increased by USD 3.3 million compared to 2015, due to slightly increased programming in most of the regions.
- Reparation Programmes decreased by USD 10.6 million, owing primarily to a continued reduction in related activities in Latin America and the Caribbean and a slight reduction in Africa.
- 16. The operational programmes ended in 2016, on a modified accruals (budgetary) basis, as follows:
- (a) A carry-forward relating to the staff security mechanism of USD 2,853,938 (2015: USD 1,694,704). The mechanism carry-forward increased by USD 1,159,234.
- (b) An increase to the Operational Support Income reserve of USD 8,167,361 (2015: increase of USD 2,702,921), bringing the total of the reserve to USD 33,175,898.
- 17. Operational Support Income is composed of project-related overhead and miscellaneous income (unearmarked contributions from governments and net interest and other income). It is used to cover core structures and other priority needs of the Organization which are not covered by the Administrative Part of the Budget.
- 18. Based on the budget reform initiative adopted by the Council in November 2013, and implemented over a three-year period (2014–2016), the budget for Operational Support Income was set for the year at USD 74.4 million. Operational Support Income fluctuates from year to year, as the amount of overhead income varies depending on the level of activities carried out. Thus, funds may need to be drawn from the Operational Support Income reserve should the amount of Operational Support Income available at the end of a financial year be less than the budgeted amount.
- 19. Actual Operational Support Income, excluding staff security, amounted to USD 70.8 million (2015: USD 59.1 million), while staff security-related overhead amounted to USD 12.7 million (2015: USD 11.0 million), bringing the total Operational Support Income during 2016 to USD 83.5 million (2015: USD 70.1 million). The actual Operational Support Income of USD 83.5 million exceeded the budgeted total of USD 74.4 million by USD 9.1 million. This excess was primarily due to higher than budgeted project-related overhead income. Appendix 4(I) provides a comparison between the budgeted and the actual sources and application of Operational Support Income for 2016.

FINANCIAL HIGHLIGHTS (continued)

20. In compliance with Executive Committee Resolution No. 134 of 3 July 2012, and Council Resolution No. 1240 of 27 November 2012 approving the decisions of the Executive Committee, the Operational Support Income surplus is credited to the Operational Support Income reserve mechanism after: (a) applying the provisions relating to the IOM Development Fund and the staff security mechanism; and (b) covering any unbudgeted and unforeseen shortfalls during the year. Based on these criteria, the excess Operational Support Income of USD 9.1 million (i.e. actual amount minus budgeted amount) has been applied as outlined below.

- USD 1.7 million was applied to the staff security mechanism. See Appendix 4(II) Staff security mechanism.
- USD 0.7 million was allocated to support developing Member States and Member States with economy in transition under the IOM Development Fund (Line 2), for use in 2017. See also Appendix 4(III) IOM Development Fund.
- (USD 4.0 million) represents the net balance of savings of budgeted activities where approved Operational Support Income budget lines were underspent due to cost savings and efficiencies. See also Appendix 4(I) Sources and application of Operational Support Income.
- USD 2.5 million was applied towards unforeseen and unbudgeted project shortfalls that were mainly due (a) to budget overruns on specific operational projects and project costs declared ineligible by donors in Afghanistan, Ethiopia, Democratic Republic of Congo, Niger, the Central African Republic and other locations; and (b) to co-funding shortfalls. See also Appendix 4(I) Sources and application of Operational Support Income, and Note 25, section on write-offs.
- The remaining amount of USD 8.2 million has been added to the Operational Support Income reserve in line with the requirements of the Council Resolution referred to above. See also Appendix 4(I) Sources and application of Operational Support Income.

ORGANIZATIONAL BACKGROUND

CONSTITUTION AND GOVERNANCE

- 21. The Organization was established in December 1951 and began its operations in early 1952 as the Intergovernmental Committee for European Migration. Its Constitution was adopted on 19 October 1953 and came into force on 30 November 1954. The Constitution was amended, effective 14 November 1989, and the Organization was renamed the International Organization for Migration. The Organization possesses full juridical personality and has its Headquarters in Geneva. It currently has 166 Member States (2015: 162).
- 22. The organs of the Organization are the Council and its subcommittee, the Standing Committee on Programmes and Finance, as well as the Administration. The Council, on which each Member State has one representative and one vote, is the highest authority and determines IOM policies. The Executive Committee was abolished by the entry into force on 21 November 2013 (see Council Resolution No. 1262) of the amendments to the Constitution adopted on 24 November 1998 by the Seventy-sixth Session of the Council (Resolution No. 997). The Standing Committee on Programmes and Finance, as a subcommittee of the Council, is open to the entire membership and, following the adoption of Council Resolution No. 1263 of 26 November 2013, assumed the functions previously carried out by the Executive Committee.
- 23. The Administration, which comprises the Director General, the Deputy Director General and such staff as the Council may determine, is responsible for administering and managing the Organization in accordance with the Constitution and the policies and decisions of the Council and the Standing Committee on Programmes and Finance. The Director General, who is the Organization's highest executive official, and the Deputy Director General are elected by the Council for a period of five years.

PURPOSE AND FUNCTIONS

- 24. IOM is committed to the principle that humane and orderly migration benefits migrants and society. It acts to help meet the operational challenges of migration, advance understanding of migration issues, encourage social and economic development through migration, and work towards effective respect for the human rights and well-being of migrants.
- 25. In accordance with the Constitution, the purposes and functions of the Organization are:
- To make arrangements for the organized transfer of migrants for whom existing facilities are inadequate, or who would not otherwise be able to move without special assistance, to countries offering opportunities for orderly migration.
- To concern itself with the organized transfer of refugees, displaced persons and other individuals in need of international migration services, for whom arrangements may be made between the Organization and the States concerned, including those States undertaking to receive them.
- To provide, at the request of and in agreement with the States concerned, migration services such as recruitment, selection, processing, language training, cultural orientation activities, medical examination, placement, activities facilitating reception and integration, advisory services on migration questions, and other assistance as is in accord with the aims of the Organization.
- To provide similar services as requested by States, or in cooperation with other interested international organizations, for voluntary return migration, including voluntary repatriation.
- To provide a forum to States as well as international and other organizations for the exchange of views and experiences, and the promotion of cooperation and coordination of efforts on international migration issues, including studies on such issues in order to develop practical solutions.

- 26. According to the IOM Strategy adopted by the Council in June 2007 and reviewed every three years, the primary goal of IOM is to facilitate the orderly and humane management of international migration. Building on its expertise and experience, and in coordination with other international organizations, IOM continues to act as the leading global organization focusing on migration management. It will continue to address the migratory phenomenon from a comprehensive perspective, including links to development, in order to maximize its benefits and minimize its negative effects. To achieve that goal, IOM will focus on the following activities, acting at the request of or in agreement with Member States:
 - 1. To provide secure, reliable, flexible and cost-effective services for persons who require international migration assistance.
 - 2. To enhance the humane and orderly management of migration and the effective respect for the human rights of migrants in accordance with international law.
 - 3. To offer expert advice, research, technical cooperation and operational assistance to States, intergovernmental and non-governmental organizations and other stakeholders, in order to build national capacities and facilitate international, regional and bilateral cooperation on migration matters.
 - To contribute to the economic and social development of States through research, dialogue, design
 and implementation of migration-related programmes aimed at maximizing migration's benefits.
 - 5. To support States, migrants and communities in addressing the challenges of irregular migration, including through research and analysis into root causes, sharing information and spreading best practices, as well as facilitating development-focused solutions.
 - 6. To be a primary reference point for migration information, research, best practices, data collection, compatibility and sharing.
 - 7. To promote, facilitate and support regional and global debate and dialogue on migration, including through the International Dialogue on Migration, so as to advance understanding of the opportunities and challenges it presents, the identification and development of effective policies for addressing those challenges and to identify comprehensive approaches and measures for advancing international cooperation.
 - 8. To assist States to facilitate the integration of migrants in their new environment and to engage diasporas, including as development partners.
 - 9. To participate in coordinated humanitarian responses in the context of inter-agency arrangements in this field and to provide migration services in other emergency or post-crisis situations as appropriate and as relates to the needs of individuals, thereby contributing to their protection.¹
 - 10. To undertake programmes which facilitate the voluntary return and reintegration of refugees, displaced persons, migrants and other individuals in need of international migration services, in cooperation with other relevant international organizations as appropriate, and taking into account the needs and concerns of local communities.
 - 11. To assist States in the development and delivery of programmes, studies and technical expertise on combating migrant smuggling and trafficking in persons, in particular women and children, in a manner consistent with international law.
 - 12. To support the efforts of States in the area of labour migration, in particular short-term movements, and other types of circular migration.

Although IOM has no legal protection mandate, the fact remains that its activities contribute to protecting human rights, having the effect, or consequence, of protecting persons involved in migration.

STRUCTURE

Headquarters

- 27. Headquarters is responsible for the formulation of institutional policy, guidelines and strategy, standard-setting, quality control procedures and oversight and is composed of the following four departments under the Office of the Director General:
- Department of International Cooperation and Partnerships
- Department of Migration Management
- Department of Operations and Emergencies
- Department of Resources Management
- 28. The Department of International Cooperation and Partnerships is responsible for supporting and coordinating the Organization's relations with IOM Member States, intergovernmental organizations, civil society and the media. It also provides guidance and support for relations with governmental, multilateral and private sector donors. The Department leads and coordinates IOM's forum activities, including the International Dialogue on Migration, IOM's support for global and regional consultative processes and preparations for IOM's annual governing body meetings. It is also responsible for the Organization's communications and public information functions. One of the Department's principal functions is to act as a first port of call and a "window" into IOM for external partners, answering enquiries, arranging briefings and generally providing information about the Organization.
- 29. The Department of Migration Management is responsible for the development of policy guidance for the field; the formulation of global strategies; standard-setting and quality control; and knowledge management relating to "mainstream" migration sectors, including labour and facilitated migration, migration and development, counter-trafficking, assisted voluntary return, migration health, assistance for vulnerable migrants, immigration and border management and overall capacity-building in migration management. It also manages the IOM Development Fund.
- 30. The Department of Operations and Emergencies is responsible for overseeing IOM's activities related to resettlement, movement, logistics, preparedness and response in migration crises and humanitarian emergencies through recovery and transitional settings. It coordinates IOM's participation in humanitarian responses and provides migration services in emergencies or post-crisis situations to address the needs of individuals and uprooted communities, thereby contributing to their protection.
- 31. The Department of Resources Management is responsible for establishing and implementing the human, financial and IT resources policies required by the Organization to carry out its activities efficiently. The Department establishes and implements policies to ensure sound financial and personnel management; formulates financial and budgetary proposals for their dissemination to internal and external stakeholders; coordinates administrative, IT, personnel and financial policies; and assists the Director General in making overall management decisions.

Field

- 32. The Organization's Field Offices fell into three broad categories in 2016, as follows:
- Regional Offices
- Special Liaison Offices
- Country Offices
- 33. In 2016, nine Regional Offices oversaw, planned, coordinated and supported IOM activities within their regions. The Regional Offices are responsible for project review and endorsement and provide technical support to Country Offices, particularly in the area of project development.
- 34. The following two Field Offices, designated as Special Liaison Offices, were responsible for liaison with multilateral bodies: Addis Ababa, Ethiopia, to the African Union, the United Nations Economic Commission for Africa and the Intergovernmental Authority on Development; and New York, United States of America, as Permanent Observer to the United Nations, in recognition of their important liaison roles.

- 35. IOM has a global network of Country Offices and sub-offices which implement a wide range of projects addressing specific migration needs. These offices are financed predominantly by the projects implemented in these locations.
- 36. To ensure effective fundraising and liaison with donors, certain Country Offices that coordinate substantial funding for IOM's activities worldwide (Berlin, Germany; Helsinki, Finland; Tokyo, Japan; and Washington, D.C., United States) had additional responsibilities for resource mobilization.
- 37. Within the large geographical areas covered by each Regional Office there are subregional migratory realities, for which certain offices have been designated as Country Offices with Coordinating Functions to deal with such specific migration dynamics. In 2016, there were five Country Offices with Coordinating Functions: Astana, Kazakhstan, for Central Asia; Bangkok, Thailand, for South Asia; Canberra, Australia, for the Pacific; Georgetown, Guyana, for the Caribbean; and Rome, Italy, for the Mediterranean.

Administrative Centres

- 38. IOM's two Administrative Centres, located in the Philippines and Panama, are considered extensions of Headquarters in fulfilment of the Administration's commitment to manage growth without excessively increasing the need for additional resources.
- 39. The Manila Administrative Centre in the Philippines serves as an IT and administrative support centre for the Organization's activities.
- 40. The Panama Administrative Centre in Panama City provides administrative support to offices in the western hemisphere and some global support services, including for field personnel.

DESCRIPTION AND SUMMARY OF ACTIVITIES

- 41. In 2016, there were seven service categories, unchanged from previous years: Movement, Emergency and Post-crisis Migration Management; Migration Health; Migration and Development; Regulating Migration; Facilitating Migration; Migration Policy and Research; and Reparation Programmes. These are complemented by the General Programme Support/Services category. All IOM projects are categorized into one of these areas of activity.
- 42. **Movement, Emergency and Post-crisis Migration Management:** Projects under this service category are involved in arranging the safe, orderly and cost-effective movement of refugees, migrants, returnees and other persons of concern to the Organization and ensuring a comprehensive approach to assisting forced migrants and host communities in emergency preparedness and natural disaster responses, conflict management and mitigation, knowledge management, and cluster coordination and logistics management. One of the largest movement programmes, implemented by IOM on behalf of the United States Government since the early 1950s, is the United States Refugee Programme. The following subheadings classify the projects and programmes under this service classification: Resettlement Assistance; Overseas Processing; Repatriation Assistance; Community Stabilization; Internally Displaced Persons; Former Combatants; and Elections Support.
- 43. **Migration Health:** These projects aim to meet the needs of Member States in managing health-related aspects of migration and to promote evidence-based policies and integrated preventive and curative health programmes that are beneficial, accessible and equitable for vulnerable migrants and mobile populations. The following subheadings classify the projects and programmes under this service classification: Migration Health Assessments and Travel Health Assistance; Health Promotion and Assistance for Migrants; and Migration Health Assistance for Crisis-affected Populations.
- 44. **Migration and Development:** Maximizing the positive relationship between migration and development has long been a strategic focus of IOM's work. In an era of unprecedented human mobility, the need to develop a fuller understanding of the linkages between migration and development is particularly urgent, as is the need to act in practical ways to enhance the benefits that migration can have for development, and to devise sustainable solutions for problematic migration situations. The following

subheadings classify the projects and programmes under this service classification: Migration and Economic/Community Development; Capacity-building through Return and Reintegration of Qualified Nationals; and Remittances.

- 45. **Regulating Migration:** Comprehensive, transparent and coherent approaches to migration management, involving all countries along the migration continuum, can help address irregular migration, including migrant smuggling and trafficking in human beings, minimize the negative impact of irregular migration and preserve the integrity of migration as a natural social process. IOM helps governments develop and implement migration policy, legislation and administrative mechanisms that enhance migration management, while also assisting migrants in ways that respond to their protection needs and are genderand age-sensitive and empowering. The following subheadings classify projects and programmes under this service classification: Return Assistance for Migrants and Governments; Counter-trafficking; and Technical Cooperation on Migration Management and Capacity-building.
- 46. **Facilitating Migration:** IOM provides policy and technical advice to governments on the regulation of migrant labour and other migratory movements, as well as programmes to assist governments and migrants with recruitment, language training, pre-departure cultural orientation, pre-consular support services, arrival reception and integration. The following subheadings classify the projects and programmes under this service classification: Labour Migration; and Migrant Processing and Integration (including Pre-consular Support Services and Migrant Training).
- 47. **Migration Policy and Research:** IOM conducts research on migration issues to enhance the programme delivery of Member States and promotes awareness and understanding of international migration issues. The following subheadings classify the projects and programmes under this service classification: Migration Policy Activities; and Migration Research and Publications.
- 48. **Reparation Programmes** are specialized global programmes, under which compensation is provided to eligible claimants. IOM also provides legal and technical advice and capacity-building services in the areas of property restitution and large-scale victim compensation to national and transitional governments and international players engaged in post-conflict peacebuilding and in rehabilitation efforts following national disasters.

¹ Amounts presented in the Statement of financial performance are classified according to their nature, whereas the budget documents are presented by service category.

STATEMENT OF FINANCIAL PERFORMANCE AND BUDGET COMPARISON FOR THE PERIOD ENDED 31 DECEMBER 2016 (ADMINISTRATIVE PROGRAMME) Statement V(b) (in Swiss francs)

| | | CHF | |
|--|----------------|------------|-------------|
| | BUDGET 2016 | 2016 | 2015 |
| REVENUE | | | |
| Assessed contributions from Member States | | 44 164 770 | 42 586 949 |
| Assessed contributions from new Member States | | 1 294 260 | 468 |
| TOTAL REVENUE | | 45 459 030 | 42 587 417 |
| EXPENSES | | | |
| Staff salaries and benefits | 35 631 000 | 35 934 366 | 34 355 869 |
| Terminal emoluments | 700 000 | 264 360 | 776 283 |
| Travel, subsistence and representation | 1 142 000 | 1 437 184 | 1 065 548 |
| Total: Staff salaries, benefits, travel and representation | 37 473 000 | 37 635 910 | 36 197 700 |
| Building rental and maintenance | 1 156 792 | 1 278 752 | 1 226 996 |
| Computer equipment and maintenance | 2 384 000 | 2 391 557 | 2 143 712 |
| Office supplies, printing, equipment and vehicles | 735 000 | 752 028 | 706 794 |
| Total: General office | 4 275 792 | 4 422 337 | 4 077 502 |
| Training | 705 430 | 781 909 | 699 532 |
| Contractual services | 806 978 | 1 748 462 | 887 130 |
| Total: Contractual services | 1 512 408 | 2 530 371 | 1 586 662 |
| Communications | 471 000 | 450 000 | 322 866 |
| Meetings Secretariat | 435 000 | 520 860 | 427 198 |
| Allocation of pro rata contributions from new Member States which joined the Organization mid-year | 1 291 830 | | |
| Subtotal: Expenses – before provision for doubtful receivables | 45 459 030 | 45 559 478 | 42 611 928 |
| SURPLUS/(DEFICIT) BEFORE PROVISION FOR DOUBTFUL RECEIVABLES IN CHF | | (100 448) | (24 511) |
| (Increase)/Decrease in provision for doubtful receivables (Appendix 2) | | 678 757 | (611 013) |
| SURPLUS/(DEFICIT) FOR THE PERIOD IN CHF (on modified accruals (budgetary) basis) | | 578 309 | (635 524) |
| Excess of resources/(Expenses) brought forward at the beginning of the year | | (635 524) | 0 |
| SURPLUS/(DEFICIT) AT THE END OF THE PERIOD IN CHF (on modified accruals (budgetary) basis) | | (57 215) | (635 524) |
| | | USD | |
| SURPLUS/(DEFICIT) AT THE END OF THE PERIOD IN USD (on modified accruals (budgetary) basis) 1.025 (2015: 0.991) | | (77 091) | (641 295) |
| Adjustment for excess expenses brought forward at the beginning of the year applied on budgetary basis in USD | | 641 295 | 0 |
| Net accruals adjustment | | (733 511) | (1 255 169) |
| Surplus/(Deficit) for the period in USD (on full accruals (IPSAS) basis) | | (169 307) | (1 896 464) |

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: ACCOUNTING FRAMEWORK

Reporting entity

49. In addition to the migration services described earlier and reported in these financial statements, IOM provides financial services to the Intergovernmental Consultations on Migration, Asylum and Refugees and the Global Forum on Migration and Development, for which separate financial statements are provided to their respective governing bodies. The Guatemala Fiduciary Fund is recorded in a separate accounting system and not consolidated into IOM's financial statements – see Appendix 9.

Basis of preparation

- 50. The financial statements and accompanying schedules and notes are prepared on the accrual basis of accounting, in accordance with the International Public Sector Accounting Standards (IPSAS).
- 51. The preparation of financial statements in conformity with IPSAS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Examples include: assumptions relating to defined benefit medical insurance and other post-employment benefit obligations; financial risks on accounts receivable; and estimates for accrued revenue and accrued expenses. Although these estimates and assumptions are based on the management's best knowledge of current events and actions, actual results ultimately may differ from these estimates.
- 52. The statements, accompanying notes and appendices consolidate the administrative and operational programmes, unless otherwise stated.
- 53. Supplementary schedules are also provided, including those related to the administrative programme, the budget for which is denominated in Swiss francs in accordance with the Financial Regulations. A supplementary Statement of financial performance and budget comparison for the administrative programme is also provided in Swiss francs (Statement V(b)).

Implementation of new IPSAS

54. All of the IPSAS in effect on the reporting date have been applied. IPSAS 39 – Employee Benefits will come into effect on 1 January 2018, and IPSAS 40 – Public Sector Combinations on 1 January 2019. The following IPSAS, which were effective on 1 January 2017 and have no material impact on IOM's financial statements, have been applied in advance:

| IPSAS | Title |
|----------|--|
| IPSAS 33 | First-time Adoption of Accrual Basis International Public Sector Accounting Standards (IPSASs) |
| IPSAS 34 | Separate Financial Statements |
| IPSAS 35 | Consolidated Financial Statements |
| IPSAS 36 | Investments in Associates and Joint Ventures |
| IPSAS 37 | Joint Arrangements |
| IPSAS 38 | Disclosure of Interests in Other Entities |

Measurement base

55. The accounting principles adopted for the measurement and reporting of the financial performance and financial position on an accrual basis use historical costs or fair values, as appropriate, in the preparation of these statements.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

56. The following specific accounting policies that materially affect the measurement of financial performance and the financial position are applied.

Foreign currency transactions

- 57. All transactions occurring in other currencies are translated into US dollars using the United Nations exchange rates prevailing at the date of the transaction. Both realized and unrealized gains and losses resulting from the settlement of such transactions and from the currency translation at the reporting date of financial assets and financial liabilities denominated in currencies other than US dollars are recognized initially in the Statement of financial position and subsequently included in the currency translation reserve.
- 58. Assessed contributions paid by Member States are fixed in Swiss francs in accordance with the Financial Regulations.

Cash and cash equivalents

59. Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments readily convertible to cash and subject to a low risk of changes in value. As a general rule, cash is held in Headquarters-controlled accounts to maximize the interest-earning potential. Separate project codes are used to monitor and report the financial performance of activities undertaken by the Organization on behalf of Member States and other donors, rather than using separate bank accounts, in order to capture all project-related costs. In accordance with the Financial Regulations, funds not immediately needed are placed in short-term deposits or investments and the interest earned is credited to the appropriate programmes.

Receivables

- 60. Receivables are recorded at their estimated realizable value after providing for doubtful and uncollectible debts. A provision for doubtful receivables related to assessed contributions is recorded for all contributions outstanding for two years or more. Receivables from Member States that have negotiated long-term payment plans are measured initially at fair value and subsequently valued at amortized cost using the effective interest rate methodology. Amounts due for more than 12 months after the reporting date in accordance with payment plans are classified as non-current receivables. Voluntary contributions receivable are classified as "current" if the agreement with the donor provides for the receipt of payment within 12 months of the reporting date, or "non-current" if all or part of the contribution is not payable until 12 months after the reporting date. For all other receivables, a provision for doubtful receivables is established based on a review of the outstanding amounts at the reporting date.
- 61. Any advances (or down payments) paid by IOM to suppliers, implementing partners, staff, and so on (e.g. airline companies, insurance companies, local non-governmental organizations (NGOs)), are recorded as receivables to the Organization until the goods are received, services performed or the amounts repaid, as appropriate.

Inventory

- 62. The cost of inventory, such as global stocks of non-food items held in pre-positioning warehouses for future transfer to projects and subsequent distribution to beneficiaries, is valued at the lower of cost or current replacement cost. The cost is determined using a weighted average cost formula and includes costs incurred in acquiring the inventory and other costs incurred in bringing the inventory to the present location and condition (e.g. purchase cost, transport from the supplier to the warehouse, demurrage costs, unreimbursed taxes and custom duties). For inventory acquired through a non-exchange transaction (e.g. in-kind contributions), the fair value as at the date of acquisition is deemed to be its cost.
- 63. IOM regularly reviews its global stocks of pre-positioned inventory to determine the quantities on hand, their value and quantities used. If the review indicates estimated or actual losses arising from excess or obsolete inventory or a decline in the value of the global stocks of pre-positioned inventory, the value is reduced through an impairment charge to expenses in the Statement of financial performance.
- 64. IOM also purchases non-food items and food items using project-specific funds provided by donors which are then typically distributed very soon thereafter (within three months of procurement) or are immaterial in value. Such items, therefore, are expensed on delivery to IOM.

Investment property

65. Investment property is carried at fair value as determined by an independent valuation. Changes in fair value are recognized in the Statement of financial performance. On the sale of investment property, any difference between the net carrying value and the amount actually realized from the sale is recognized in the Statement of financial performance.

Property, plant and equipment

- 66. Land and buildings have been recorded at fair value (i.e. the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's-length transaction) as determined by independent valuers in accordance with international valuation standards.
- 67. Leasehold improvements are recorded at historical cost and presented at depreciated cost. Leasehold improvements are capitalized and recognized as an asset if their cost exceeds or is equal to a threshold of USD 100,000.
- 68. Other assets from which future economic benefit or service potential will flow to the Organization are capitalized if the total cost of acquisition is USD 5,000 or more.
- 69. Provided that the assets would otherwise have been purchased by IOM, any material in-kind donations are recorded at fair value at the time of donation (where the value is USD 5,000 or more). An amount equivalent to the fair value of such assets is simultaneously recognized as revenue in the reporting period when IOM received the goods. The fair value of such assets is amortized by way of depreciation over the useful life of these assets.
- 70. Depreciation of assets (other than land) is calculated on a straight-line (i.e. even) basis over their estimated useful lives, as shown in the table below.

| Asset class | Estimated useful life |
|-------------------------------|---|
| Land | No depreciation |
| Buildings | 30 to 50 years |
| Buildings – mobile structures | 3 to 5 years |
| Vehicles | 3 to 10 years |
| Communications and IT | 3 to 7 years |
| Furniture and fixtures | 3 to 12 years |
| Leasehold improvements | 10 years or the lease term (whichever is shorter) |

- 71. Depreciation is calculated from the date of acquisition until disposal occurs. Gains or losses on disposal, determined by comparing the proceeds, if any, with the carrying amounts, are recognized in the Statement of financial performance.
- 72. Impairment reviews are undertaken by each office for all assets as part of the annual property, plant and equipment stocktake.
- 73. It should be noted that, for donor financial reporting purposes, IOM will continue to use a modified accrual accounting approach, with property, plant and equipment fully expensed on acquisition in order to avoid deficits given IOM's project-based nature.

Intangible assets

- 74. Intangible assets principally consist of purchased computer software, which is capitalized if the total cost of acquisition is USD 5,000 or more, and internally developed software, which is capitalized if the total development cost is USD 100,000 or more. Intangible assets have been recognized prospectively beginning 1 January 2012 in accordance with the transition provisions in IPSAS. Costs incurred prior to this date were previously expensed.
- 75. Intangible assets are carried at cost less accumulated amortization and impairment. Donated intangible assets, if any, are recognized at cost, using the fair value at acquisition date.

76. Amortization is calculated on a straight-line basis over the estimated useful lives of the intangible assets, as shown in the table below.

| Asset class | Estimated useful life |
|-------------------------------|-----------------------|
| Purchased software | 3 years |
| Internally developed software | 6 to 10 years |

77. Amortization is calculated from the date of acquisition for purchased software and from the date of roll-out for internally developed software. Gains or losses on disposal, determined by comparing the proceeds, if any, with the carrying amounts, are recognized in the Statement of financial performance.

Deferred revenue (contributions received in advance of delivery/performance)

- 78. Earmarked voluntary contributions received from donors for the operational programmes are treated as deferred revenue and recognized once the services required under the conditions included in agreements with donors of voluntary contributions are performed.
- 79. Assessed contributions received in advance of the year to which the assessment scale relates are recognized as deferred revenue.
- 80. Funds are received in advance from certain sponsors of migrants and from migrants themselves to cover costs of transport and other allowable costs. The amounts received are treated as advance receipts until the services covered by the payment are provided.

Staff benefits

- 81. IOM is a member organization participating in the United Nations Joint Staff Pension Fund (UNJSPF), which was established by the General Assembly of the United Nations to provide retirement, death, disability and related benefits pursuant to Council Resolution No. 1130 of 2 December 2005 and United Nations General Assembly resolution 61/240.
- 82. The UNJSPF is a funded, multi-employer defined benefit plan. As specified by Article 3(b) of the Regulations of the Fund, membership in the Fund is open to the specialized agencies and to any other international, intergovernmental organization which participates in the common system of salaries, allowances and other conditions of service of the United Nations and the specialized agencies.
- 83. The plan exposes participating organizations to actuarial risks associated with the current and former staff of other organizations participating in the Fund, with the result that there is no consistent and reliable basis for allocating the obligations, plan assets and costs to individual organizations participating in the plan. IOM and the UNJSPF, in line with the other participating organizations in the Fund, are not in a position to identify IOM's proportionate share of the defined benefit obligations, the plan assets or the costs associated with the plan with sufficient reliability for accounting purposes. Hence, IOM has treated this plan as if it were a defined contribution plan, in line with the requirements of IPSAS 25 Employee Benefits. IOM's contributions to the plan during the financial period are recognized as expenses in the Statement of financial performance.
- 84. Other staff benefit obligations can include the following, depending on the entitlements of the individual staff member:
- Separation benefits:
 - Unused annual leave, repatriation travel and removal of personal effects. These elements are calculated on an actual entitlement basis using current salary scales and cost estimates.
 - Repatriation grants and separation entitlements (e.g. severance pay). These elements are calculated based on an annual independent actuarial assessment.
- After-service defined benefit plans, which include IOM's contribution towards after-service health insurance premiums for retired Professional staff and participating General Service staff. These elements are calculated based on an annual independent actuarial assessment. The liability for after-service health insurance is a defined benefit obligation which is accounted for using the corridor approach, under which amounts up to 10 per cent of the change in the defined benefit obligation related to changes in actuarial assumptions are amortized over the average remaining service of active staff for each benefit.

- The calculation of the net liability to IOM is made using the corridor approach, under which actuarial gains and losses are recognized only if they exceed 10 per cent of the present value of the defined benefit obligation. IPSAS 39, which will be effective from 1 January 2018, will require that the gains and losses resulting from actuarial adjustments be recognized immediately in a separate element of net assets. Had IPSAS 39 been in effect in 2016, the unrecognized actuarial loss of USD 10.9 million would have had to be recognized in the Statement of financial position as an increase in the employee benefits liability and a decrease in net assets. The actual impact in 2018 will depend on the discount rate determined according to the financial market conditions existing at that time.
- Other payables to staff: unpaid salaries and allowances, reimbursements payable, and so on, at the reporting date.
- 85. Separation and after-service benefits are collectively referred to as terminal emoluments. Employee benefits payable within 12 months of the reporting date are classified as current liabilities, and those payable more than 12 months after the reporting date are classified as non-current liabilities.

Payables to suppliers

86. As a general rule, IOM pays for goods and services after the goods are received and services provided. They are recorded simultaneously as an expense and an obligation payable to the supplier. This payable category includes accrued expense provisions raised for material consumption-based services (e.g. communications and utilities costs) for which the billing is received beyond 31 December and the costs can be reliably estimated based on recent supplier billings.

Borrowing costs

87. All costs incurred in connection with borrowing are treated as expenses in the period in which they are incurred. No borrowing costs have been capitalized during the reporting period.

Provisions

88. Provisions are generally recognized when the Organization has a legal or constructive obligation as a result of a past event, where it is probable that an outflow of resources will be required to settle the obligation and where a reliable estimate of the obligation can be made.

Revenue

- Non-exchange revenue
- 89. Assessed contributions to the Administrative Part of the Budget are recognized at the beginning of the year to which the assessment relates. The revenue amount is determined based on the approved budget and the scale of assessment approved by the Council.
- 90. Voluntary contributions are recognized upon the signing of a binding agreement with the donor. Revenue is recognized immediately if the contribution is not earmarked or if no condition is attached requiring that funds be utilized as specified in the agreement or returned to the contributing entity. If conditions are attached, revenue is recognized only upon satisfying the conditions through the expenditure of the contribution in accordance with the terms of the agreement. Until such conditions are met, a liability (deferred revenue) is recognized. Voluntary contributions which are not supported by binding agreements are recognized as revenue when received.
- 91. Goods in kind are recognized at their fair value, measured as of the date the donated assets are acquired.
- Exchange revenue
- 92. Revenue from the fees charged to self-paying migrants and refugees, or their sponsors or through contractual billing arrangements is recognized upon completion of the underlying service for which the fee has been charged. A liability is established covering the estimated amount of fees reimbursable to applicants. Interest income is recognized on a time proportion basis as it accrues, taking into account the effective yield.

Expenses

- 93. Expenses are recognized when confirmation is obtained that goods and services (including agreed services provided by implementing partners) have been delivered or provided.
- 94. Using funds provided by donors, IOM purchases non-food items and food items which are then typically distributed in life-saving operations following natural disasters and in other similar emergency situations. As such, IOM's warehouse stocks at 31 December (excluding those items held in global stocks in pre-positioning warehouses) in any given year are typically distributed very soon thereafter (within three months of procurement) or are immaterial in value. Such items, therefore, are expensed on delivery to IOM. Material in-kind contributions are valued at fair value at the time they are donated, provided they would otherwise have been purchased by the Organization. IOM also acts as an agent to distribute items on behalf of other organizations (e.g. United Nations agencies, NGOs). IOM does not record these items in the accounts as it does not receive future economic benefits or service potential from such supplies and materials.
- 95. Equipment purchased for beneficiaries through, inter alia, community and economic development and integrated border management projects are fully expensed on acquisition. They are tracked via PRISM from their acquisition to formal handover (via signed deeds of donation) for internal control purposes.

Leases

96. Leases are classified as operating leases when a significant portion of the risks and rewards of ownership are retained by the lessor. Payments under operating leases (net of any incentives received from the lessor) are recognized in the Statement of financial performance on a straight-line basis over the period of the lease.

Taxation

97. IOM is an intergovernmental non-profit organization and is generally exempt from taxation in countries that have granted IOM full privileges and immunities. In other jurisdictions, taxes paid are reimbursable.

Financial instruments

- 98. A financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. A financial instrument is derecognized when the right to receive cash from another entity in connection with a financial asset or the obligation to deliver cash to another entity in connection with a financial liability has expired.
- 99. In IOM, financial assets consist of the following:
- (a) Cash and cash equivalents held for periods of less than 90 days. Cash and cash equivalents are valued at fair value at the reporting date.
- (b) Short-term investments, which are financial assets held for periods of longer than 90 days and less than one year, or containing put options enabling the Organization to redeem the investment at 90-day intervals at full face value, and are classified as current assets as maturity dates are within 12 months of the reporting date. Short-term investments are valued at fair value at the reporting date.
- (c) Non-conditional receivables, which include assessed contributions and other amounts receivable in cash. Short-term receivables are valued at nominal value. Longer-term receivables covering arrears from Member States are valued at nominal value less allowances for estimated doubtful receivables. Receivables that are subject to conditions are fully offset by a liability (deferred revenue) and are not considered financial instruments since their recognition results in both a financial asset and a matching financial liability of the Organization.
- (d) Derivatives to manage short-term cash flows of foreign currency received from voluntary contributions provided by donors in currencies other than US dollars. All derivative hedging agreements are accounted for as "fair value through surplus and deficit" with realized gains or losses during the financial year recognized in the Statement of financial performance. In accordance with IPSAS 29 Financial Instruments: Recognition and Measurement, unrealized gains or losses at the reporting date are recognized in the Statement of financial performance and as an asset (if a gain) or as a liability (if a loss) in the Statement of financial position.

- 100. In IOM, financial liabilities consist of the following:
- (a) Accounts payable valued at nominal value owing to their short-term nature;
- (b) Borrowings (loans) valued at amortized cost using the effective interest rate method.

Contingent liabilities

- 101. In the interests of transparency, disclosures of contingent liabilities are made within the notes to the statements. A contingent liability is the following:
- (a) A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- (b) A present obligation that arises from past events but is not recognized because:
 - (i) It is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or
 - (ii) The amount of the obligation cannot be measured with sufficient reliability.

NOTE 3: CHANGES IN PRESENTATION

- 102. The Statement of financial position, including the comparative information for 2015, has been changed to improve how the information is presented. The changes are as follows:
- (a) The separate disclosure for the balance of the Sasakawa Endowment Fund of USD 2.0 million has been consolidated into "Non-current liabilities: Other non-current liabilities". A detailed breakdown of the elements making up "Non-current liabilities: Other non-current liabilities", including the Sasakawa Endowment Fund, is given in Note 14: Payables to suppliers, implementing partners, individual Member State reserves and other.
- (b) "Current assets: Receivables assessed contributions" and "Current assets: Receivables other" are presented net of the provision for doubtful debts, which has no impact on the total of net assets. Information on the provision and receivables is included in Note 6: Contributions receivable and other receivables.
- (c) The separate disclosure for the balances of "Accumulated surpluses/(deficits)" of USD 42.4 million, "Accumulated surpluses/(deficits) exchange transactions" of USD 28.3 million and "Currency translations (gains/(losses))" of (USD 86.5 million) have been aggregated and reclassified to "Accumulated fund balance" and are all disclosed separately in Note 17: Accumulated fund balance.
- (d) The separate disclosure for the balances of the "Terminations reserve" of USD 56.6 million, "Rapid Response Transportation Fund" of USD 0.8 million, "Contingency reserve" of USD 1.0 million, "Emergency Preparedness Account" of USD 0.1 million, "Loans Member States" of USD 1.7 million, Refugee Loan Fund IOM equity" of USD 0.3 million and "Migration Emergency Funding Mechanism" of USD 2.6 million have been aggregated and reclassified as "Reserves". Information on the balances of each reserve is disclosed separately in Note 18: Reserves.
- 103. For the purposes of comparison, "Deferred revenue other" in the amount of USD 1.2 million has been reclassified to "Deferred revenue voluntary contributions" for 2015.
- 104. Comparative information for 2015 has been restated following a change in presentation to recognize the net foreign exchange gains and losses due to project closure in the relevant "Revenue" contributions ("Voluntary contributions earmarked", "Receipts from refugees, migrants, sponsors, other", "Voluntary contributions unearmarked", "Interest and miscellaneous income", as appropriate). The result is a reclassification in the Statement of financial performance owing to the net loss in foreign exchange resulting from 2015 project closures amounting to USD 8.9 million, reclassified from "Other expenses" to "Voluntary contributions earmarked".

NOTE 4: CASH AND CASH EQUIVALENTS

105. Cash deposits are generally held in current accounts in order to settle current obligations. Amounts not needed for immediate use are held in interest-bearing accounts and short-term investment deposits (of 90 days or less).

| | USD | | | |
|---|-------------|-------------|--|--|
| | 2016 | 2015 | | |
| Cash on hand | 766 433 | 1 051 423 | | |
| Deposits with banks – unrestricted | 504 981 691 | 492 300 360 | | |
| Total: Unrestricted cash | 505 748 124 | 493 351 783 | | |
| Sasakawa Endowment Fund (Note 14) | 2 000 000 | 2 000 000 | | |
| Total: Restricted cash – funds-in-trust | 2 000 000 | 2 000 000 | | |
| Total: Cash and cash equivalents | 507 748 124 | 495 351 783 | | |

- 106. Approximately 93 per cent of cash and cash equivalents held at the reporting date was in currencies other than the US dollar, of which approximately 60 per cent is held in accounts controlled by Headquarters.
- 107. The Organization has no confirmed credit lines but does maintain limited and informal overdraft arrangements with banks with which the Organization has funds on deposit. These arrangements may be withdrawn by the banks at any time.

NOTE 5: SHORT-TERM INVESTMENTS

108. Short-term investments are instruments held for a period of longer than 90 days and classified as current assets given that maturity dates are within 12 months of the reporting date. As at 31 December 2016, the Organization held term deposits of USD 311,365,629 (2015: USD 212 822 757) with maturities callable between 90 and 365 days.

| | | (at USD equivalent) | | | | | | | | | |
|-------|------------------------------|---------------------|-------------|----------------------|-------------|-------------|--|--|--|--|--|
| | | 2016 | | | 2015 | | | | | | |
| | 90 to 180 More than 180 days | | Total | Total 90 to 180 days | | Total | | | | | |
| USD | 10 000 000 | 140 000 000 | 150 000 000 | 40 000 000 | 140 000 000 | 180 000 000 | | | | | |
| EUR | | 125 828 330 | 125 828 330 | | 32 822 757 | 32 822 757 | | | | | |
| GBP | | 28 151 775 | 28 151 775 | | | | | | | | |
| CAD | 7 385 524 | | 7 385 524 | | | | | | | | |
| Total | 17 385 524 | 293 980 105 | 311 365 629 | 40 000 000 | 172 822 757 | 212 822 757 | | | | | |

NOTE 6: CONTRIBUTIONS RECEIVABLE AND OTHER RECEIVABLES

- 109. Assessed contributions receivable represent uncollected amounts related to the administrative programme. The Council determines the budget and consequently the amounts due from each Member State in Swiss francs each year. The receivables are considered current (i.e. those contributions expected to be received within the next fiscal year) unless long-term payment plans for the payment of arrears have been negotiated with the Member State. Amounts due under such long-term payment plans in financial periods beyond the next fiscal year are classified as non-current receivables. For further details, see Appendix 2 Outstanding assessed contributions. For contributions received in advance, see Note 12: Deferred revenue (contributions received in advance).
- 110. Amounts receivable for operations from governments and voluntary agencies increased in 2016 to USD 160.24 million (2015: USD 125.79 million), consisting of invoiced and uninvoiced receivables of USD 91.42 million (inclusive of revaluations) (2015: USD 69.51 million) and USD 68.82 million (2015: USD 56.28 million), respectively. Of the invoiced receivables at 31 December 2016, USD 72.5 million had been received by 31 March 2017.
- 111. The invoiced receivables (inclusive of revaluation) at 31 December 2016 are shown in the table below.

| | US | SD |
|----------------------------------|---------------------------|---|
| Receivable from | Invoiced receivables 2016 | Subsequent receipts up to 31 March 2017 |
| Government of the United States | 20 028 046 | 19 623 828 |
| European Commission | 13 533 775 | 12 109 977 |
| United Nations organizations | 11 286 955 | 10 305 110 |
| Government of Australia | 9 998 973 | 9 733 127 |
| Government of the Philippines | 7 536 836 | 0 |
| Government of Canada | 6 888 031 | 6 768 870 |
| Government of the United Kingdom | 4 148 977 | 4 147 647 |
| Government of Germany | 3 506 932 | 1 695 438 |
| Government of Colombia | 2 731 844 | 2 653 587 |
| Others | 11 759 296 | 5 423 753 |
| Total | 91 419 665 | 72 461 337 |

- 112. The Administration regularly follows up with the donors on amounts receivable. Delays arise as a result of donor requests for detailed reporting and/or audits and of delays by donors in review and settlement procedures.
- 113. At 31 December 2016, the Organization had USD 10.7 million (2015: USD 4.1 million) of invoiced amounts receivable for more than one year. The following table provides an ageing summary of invoiced receivables, the majority of which (83%) are less than 120 days old.

Breakdown of invoiced receivables, including revaluations and excluding refunds/cancellation of invoices (USD million)

| < 30 days | 31 to 120 days | 121 to 365 days | > 1 year | TOTAL |
|-----------|----------------|-----------------|----------|-------|
| 60.43 | 15.86 | 4.40 | 10.73 | 91.42 |
| 66% | 17% | 5% | 12% | 100% |

NOTE 6: CONTRIBUTIONS RECEIVABLE AND OTHER RECEIVABLES (continued)

114. The following table provides a summary of receivables and the associated provisions for doubtful receivables.

| | US | SD |
|--|-------------|-------------|
| | 2016 | 2015 |
| Current | | |
| Receivables - Voluntary contributions - donors | 160 239 380 | 125 787 900 |
| Net voluntary contributions receivable | 160 239 380 | 125 787 900 |
| Receivables - Assessed contributions | 4 271 318 | 5 236 426 |
| Less provision for doubtful receivables | (1 857 141) | (2 605 778) |
| Net assessed contributions receivable | 2 414 177 | 2 630 648 |
| Receivables - Other | 15 139 061 | 12 596 648 |
| Less provision for doubtful receivables | (259 699) | (257 682) |
| Net receivables - other | 14 879 362 | 12 338 966 |
| Subtotal: Current receivables | 177 532 919 | 140 757 514 |
| Non-current | | |
| Receivables - Assessed contributions | 456 743 | 521 295 |
| Receivables - Other | 2 305 831 | 1 060 949 |
| Subtotal: Non-current receivables | 2 762 574 | 1 582 244 |
| Total: Receivables | 180 295 493 | 142 339 758 |

115. Other current and non-current receivables from exchange transactions consist mainly of receivables from vendors of USD 12.3 million (2015: USD 9.9 million) and other taxes reimbursable by host governments of USD 4.4 million (2015: USD 3.1 million) and interest accrued of USD 0.7 million (2015: USD 0.6 million).

NOTE 7: INVENTORIES

116. The movement of global stocks of pre-positioned inventories during the 2016 reporting period is as shown in the table below.

| | ι | JSD |
|---|-----------|-----------|
| | 2016 | 2015 |
| Balance as at 1 January 2016 | 144 723 | |
| Additions | 716 932 | 624 102 |
| Transfers to projects for distribution to beneficiaries | (588 588) | (479 379) |
| Write-offs | (351) | |
| Balance as at 31 December 2016 | 272 716 | 144 723 |

NOTE 8: INVESTMENT PROPERTY

117. On 6 September 2016, IOM acquired an apartment in the Commune of Meyrin, Canton of Geneva, Switzerland, through an unrestricted gift to the Organization. The fair value of the apartment, which includes a garage, was determined to be CHF 855,000 (equivalent to USD 865,979) by an independent valuation based on current prices in an active market for similar property in the same location and condition. IOM is holding the apartment for sale. IOM is not aware of any restrictions imposed by local laws or regulations on its right to fully realize the proceeds from the disposal of the property.

NOTE 9: OTHER ASSETS

118. The following table provides a summary of other assets, consisting of vendor down payments, guarantee deposits, unrealized gains: financial instruments – derivatives.

| | US | SD |
|---|------------|------------|
| | 2016 | 2015 |
| Current | | |
| Vendor down payments | 62 829 846 | 56 519 548 |
| Guarantee deposits | 867 082 | 844 072 |
| Unrealized gains: financial instruments - derivatives | 826 040 | |
| Subtotal: Current assets | 64 522 968 | 57 363 620 |
| Non-current | | |
| Guarantee deposits | 1 691 243 | 998 143 |
| Subtotal: Non-current assets | 1 691 243 | 998 143 |
| Total: Other assets | 66 214 211 | 58 361 763 |

119. The vendor down payments of USD 62.82 million (USD 2015: 56.52 million) consist of advances to implementing partners, suppliers, consultants and service providers.

NOTE 10: PROPERTY, PLANT AND EQUIPMENT

- 120. The Organization owns offices in six countries, namely in Argentina, Australia, the Plurinational State of Bolivia, Chile, Peru and Switzerland. In order to accurately reflect the value of buildings and land owned by IOM, the buildings and land have been revalued at fair value at 31 December 2016, as determined by independent appraisals, conducted by valuation experts in each of the countries in which the properties are located. The valuations were conducted based on international valuation standards as promulgated by the International Valuation Standards Council and included assumptions relating to current market conditions.
- 121. The increase in the fair value of the buildings and land in 2016 of USD 2,057,476 is offset by a USD 1,923,602 revaluation loss due to currency rate fluctuations. The increase between the previous value and the fair value for buildings and land is accounted for in the asset revaluation reserve, which forms a separate component of the net assets/equity.
- 122. During 2016, IOM received donated assets valued at USD 51,020 (2015: USD 251,584) and the same amount has been recognized under "Property, plant and equipment" in the year as acquisition. The fair value of such assets is amortized by way of depreciation over the useful life of these assets.
- 123. Property, plant and equipment holdings for 2016 and for 2015 are summarized in the tables below.

NOTE 10: PROPERTY, PLANT AND EQUIPMENT (continued)

| USD | Land | Buildings | Buildings – mobile structures | Vehicles | Communications and IT | Furniture and fixtures | Leasehold improvements | Total |

NOTE 11: INTANGIBLE ASSETS

124. Intangible assets are summarized in the table below.

| | | 2016 | | | | |
|---|-------------------------------------|-------------------------------------|-----------|-------------------------------------|-------------------------------|-----------|
| USD | Software externally purchased | Software internally developed | Total | Software externally purchased | Software internally developed | Total |
| Cost as at 1 January | 196 711 | 196 239 | 392 950 | 108 987 | 134 261 | 243 248 |
| Additions | 93 499 | | 93 499 | 37 650 | 61 978 | 99 628 |
| Under development | | | | | | |
| Disposals | | | | (11 566) | | (11 566) |
| Transfers | | | | 61 640 | | 61 640 |
| Cost as at 31 December | 290 210 | 196 239 | 486 449 | 196 711 | 196 239 | 392 950 |
| Accumulated amortization at 1 January | (148 687) | (14 839) | (163 526) | (54 466) | | (54 466) |
| Amortization | (38 989) | (19 624) | (58 613) | (35 464) | (14 839) | (50 303) |
| Disposals | | | | 2 883 | | 2 883 |
| Transfers | | | | (61 640) | | (61 640) |
| Accumulated amortization at 31 December | (187 676) | (34 463) | (222 139) | (148 687) | (14 839) | (163 526) |
| Net carrying value at 1 January | 48 024 | 181 400 | 229 424 | 54 521 | 134 261 | 188 782 |
| Net carrying value at 31 December | 102 534 | 161 776 | 264 310 | 48 024 | 181 400 | 229 424 |

125. The Headquarters building in Geneva, Switzerland, is situated on land provided by the Canton of Geneva for a period of 99 years at a nominal cost of CHF 1. Though the Organization has the right to dispose of the property to another international organization, the Canton may refuse to grant approval under certain conditions. The land rights will revert to the Canton at the end of the term. Taking into consideration the various conditions imposed on the rights to use the land and its disposition, the land rights are not valued as an asset in the Statement of financial position.

NOTE 12: DEFERRED REVENUE (CONTRIBUTIONS RECEIVED IN ADVANCE)

126. Contributions received from donors in advance of performance delivery under the operational programmes totalled USD 759,957,757 (2015 restated: USD 667,558,734). Assessed contributions received from Member States in advance of the next year's assessment scale taking effect under the administrative programme totalled USD 573,483 (2015: USD 542,247), as shown in the table below.

| Member State | CHF |
|---|---------|
| Albania | 136 |
| Benin | 26 962 |
| Burkina Faso | 53 147 |
| Costa Rica | 3 233 |
| Democratic Republic of the Congo | 7 357 |
| Guinea | 13 |
| Guyana | 564 |
| Kyrgyzstan | 3 808 |
| Liberia | 3 944 |
| Niger | 2 824 |
| Poland | 459 351 |
| South Africa | 26 480 |
| United Kingdom | 1 |
| Total: Deferred revenue - assessed contributions - CHF | 587 820 |
| Total: Deferred revenue – assessed contributions – USD (at 1.025) | 573 483 |

127. Other deferred contributions received from migrants and self-payers and down payments from customers totalled USD 13,850,627 (2015 restated: USD 13,772,080).

NOTE 13: LIABILITIES RELATING TO EMPLOYEE BENEFITS

- 128. Terminal emoluments are the sum of entitlements due to a staff member upon separation from the Organization in line with the employment contract or the Staff Regulations and Rules. Terminal emoluments include: accumulated leave, repatriation and travel costs for international staff, separation entitlements and after-service health insurance coverage for retired staff. For terminal emolument obligations relating to termination indemnities, and so on, see Note 18: Reserves.
- 129. At its Seventy-second Session in November 1996, the Council adopted a budgetary method of funding terminal emoluments for staff covered under the Administrative Part of the Budget. Under this method, terminal emoluments are funded by a yearly allotment based on the anticipated entitlements for staff departing in the coming year. For 2016, the budget for terminal emoluments was CHF 700,000 (2015: CHF 700,000), whereas the actual terminal emolument payments were CHF 264,360 (2015: CHF 776,283). The number of staff departing during the next year and the entitlements required cannot be fully anticipated at the time the budget is prepared. The unfunded liability related to employee benefits on the Administrative Part of the Budget amounts to USD 13.4 million (2015: USD 12.7 million).
- 130. The same Council session agreed that terminal emoluments for staff covered under the Operational Part of the Budget be funded by way of a charge consisting of a fixed percentage of salary costs.
- 131. Staff (and their dependants) participating in either the Health Insurance Plan or the Medical Service Plan are eligible to obtain after-service health insurance for which IOM contributes towards the insurance premium costs.
- 132. The present value of the defined benefit obligations for after-service medical insurance has been determined using the projected unit credit method, which includes discounting the estimated future cash outflows using a discount rate based upon high-grade corporate bonds.
- 133. The UNJSPF Regulations state that the Pension Board shall have an actuarial valuation made of the Fund at least once every three years by the consulting actuary. The practice of the Pension Board has been to carry out an actuarial valuation every two years using the open group aggregate method. The primary purpose of the actuarial valuation is to determine whether the current and estimated future assets of the Pension Fund will be sufficient to meet its liabilities.
- 134. IOM's financial obligation to the UNJSPF consists of its mandated contribution, at the rate established by the United Nations General Assembly (currently at 7.9% for participants and 15.8% for member organizations) together with any share of any actuarial deficiency payments under Article 26 of the Regulations of the Pension Fund. Such deficiency payments are payable only if and when the United Nations General Assembly has invoked the provision of Article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Pension Fund as at the valuation date. Each member organization shall contribute to this deficiency an amount proportionate to the total contributions which each paid during the three years preceding the valuation date.
- 135. The actuarial valuation performed as at 31 December 2015 revealed an actuarial surplus of 0.16 per cent (a deficit of 0.72% in the 2013 valuation) of pensionable remuneration, implying that the theoretical contribution rate required to achieve balance as at 31 December 2015 was 23.54 per cent of pensionable remuneration, compared with the actual contribution rate of 23.70 per cent. The next actuarial valuation will be conducted as at 31 December 2017.
- 136. At 31 December 2015, the funded ratio of actuarial assets to actuarial liabilities, assuming no future pension adjustments, was 141.1 per cent (127.5% in the 2013 valuation). The funded ratio was 100.9 per cent (91.2% in the 2013 valuation) when the current system of pension adjustments was taken into account.
- 137. After assessing the actuarial sufficiency of the Fund, the consulting actuary concluded that there was no requirement, as at 31 December 2015, for deficiency payments under Article 26 of the Regulations of the Fund as the actuarial value of assets exceeded the actuarial value of all accrued liabilities under the Fund. In addition, the market value of assets also exceeded the actuarial value of all accrued liabilities as at the valuation date. At the time of preparing this report, the General Assembly had not invoked the provision of Article 26.
- 138. The United Nations Board of Auditors carries out an annual audit of the UNJSPF and reports to the UNJSPF Pension Board on the audit every year. The UNJSPF publishes quarterly reports on its investments and these can be accessed on the UNJSPF website (www.unjspf.org). During 2016, IOM contributions to the UNJSPF amounted to USD 31.2 million (2015: USD 27.8 million).

NOTE 13: LIABILITIES RELATING TO EMPLOYEE BENEFITS (continued)

139. Provisions and payables relating to employee entitlements are summarized in the table below.

| | USD | |
|---------------------------------------|------------|------------|
| | 2016 | 2015 |
| Current | | |
| Employee benefit liabilities | 8 126 746 | 7 937 623 |
| UNJSPF | 52 920 | 39 304 |
| Other payables to employees | 4 538 236 | 5 061 491 |
| Subtotal: Current | 12 717 902 | 13 038 418 |
| Non-current | | |
| Employee benefit liabilities | 81 222 116 | 77 288 683 |
| Subtotal: Non-current | 81 222 116 | 77 288 683 |
| Total: Payables relating to employees | 93 940 018 | 90 327 101 |

140. Employee benefit liabilities are further broken down as shown in the table below.

| | US | SD |
|--|------------|------------|
| | 2016 | 2015 |
| CURRENT LIABILITIES – Employment benefits provision for: | | |
| Accumulated leave | 2 768 963 | 3 301 099 |
| Repatriation grant | 468 466 | 518 756 |
| Repatriation travel and removal of personal effects | 1 166 471 | 1 749 084 |
| Separation entitlements | 227 717 | 237 094 |
| Early retirement | 14 804 | 28 208 |
| After-service health insurance - Health Insurance Plan | 1 900 929 | 1 201 204 |
| After-service health insurance - Medical Service Plan | 1 579 396 | 902 178 |
| Subtotal: Current employee benefit liabilities | 8 126 746 | 7 937 623 |
| NON-CURRENT LIABILITIES – Employment benefits provision for: | | |
| Accumulated leave | 27 997 290 | 22 091 969 |
| Repatriation grant | 13 509 531 | 14 872 066 |
| Repatriation travel and removal of personal effects | 11 794 315 | 11 705 415 |
| Separation entitlements | 6 846 355 | 7 105 265 |
| Early retirement | 149 686 | 188 774 |
| After-service health insurance - Health Insurance Plan | 15 603 468 | 16 157 935 |
| After-service health insurance - Medical Service Plan | 5 321 471 | 5 167 259 |
| Subtotal: Non-current employee benefit liabilities | 81 222 116 | 77 288 683 |
| Total: Employee benefit liabilities | 89 348 862 | 85 226 306 |

Actuarial assumptions and methods

141. Each year, IOM reviews and selects assumptions and methods that will be used by the actuary in the valuation to determine the expense and contribution requirements for after-service health insurance, repatriation grants and separation entitlements. The assumptions as at the reporting date are used to determine the present value of defined benefit obligation at that date and the pension expense for the following year.

NOTE 13: LIABILITIES RELATING TO EMPLOYEE BENEFITS (continued)

142. The principal financial assumptions used at 31 December 2016 and 31 December 2015 are presented in the table below.

| | 2016 | 2015 |
|--|-------|---------------------------------|
| Discount rate | | |
| Health Insurance Plan and Medical Service Plan (CHF payroll) | 0.60% | 0.80% |
| Health Insurance Plan and Medical Service Plan (USD payroll) | 4.20% | 4.40% |
| Repatriation grant | 3.50% | 3.50% |
| Severance pay | 3.50% | 3.50% |
| Salary increases | | |
| Professional staff | 3.01% | 2.71% |
| General Service staff | 5.60% | 6.20% |
| Consumer price index | | |
| Swiss francs | 0.40% | 0.50% |
| US dollars | 2.00% | 2.00% |
| Medical cost trend rate | 3.50% | As per the consumer price index |

- 143. Discount rate selection: The method for setting the discount, and in particular the rate used to discount post-employment benefit obligations (both funded and unfunded), reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money are consistent with the currency and estimated term of the post-employment benefit obligations. The discount rate reflects the estimated timing of benefit payments. IOM considered the high-quality corporate bonds market as the best reference. The market conditions as of 31 December 2016 of the bonds market in Switzerland, in the United States and worldwide were considered. The discount rate has been calculated as a single equivalent rate based on AAA and AA corporate bonds calculated using the Mercer yield curve and taking into consideration the longevity of the liability.
- 144. Sickness premium increase rate selection: The method for setting the sickness premium increase rate is based on assumptions about medical costs which take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs. An entity estimates future medical costs on the basis of historical data about the entity's own experience, supplemented, where necessary, by historical data from other entities, insurance companies, medical providers or other sources. As of the fiscal year ending 31 December 2016, the Organization decided to consider the recent premium increase experience in order to select the sickness premium increase rate. Previous practice had been to increase the premium for sickness benefits paid by the Organization according to the fluctuation of the consumer price index.
- 145. The following tables provide additional information and analysis in relation to employee benefit liabilities as calculated by the actuary.

| | USD | | | | |
|---|-----------------------------------|-------------|---------------------|-------------------------|--------------|
| Reconciliation of present value of defined benefit obligation | I AILCI'SCIVICE I AILCI'SCIVICE I | | Repatriation grants | Separation entitlements | Total |

NOTE 14: PAYABLES TO SUPPLIERS, IMPLEMENTING PARTNERS, INDIVIDUAL MEMBER STATE RESERVES AND OTHER

146. Amounts owing to suppliers, implementing partners and individual Member State reserves are summarized in the tables below.

| | USD | | |
|--|-------------|------------|--|
| | 2016 201 | | |
| Current | | | |
| Invoiced payables | 105 408 739 | 63 668 376 | |
| Accrued expenses | 2 914 452 | 3 209 297 | |
| Total: Payables to suppliers and implementing partners | 108 323 191 | 66 877 673 | |

NOTE 14: PAYABLES TO SUPPLIERS, IMPLEMENTING PARTNERS, INDIVIDUAL MEMBER STATE RESERVES AND OTHER (continued)

147. Invoiced payables consist mainly of consultancy services, implementing partners and suppliers.

| | USD | | |
|---|------------|------------|--|
| | 2016 | 2015 | |
| Current | | | |
| Refunds due | 7 304 379 | 8 005 038 | |
| Other liabilities | 10 325 556 | 10 537 797 | |
| Subtotal: Other current liabilities | 17 629 935 | 18 542 835 | |
| Non-current | | | |
| Sasakawa Endowment Fund (see paragraph 149) | 2 000 000 | 2 000 000 | |
| Other liabilities | 1 321 926 | 1 340 825 | |
| Subtotal: Other non-current liabilities | 3 321 926 | 3 340 825 | |
| Total: Other liabilities | 20 951 861 | 21 883 660 | |

- 148. Other liabilities consist mainly of payables to individual Member State reserves.
- 149. The Sasakawa Endowment Fund was established in 1990 for the purpose of promoting the expansion of human resource transfer programmes and other migration-for-development programmes. Under the endowment agreement with the Sasakawa Foundation, the capital of the Fund must remain permanently intact. Only the interest income generated from the Fund may be used to finance activities of the Organization.

| | USD | |
|--|-----------|-----------|
| | 2016 | 2015 |
| Capital account balance at the end of the year | 2 000 000 | 2 000 000 |
| Income account | | |
| Interest income during the year | 7 500 | 3 200 |
| Transfer to Sasakawa Endowment Fund from projects | | |
| Supporting ASEAN in Moving Towards Increased Mobility of Skilled Labour | | 1 051 |
| Transfers from Sasakawa Endowment Fund to projects | | |
| Developing Global Cartography on Migration, Environment and Climate Change | | (4 251) |
| Capacity-building in Reparations and Land and Property Restitution | (7 500) | |
| Income account at the end of the year | 0 | 0 |

NOTE 15: BORROWINGS

150. The Organization borrowed funds from the Canton of Geneva for the purpose of purchasing its Headquarters building in Geneva. The loan is repayable over 50 years, until 2033. The repayment for 2016 was CHF 368,600 (2015: CHF 368,600). The Swiss franc loan is translated into US dollars at the year-end rate of exchange as shown in the table below. The loan is not subject to interest payments based upon a decision of the Swiss Federal Department of Foreign Affairs to waive any payments of interest, and the loan requires solely the reimbursement of the principal. The total original borrowing and amounts outstanding are shown in the following table.

| | | CHF | |
|----------------------------------|--------------------|--------------|--------------|
| | | 2016 | 2015 |
| Swiss Government Ioan | | 18 000 000 | 18 000 000 |
| Accumulated repayments | | (11 733 772) | (11 365 172) |
| | Loan balance - CHF | 6 266 228 | 6 634 828 |
| | Loan balance - USD | 6 113 393 | 6 695 084 |
| - current | | 359 610 | 371 948 |
| - non-current | | 5 753 783 | 6 323 136 |
| | Loan balance - USD | 6 113 393 | 6 695 084 |
| Year-end exchange rate (CHF/USD) | | 1.025 | 0.991 |

NOTE 16: RESOURCES CARRIED FORWARD

- 151. The operational programmes on a full accruals (IPSAS) basis ended in 2016 as follows:
- (a) A surplus relating to the staff security mechanism of USD 1,177,147 (2015: deficit of USD 650,867);
- (b) An increase to the Operational Support Income reserve of USD 7,830,918 (2015: increase of USD 1,888,300), bringing the total of the reserve to USD 31,356,545 (2015: USD 23,525,627).
- 152. Operational Support Income is not predictable. It fluctuates from year to year depending on the level of activities carried out. Thus, funds will need to be drawn from the above reserve should the amount of Operational Support Income available at the end of a financial year be less than the approved budget using the three-year average formula adopted by Member States.
- 153. In accordance with Executive Committee Resolution No. 134 of 3 July 2012 and Council Resolution No. 1240 of 27 November 2012 approving the decisions of the Executive Committee, the Member States approved the use of the cumulative surplus as at 31 December 2008 of CHF 557,251 for non-recurrent office premises expenditure at the Manila Administrative Centre. As at 31 December 2016, CHF 403,878 (USD 316,955) of that amount had been used. Member States also approved the use of surpluses as at 31 December 2013 of CHF 42,518 and as at 31 December 2014 of CHF 30,332 for non-recurrent expenditures relating to staff development and learning. As at 31 December 2016, the full amount of CHF 72,850 had been used.
- 154. Resources carried forward on a full accruals (IPSAS) basis are summarized in the following table.

| | | USD | |
|--|--------------|--------------|-------------------------|
| | 2016 | 2015 | (Increase)/ Decrease |
| Resources carried forward – surplus/(deficit) | | | |
| Administrative programme | | | |
| Resources from previous years | 474 652 | 474 652 | |
| Resources current year | (1 824 388) | (1 655 081) | 169 307 |
| Increase/(Decrease) in administrative surplus – previous years | (529 967) | (451 300) | 78 667 |
| Net impact of IPSAS adjustment | (11 139 092) | (11 139 092) | |
| Administrative programme: Resources carried forward | (13 018 795) | (12 770 821) | 247 974 |
| Operational programmes | | | |
| Operational programmes – Operational Support Income | 31 356 545 | 23 525 627 | (7 830 918) |
| Staff security mechanism | 4 353 569 | 3 176 422 | (1 177 147) |
| Accumulated surplus/(deficits) | 8 198 228 | 8 196 657 | (1 571) |
| Net impact of IPSAS adjustment | 22 131 292 | 20 246 347 | (1 884 945) |
| Operational programmes: Resources carried forward | 66 039 634 | 55 145 053 | (10 894 581) |
| Subtotal: Accumulated surpluses/(deficits) | 53 020 839 | 42 374 232 | (10 646 607) |
| Accumulated surpluses/(deficits) – exchange transactions | 34 165 818 | 28 262 423 | (5 903 395) |
| Currency translations (gains/(losses)) | (88 671 137) | (86 483 702) | 2 187 435 |
| Total: Resources carried forward | (1 484 480) | (15 847 047) | (14 362 567) |

155. The net impact of the IPSAS adjustment of USD 1,888,945 in 2016 within the operational programmes, referred to in the above table, consists of the reversal of accumulated depreciation on buildings and land as these were revalued at fair value as at 31 December 2016 in the amount of USD 1,058,904 (see Note 10) and the recognition of unrealized gains on financial instruments – derivatives of USD 826,040 (see Note 9).

NOTE 17: ACCUMULATED FUND BALANCE

156. The accumulated fund balance carried forward on a full accruals (IPSAS) basis is summarized in the following table.

| | USD | | |
|--|--------------|--------------|--|
| | 2016 2015 | | |
| Accumulated surpluses/(deficits) | | | |
| Non-exchange transactions | 53 020 839 | 42 374 232 | |
| Exchange transactions | 34 165 818 | 28 262 423 | |
| Subtotal: Accumulated surpluses/(deficits) | 87 186 657 | 70 636 655 | |
| Currency translations gains/(losses) | (88 671 137) | (86 483 702) | |
| Total accumulated surpluses/(deficits) | (1 484 480) | (15 847 047) | |

157. The currency translations (gains/(losses)) carried forward on a full accruals (IPSAS) basis are summarized in the following table.

| | USD | | |
|---|--------------|--------------|--|
| | 2016 2015 | | |
| Opening balance at the beginning of the year | (86 483 702) | (50 663 691) | |
| Realized foreign exchange gains/(losses) | 715 675 | (31 689 047) | |
| Unrealized foreign exchange gains/(losses) | (153 467) | (3 101 110) | |
| Subtotal: Exchange gains/(losses) | 562 208 | (34 790 156) | |
| Building revaluation loss due to currency rate fluctuations (see Note 10) | (1 923 602) | (1 218 962) | |
| Financial instruments – derivatives (see Note 9) | (826 040) | 189 107 | |
| Closing balance at the end of the year | (88 671 137) | (86 483 702) | |

158. The currency translations (gains/(losses)) amount of (USD 88,671,137) (2015: (USD 86,483,702)) mainly represents the accumulated unrealized revaluation of foreign currency monetary assets and liabilities converted into US dollars together with any realized exchange gains and losses upon settlements of accounts receivable and payable and balances of completed projects reported in a currency other than US dollars.

NOTE 18: RESERVES

159. Reserves carried forward on a full accruals (IPSAS) basis are summarized in the following table.

| | USD | | |
|---|------------|------------|--|
| | 2016 | 2015 | |
| Reserves | | | |
| Terminations reserve | 70 889 676 | 56 579 685 | |
| Rapid Response Transportation Fund | 814 662 | 811 797 | |
| Contingency reserve | 1 000 000 | 1 000 000 | |
| Emergency Preparedness Account | 129 594 | 129 594 | |
| Loans - Member States | 1 680 400 | 1 680 400 | |
| Refugee Loan Fund – IOM equity (see Appendix 6) | 311 553 | 311 553 | |
| Migration Emergency Funding Mechanism | 3 426 978 | 2 613 577 | |
| Total reserves | 78 252 863 | 63 126 606 | |

NOTE 18: RESERVES (continued)

Terminations reserve

160. Funds have been set aside to meet other end-of-service requirements. For instance, under the Staff Regulations and Rules, termination indemnities are typically payable to staff whose contracts are terminated before their expiration date. The amount set aside from the terminal emoluments reserve for this purpose totalled USD 70,889,676 (2015: USD 56,579,685).

Rapid Response Transportation Fund

- 161. A guidance note was concluded on 31 May 2000 between IOM and the Office of the United Nations High Commissioner for Refugees (UNHCR) on cooperation in the field of transportation. To enable IOM to meet its responsibilities under this guidance note, the Rapid Response Transportation Fund was established through IOM General Bulletin No. 1277 of 27 December 2000.
- 162. The Fund may be drawn on particularly in emergencies where it is established that there is a clear need for immediate assessment and transportation expenditure prior to receipt of external funding. UNHCR may request the assistance of IOM for transportation during voluntary repatriations, return movements, the resettlement of refugees and, in specific cases, organized evacuations. IOM assumes responsibility for the timely arrangement of air, sea and land transportation of refugees and other persons of concern to UNHCR.
- 163. Any authorized use of the Fund is considered as an advance against specific activities involving transportation assistance. All funds advanced from the Fund are to be fully reimbursed prior to the operation's conclusion and not later than six months after authorization.

| | USD | |
|---|---------|---------|
| | 2016 | 2015 |
| Opening balance at the beginning of the year | 811 797 | 806 924 |
| Contributions to the Fund | | |
| Interest income | 2 865 | 4 873 |
| Total: Contributions to the Fund | 2 865 | 4 873 |
| Repayment to the Fund from the following projects | | |
| Burundi Influx - United Republic of Tanzania | | 500 000 |
| Displaced Person Movement - Malawi | 100 000 | |
| Total: Repayments to the Fund from projects | 100 000 | 500 000 |
| Transfers from the Fund to the following projects | | |
| Burundi Influx - United Republic of Tanzania | | 500 000 |
| Displaced Person Movement - Malawi | 100 000 | |
| Total: Expenditure | 100 000 | 500 000 |
| Closing balance at the end of the year | 814 662 | 811 797 |

Contingency reserve

164. The use of the contingency reserve of USD 1,000,000 is governed by Council Resolution No. 413 of 17 November 1967.

Emergency Preparedness Account

165. The Emergency Preparedness Account (EPA) was established in accordance with General Bulletin No. 1054 of 30 August 1993. It is drawn on in emergency situations where there exists a clear need for immediate assessment and operational expenditure prior to the actual receipt of external operational funding. Any authorized use of the EPA is considered an advance against the specific operation that it supports, and all funds disbursed from the EPA are normally to be reimbursed as soon as possible once the operation obtains donor support.

NOTE 18: RESERVES (continued)

| | USD | |
|---|---------|---------|
| | 2016 | 2015 |
| Opening balance of the EPA at the beginning of the year | 129 594 | 129 594 |
| Transfers from the EPA to projects | | |

| Total: Transfers from the EPA to projects | 0 | 100 000 |
| Repayments to the EPA from projects | | |
| Responding to Needs of Displaced Persons and Supporting Emergency Response in Malawi | | 100 000 |
| Total: Repayments to the EPA from projects | 0 | 100 000 |
| Closing balance of the EPA at the end of the year | 129 594 | 129 594 |

Loans from Member States

166. A cash reserve of USD 1,680,400 consisting of interest-free loans from Member States was established by Resolution No. 70 of 30 April 1954. The loans provide the Organization with a cash reserve to cover temporary liquidity problems in the administrative or operational programmes. The cash reserve is governed by Article 14 of the Financial Regulations.

Migration Emergency Funding Mechanism

167. The Migration Emergency Funding Mechanism was established in accordance with Council Resolution No. 1229 of 5 December 2011. The Mechanism was established with the purpose of bridging the gap between the start-up of emergency operations and the subsequent receipt of donor funding. The Mechanism is funded from voluntary contributions on as broad a basis as possible, including from Member States, the private sector and individuals, and any interest income accrued is retained within the Mechanism. The Director General is authorized to expend funds from the Mechanism to ensure a rapid response to an emergency involving migration, pending receipt of donor contributions for the said emergency. The Mechanism is replenished upon receipt of donor contributions, and within the limits of funds allocated for the emergency in question.

Statement for the Migration Emergency Funding Mechanism for the year ended 31 December 2016

NOTE 19: CONTINGENT LIABILITIES

Co-funding

168. Certain donors, particularly the European Commission, commit to finance only a fixed percentage of total project expenditure and specifically require co-funding from other sources to cover the remaining percentage. IOM has signed agreements without the entire co-funding being confirmed up-front but commits itself to securing co-funding over the life of the project. To date, IOM has been mostly successful in securing co-funding for these projects principally by external funding, including by aligning IOM Development Fund proposals with co-funding needs and, if necessary, reducing or stopping project activities. However, the co-funding exposure has been identified as a risk to IOM and was brought to the attention of Member States in document IC/2006/2 (Co-funding mechanism) at the Informal Consultations on Budgetary and Management Matters on 22 June 2006. In addition, various measures have been put in place internally to address this issue. The Co-funding Group was established comprising staff from Headquarters and Brussels to review the status of these exposures and ways to finance co-funding needs. At 31 December 2016, IOM had eight ongoing projects into 2017 and beyond, four of which had a potential co-funding exposure amounting to USD 476,715. The project managers of such projects are required to actively pursue options to secure the full co-funding requirement within the project's implementation period.

Frozen bank accounts in Guatemala

Four bank accounts held in IOM's name at the Rural Development Bank of Guatemala (Banrural) were frozen by a Guatemalan court in 2008. In June 2012, the 17 remaining IOM accounts in Banrural were also frozen by court order. The actions that caused the freezes were initiated by Tradeco, a Mexican construction company, pending resolution of a dispute involving Tradeco, FONAPAZ (National Fund for Peace) and IOM. The dispute concerns an unfinished road construction project administered by IOM with the Government of Guatemala's resources on behalf of FONAPAZ (see Appendix 9). Ongoing discussions to resolve this long-running dispute have taken place at senior political levels between the Government of Guatemala, the Government of Mexico, Tradeco and IOM Headquarters and field officials. On 27 December 2012, funds in the amount of USD 10,828,513 were debited from IOM's 21 frozen deposit accounts at Banrural. IOM had received no notification prior to this action. The debiting was discovered on 2 January 2013 in the course of year-end accounting procedures. IOM initiated legal actions seeking recovery of the funds on 7 January 2013, including an amount of USD 32,121, consisting of December 2012 interest on the debited funds. On 7 February 2013, the court ordered the bank to credit the funds to IOM and, to date, the bank has not complied with the court order. It should be noted that IOM ended formal cooperation with FONAPAZ in 2010. IOM has closed the vast majority of subprojects financed by FONAPAZ. In March 2015, the Constitutional Court of Guatemala, the country's highest judicial instance, recognized that, because IOM's privileges and immunities had been violated, and in order to follow correct procedures, the situation before IOM had been notified of the lawsuit had to be restored. The decision is now moving back down through the courts in order to be implemented and should result in the freeze on IOM's funds being lifted.

Potential disallowance of expenditures

170. IOM has been engaged since 2008 in a project funded by USAID to provide health and education facilities for the benefit of displaced populations in Afghanistan. A local construction subcontractor, which was dismissed for unsatisfactory performance, is seeking damages from IOM in the amount of about USD 1.2 million and proposing an arbitration process with the United Nations Commission on International Trade Law. IOM intends to contest and counter the subcontractor's claim.

Iraq out-of-country voting project

171. In late 2004, IOM was retained by the Interim Government of Iraq to manage the out-of-country voting for Iraqi citizens abroad in the first election following the caretaker administration known as the Coalition Provisional Authority. IOM implemented this project, in close collaboration with an NGO, the International Foundation for Election Systems. The project involved establishing and operating a series of offices and polling stations around the world in countries where large numbers of Iraqi diaspora were present, and had a total expenditure of approximately USD 75 million. Although the project and the out-of-country voting process went smoothly and without incident at the time, the Iraqi Government has recently raised questions about the high cost of the project, noting that the per capita cost was quite high as only about 200,000 overseas Iraqis voted, rather than the 1 million that had been hoped for. The Iraqi Government's view is that IOM's expenditures were excessive and that the project costs should have been USD 57 million lower. IOM firmly believes that the costs of the project were appropriate and fully justified, as the implementation had to be carried out in an extremely short time frame of 83 days and with significant and necessary security expenditures given the numerous security risks prevailing at the time.

NOTE 19: CONTINGENT LIABILITIES (continued)

Furthermore, IOM believes that it cannot be held accountable for the lower-than-expected voter turnout, which was the principle reason for the high per capita cost result. The Iraqi Government brought an action against IOM in a local court in Baghdad to try to recover the funds related to the questioned costs. With the aim of reaching an understanding with the Iraqi Government on this matter, an IOM delegation from Headquarters met with senior Iraqi Government officials in Amman on 20 October 2015 to begin negotiations on a resolution to the outstanding issues relating to this 11-year-old project. The Iraqi Government has agreed to temporarily suspend its legal actions while negotiations are under way. Discussions with the Iraqi Government have continued, and negotiations appear to be in the final stages. It is expected that this matter will be favourably resolved during 2017.

NOTE 20: COMMITMENTS

Operating lease commitments

172. The future aggregate minimum lease payments under non-cancellable operating leases where IOM is lessee are shown in the table below.

| Duration of operating leases (IOM as lessee) | 2016 USD |
|--|-------------|
| No later than 1 year | 2 652 306 |
| Later than 1 year and no later than 5 years | 5 985 210 |
| Later than 5 years | 1 209 027 |
| | 9 846 543 |

- 173. Some of the operating lease agreements contain renewal clauses which enable IOM to extend the terms of the leases at the end of the original lease terms and escalation clauses that may increase annual rent payments based on increases in the relevant market price indexes in the respective countries where the Field Offices are located.
- 174. IOM, as lessor, receives lease payments from the rental of office space in IOM buildings that are owned in Santiago (Chile), Buenos Aires (Argentina) and La Paz (Plurinational State of Bolivia).

NOTE 21: BENEFICIARY ASSETS

175. Undistributed equipment purchased for beneficiaries totalled USD 9.4 million at 31 December 2016 (2015: USD 11.9 million). The cost of the items is fully expensed in the month of purchase.

NOTE 22: RELATED PARTIES

- 176. The Organization is governed by the Council, which is composed of representatives of all 166 Member States. They do not receive remuneration from IOM. Transactions between IOM and its Member States take the form of assessed contributions in accordance with an assessment scale approved each year by the Council. In addition, Member States provide voluntary contributions for individual programmes and projects in the normal course of IOM's business.
- 177. The Organization has no ownership interest in associations or joint ventures.
- 178. The Director General, the Deputy Director General, the Legal Counsel, the Chief of Staff, the Directors of Headquarters Departments and the Director of the Manila Administrative Centre have the authority and responsibility for planning, directing and controlling the activities of IOM. These key management personnel are remunerated by the Organization.
- 179. Key management personnel and their aggregate remuneration (including salaries, allowances, health and pension contributions) were as shown in the table below.

NOTE 22: RELATED PARTIES (continued)

| | 2016 | | 2016 201 | |
|--|-----------------------|------------------------------|-----------------------|------------------------------|
| | Number of individuals | Aggregate remuneration (USD) | Number of individuals | Aggregate remuneration (USD) |
| Director General, Deputy Director General and other senior staff from the Office of the Director General | 4 | 1 414 370 | 4 | 1 384 564 |
| Other senior managers | 5 | 1 487 999 | 5 | 1 447 411 |

180. There were no loans to key management personnel and their close family members which were not available to other categories of staff. Key management personnel have the same after-service entitlements (including pension and health benefits) as other staff. There was no remuneration or compensation to key management personnel or their close family members.

NOTE 23: BUDGET TO ACTUAL COMPARISONS

- 181. The budget documents are prepared based on known confirmed funding and the projected level of activities until the end of the year, as follows:
- Programme and Budget in August of the year preceding the budget year
- Revision of the Programme and Budget in March of the budget year
- Summary update on the Programme and Budget in September of the budget year
- 182. The first two of the budget documents are approved, while the Summary update is an information document presented to the Council on the status of contributions and project implementation.
- 183. IOM received additional confirmed funding of approximately USD 421.33 million in the last four months of the year (2015: USD 334.91 million). Actual implementation for the remainder of the year can in some cases be faster and in other cases slower than originally anticipated due to operational realities. The Director General is authorized, in exceptional circumstances, to incur obligations and make payments in respect of operational projects which have not been included in the approved Operational Part of the Budget, provided that certain conditions are satisfied (Financial Regulation 4.7).
- 184. The actual amounts expressed on a comparable basis for General Programme Support include budgeted expenditures forming part of the Services/Support summary table VIII in budget documents C/107/15 and S/18/9 for the following activities: Seconded Staff, Migrant Management and Operational Systems Application (MiMOSA), Staff and Services Covered by Miscellaneous Income, the Sasakawa Endowment Fund, International Migration Law, Humanitarian Assistance for Stranded Migrants, and other miscellaneous activities.
- 185. The budget to actual comparison for the administrative programme is presented separately in Swiss francs as required by Financial Regulation 3.2 see the Statement of financial performance and budget comparison (administrative programme) (Statement V(b)). From the total 2016 assessed contributions from new Member States, CHF 2,430 has been used to contribute towards costs relating to staff development and learning, as presented in the Revision of the Programme and Budget for 2016 (S/18/9) and approved by Member States through SCPF Resolution No. 10 of 16 June 2016. Additional contributions received in the amount of CHF 1,291,830 from new Member States that joined mid-year have been applied in accordance with Council Resolution No. 1230 of 5 December 2011.
- 186. The sources and application of Operational Support Income, including any carry-forwards, are provided separately in accordance with Financial Regulation 6.3 see Appendix 4.
- 187. The major differences between the full accruals (IPSAS) basis presented in the Statement of financial performance and the Statement of cash flows and the modified accruals (budgetary) basis presented in the Statements of comparison of budget and actual amounts are explained below.

NOTE 23: BUDGET TO ACTUAL COMPARISONS (continued)

- Property, plant and equipment acquisition On the modified accruals (budgetary) basis (and for donor reporting purposes), costs of assets are fully expensed in the month of acquisition. In the Statement of financial position, the Statement of financial performance and the Statement of cash flows, assets acquired are capitalized and depreciated in accordance with the accounting policies outlined in Note 2.
- Staff benefits As explained in Note 13 (Liabilities relating to employee benefits), on the modified accruals (budgetary) basis, terminal emoluments are expensed when disbursed under the Administrative Part of the Budget. Under the Operational Part of the Budget, these payments are expensed based on a fixed percentage of salary costs as established by the Council. In the Statement of financial performance and the Statement of cash flows, the expenses for these benefits also take into consideration the change in the provision (liability) for each benefit as computed by the actuary or by the Organization in accordance with the accounting policies outlined in Note 2.

Reconciliation of the Statements of comparison of budget to actual amounts (Statements V(a) and V(b)) and the Statement of financial performance (Statement II)

| | | USD | | |
|---|----------------------|----------------------|----------------------|-----------------|
| | Operating activities | Investing activities | Borrowing activities | Total |
| Entity differences – administrative programme | | | | |
| Surplus/(Deficit) for the period | (77 091) | | | (77 091) |

| Total basis adjustments | (16 823 791) | 15 595 756 | | (1 228 035) |
| Net result as per the Statement of financial performance (Statement II) | (1 435 428) | 15 595 756 | | 14 160 328 |

NOTE 24: SERVICES IN KIND

188. Services in kind are services provided to IOM free of charge. The major classes of services in kind received by IOM include those outlined in the table below.

| Donor | Type/Class of services in kind received | Unit/Measure |
|--|--|--------------|
| Audit and Oversight Advisory Committee | Audit advisory services | 49 days |
| Comptroller and Auditor General of India | Audit services | 72 days |
| Government of Ghana | Audit services | 324 days |
| DLA Piper | Legal services | 14 hours |
| Kennel Helsinki | Expert services | 100 hours |
| Valve | Expert services | 200 hours |
| SAS Institute | Expert services | 50 days |
| European Institute for Crime Prevention and Control (HEUNI) | Personnel services | 397 hours |
| United Kingdom Department for International Development | Personnel services | 224 days |
| Government of Turkey | Personnel services | 261 days |
| Government of Italy | Personnel services | 775 days |
| Government of Sweden | Personnel services | 129 days |
| Government of the United States (Centers for Disease Control and Prevention) | Personnel services | 98 days |
| City of Lausanne (SYNI Programme) | Personnel services | 1,261 days |
| iMMAP | Personnel services | 97 days |
| Swedish Civil Contingencies Agency (MSB) | Personnel services | 249 days |
| Norwegian Refugee Council | Personnel services | 3,064 days |
| RedR Australia | Personnel services | 604 days |

189. Offices in the following countries (at the indicated locations) receive office space rent free or at a nominal "peppercorn" charge from the host governments: China (Hong Kong), France (Marseilles), Greece (Athens), Portugal (Lisbon), Senegal (Dakar), Sudan (Kadugli) and the United Republic of Tanzania (Moshi).

NOTE 25: REVENUE AND EXPENSES

Revenue

190. The below table presents the revenue recognized by IOM on a modified accruals (budgetary) basis and IPSAS adjustments.

| | USD | | | | | |
|---|----------------|---------------|------------|---------------|---------------|-------|
| | 2016 | | | 2015 | | |
| | ADMINISTRATIVE | OPERATIONAL | IPSAS | TOTAL | TOTAL | TOTAL |
| | BUDGETA | RY BASIS | ADJUSTMENT | | TOTAL | |
| REVENUE | | | | | | |
| Earmarked contributions | | | | | | |
| Voluntary contributions – earmarked | | 1 459 358 028 | | 1 459 358 028 | 1 432 703 678 | |
| Assessed contributions | 45 887 855 | | | 45 887 855 | 43 148 345 | |
| Receipts from refugees, migrants, sponsors, other | | 101 185 644 | (518 773) | 100 666 871 | 108 394 762 | |
| In-kind contributions | | 2 193 742 | | 2 193 742 | 3 511 880 | |
| Subtotal: Earmarked | 45 887 855 | 1 562 737 414 | (518 773) | 1 608 106 496 | 1 587 758 665 | |
| Unearmarked contributions | | | | | | |
| Interest and other unearmarked revenue (net) | | 4 072 400 | | 4 072 400 | 3 413 350 | |
| Voluntary contributions – unearmarked | | 3 455 096 | | 3 455 096 | 3 317 940 | |
| Subtotal: Unearmarked | | 7 527 496 | | 7 527 496 | 6 731 290 | |
| TOTAL REVENUE | 45 887 855 | 1 570 264 910 | (518 773) | 1 615 633 992 | 1 594 489 955 | |

NOTE 25: REVENUE AND EXPENSES (continued)

- 191. The amounts shown for the assessed contributions represent actual revenue related to the Organization's administrative programme, as adopted by the Council. Assessed contributions for the Administrative Part of the Budget are invoiced in Swiss francs and converted to US dollars at the United Nations operational rate of exchange at the invoice date.
- 192. Earmarked voluntary contributions received from donors for the operational programmes represent earmarked revenue received for activities where the use of the funds is specified in the agreement with the donor. All such contributions are tied to conditions contained in the agreements with donors requiring IOM to deliver specified services to governments and individuals. Revenue is recognized when the underlying services covered by these funds have been delivered.
- 193. Receipts from refugees, migrants, sponsors and others represent funds received by IOM to cover travel, visa and medical costs incurred. Revenue is recognized when the underlying service covered by the funds has been delivered. IPSAS adjustments relate to the recognition of the gain or loss on the sale of equipment and represent the difference between the carrying value of the equipment (cost less accumulated depreciation) and the amount realized from the sale.
- 194. In-kind contributions represent contributions of goods and equipment received from donors. Revenue is recognized at the fair US dollar value of the contribution on the date when the goods or equipment become available for IOM to use in providing services.
- 195. Interest and other unearmarked revenue relate to funds earned on cash balances held by IOM pending their use in delivering services. Interest revenue is recognized when the revenue is earned. Unearmarked voluntary contributions represent funds received from donors for use by IOM in carrying out services under its mandate. Funds are recognized when received by the Organization.

Expenses

196. The below table presents the expenses recognized by IOM on a modified accruals (budgetary) basis and IPSAS adjustments.

| | | | USD | | |
|---|----------------|---------------|--------------|---------------|---------------|
| | | 201 | 6 | | 2015 |
| | ADMINISTRATIVE | OPERATIONAL | IPSAS | TOTAL | TOTAL |
| | BUDGETA | RY BASIS | ADJUSTMENT | IOIAL | TOTAL |
| EXPENSES | | | | | |
| Transportation assistance | | 317 729 811 | | 317 729 811 | 225 063 751 |
| Medical assistance | | 33 982 281 | | 33 982 281 | 28 342 229 |
| Other direct assistance to beneficiaries | | 196 438 314 | | 196 438 314 | 172 599 655 |
| Implementing partner transfers | | 63 932 599 | | 63 932 599 | 76 562 112 |
| Contractual services (including on behalf of beneficiaries) | 2 869 633 | 342 303 810 | | 345 173 443 | 517 559 217 |
| Staff salaries and benefits | 37 083 624 | 368 525 346 | 1 864 259 | 407 473 229 | 366 421 450 |
| Travel and subsistence | 1 857 527 | 43 940 033 | | 45 797 560 | 37 862 826 |
| Supplies and consumables | 4 099 535 | 185 778 206 | (15 595 756) | 174 281 985 | 144 088 960 |
| Depreciation and amortization | | | 15 265 100 | 15 265 100 | 13 343 950 |
| Doubtful receivables | (669 386) | | | (669 386) | 877 192 |
| Other expenses | 353 945 | 2 548 536 | | 2 902 481 | 2 478 532 |
| TOTAL EXPENSES | 45 594 878 | 1 555 178 936 | 1 533 603 | 1 602 307 417 | 1 585 199 874 |

197. The amounts shown for transportation assistance, medical assistance, other direct assistance to beneficiaries and a portion of contractual services cover the actual costs incurred by IOM in the direct provision of assistance to individuals and groups of beneficiaries in accordance with IOM's mandate. Expenses are recognized when the underlying service is delivered to the beneficiary. All staff costs directly or indirectly related to delivering the assistance are reported under the "Staff salaries and benefits" line and are therefore excluded from these report lines.

NOTE 25: REVENUE AND EXPENSES (continued)

- 198. The amounts shown as implementing partner transfers represent funds provided to governments and NGOs to implement specific services under donor agreements. Expenses are recognized when the services are delivered by the partner.
- 199. Contractual services cover the costs of services purchased from external suppliers and consultants, including obtaining such services on behalf of beneficiaries. Costs are recognized when the contracted service has been delivered. The IPSAS adjustment relates to the recognition of costs incurred in connection with internally developed software.
- 200. Staff salaries and benefits include all costs of compensation provided to international Professional staff and locally employed staff engaged in delivering operational project services and general IOM administration. Expenses are recognized when the salaries and benefits are earned by IOM staff. The IPSAS adjustment relates to the recognition of the cost of employee benefits such as annual leave, separation benefits and after-service health insurance that have been earned but not paid at the reporting date (31 December of each year).
- 201. Travel and subsistence expenses represent the travel and living costs incurred by IOM staff while on official missions. The reimbursable expenses of staff members are processed in accordance with the Staff Regulations and Rules and IOM's travel instructions. Expenses are recognized when the travel is undertaken.
- 202. Supplies and consumables represent the costs of goods and equipment acquired in connection with IOM's operations and administration. Expenses are recognized when the goods are received by IOM. The IPSAS adjustment relates to the capitalization of equipment above the capitalization threshold of USD 5,000, as specified in IOM's accounting policies.
- 203. The IPSAS adjustment for depreciation and amortization represents the annual charge for the use of property, plant and equipment and IT software capitalized in accordance with IOM's accounting policies.
- 204. Doubtful receivables represent an adjustment in the provision required by IPSAS to bring the value of the provision to a sufficient amount to fully offset receivables from assessed contributions that have been outstanding for two years or more and for which no payment plan has been agreed. All other receivables, including voluntary contributions, are reviewed and the provision is adjusted to reflect the value of receivables for which receipt is considered doubtful and the difference is charged or credited to expenses.
- 205. Other expenses mainly include banking charges, which are recognized as expenses when the service covered by the charge is delivered by the bank.
- 206. Exchange losses include the net realized difference between the value of transactions incurred in currencies other than the US dollar at the United Nations operational rate of exchange and the value at the exchange rate provided by the bank. Exchange losses also include the unrealized loss on the revaluation of assets (including accounts receivable, cash and investments) and liabilities (including accounts payable) valued in currencies other than the US dollar.

Write-offs

- 207. IOM Financial Regulation 10.2 provides that: "The Director General may, after full investigation, authorize the write-off of losses of cash or other assets. A statement of all such write-offs shall be submitted to the External Auditors and reported in the annual financial statements."
- 208. In the absence of other sources of revenue, USD 2,504,784 (2015: USD 5,934,565) had to be applied from Operational Support Income to cover unforeseen project shortfalls. Expenses related to such shortfalls are included in the appropriate expenses lines (see above for definitions) according to the nature of the expense. The shortfalls were due to: (a) project budget overruns of approximately USD 2.2 million arising from completed projects in Afghanistan, Ethiopia, the Central African Republic, the Democratic Republic of the Congo and Niger and other locations; and (b) USD 0.3 million relating to co-funding deficits and costs declared ineligible following donor audits of specific projects.

NOTE 26: FINANCIAL RISKS

- 209. The Organization receives revenue from contributions and service fees and incurs expenses in currencies other than the US dollar (IOM's reporting currency) and is, therefore, exposed to foreign currency exchange risks arising from exchange rate fluctuations between those currencies and the US dollar. The Administration uses derivative financial instruments (i.e. swaps), the proceeds of which are credited to miscellaneous income.
- 210. The Organization has offices in various countries with assets and liabilities denominated in local currencies. In addition, the Administration held deposits in other currencies, including Australian dollars, British pounds sterling, euros, Japanese yen, Norwegian kroner and Swiss francs. The currency translations (gains/(losses)) are part of the accumulated fund balance (see Note 17).
- 211. IOM mitigates the currency fluctuation risk to the Administrative Part of the Budget by naturally hedging through matching the receipt of revenues and liabilities in various currencies. IOM may acquire derivatives to hedge its assets and liabilities related to the Operational Part of the Budget. Currency exposure is limited as the related project budgets are adjusted to reflect the value of the project currency relative to other currencies.
- 212. The Organization's financial instruments and the net foreign currency exposure as at 31 December 2016 is as shown in the table below.

| 2016 | USD | CHF at USD equivalent | EUR at USD equivalent | GBP at USD equivalent | COP at USD equivalent | PEN at USD equivalent | Other currencies at USD equivalent | Total USD |

NOTE 26: FINANCIAL RISKS (continued)

- 213. Regarding the derivative financial instruments used for hedging currency risk, as at the date of each transaction, the net realized gain was USD 245,381 (2015: USD 3,817,569) and the realized loss was USD 946,201 (2015: USD 1,244,024). The unrealized gains amounted to USD 838,317 (2015: unrealized gain: zero) and the unrealized loss amounted to USD 12,277 (2015: unrealized loss: zero).
- 214. The following table shows the impact on surplus/deficit and the impact on net assets arising from financial instruments to which the Organization was exposed as at 31 December 2016, if the major currencies in which financial instruments were held had weakened or strengthened by 5 per cent, which is the management's upper estimate of possible movements in exchange rates against the US dollar.

| | USD (in | millions) |
|--------------|---------------------------|----------------------|
| 2016 | Impact on surplus/deficit | Impact on net assets |
| +5 per cent | 24.94 | (20.86) |
| - 5 per cent | (27.56) | 22.91 |

- 215. The Organization is exposed to credit risk due to non-payment, which also has an impact on liquidity. A provision for doubtful receivables has been established for amounts that have been receivable for two years or more as a result of the non-payment of assessed contributions by Member States. Credit risks also exist for receivables from donors under the operational programmes (for non-payment) and for down payments to suppliers and implementing partners (for non-performance). Provisions for doubtful receivables are also made where donor contributions are in doubt at the reporting date. Receivables are monitored and followed up on an ongoing basis. Down payments are made where it is otherwise unavoidable (e.g. global airline agreements) or where it is financially viable to do so. Field Offices are required to monitor down payments on a monthly basis.
- 216. The Organization's exposure to liquidity risk is limited by its requirement that projects financed from earmarked voluntary contributions, which make up 90 per cent of revenues, do not commence operation until the cash resources required to finance project activities have been deposited into an IOM bank account. The Administrative Part of the Budget is financed by mandatory assessed contributions paid by IOM Member States. Based on experience, over 95 per cent of these funds are received within the current year and 99 per cent within a two-year period. IOM also manages liquidity risk by continuously monitoring actual and estimated cash flows. The Organization does not have the authority to contract long-term debt without the approval of its Council.
- 217. The Organization's objective is to maintain a balance between continuity of funding and flexibility through the use of deposits with banks and cash funds. The following table summarizes the maturity of financial assets and financial liabilities.

NOTE 27: SEGMENT REPORTING

218. The geographical segments are broadly based on the regional classifications adopted by the United Nations, with the grouping of regions in some instances. The "Latin America and the Caribbean" geographical segment combines the United Nations two regions of "Central America and the Caribbean" with "South America". Similarly the "Asia and Oceania" geographical segment combines the United Nations two regions of "Central, East and South Asia" with the "South Pacific". The geographical segment for Europe includes Turkey. The global activities segment includes all activities that are not restricted to a single or multiple regions. The administrative programme segment includes the activities financed from the Administrative Part of the Budget. For segments by services, see Appendix 3.

Notes:

IOM had 166 Members at the end of 2016 (162 at the end of 2015).

Solomon Islands, Tuvalu and China were admitted as Members by Resolutions Nos. 1314, 1315 and 1316, respectively, adopted by the Council on 30 June 2016.

The contributions of China, Solomon Islands and Tuvalu in 2016 are prorated from the date of entry into the Organization.

Tonga was admitted as a Member by Resolution No. 1319, adopted by the Council on 5 December 2016.

The actual amount expensed under this item is inclusive of USD 2,504,784 coverage for unforeseen project shortfalls (Note 25).

² The Operational Support Income reserve now stands at USD 31,356,545 (2015: USD 23,525,627).

The net accrual adjustment to full accruals (IPSAS) basis is USD 336,443 for the Operational Support Income reserve.

⁴ The net accrual adjustment to full accruals (IPSAS) basis is USD 17,913 for staff security.

SOURCES AND APPLICATION OF OPERATIONAL SUPPORT INCOME FOR THE PERIOD ENDED 31 DECEMBER 2016 (continued)

II. STAFF SECURITY MECHANISM

Following Executive Committee Resolution No. 134 of 3 July 2012, and Council Resolution No. 1240 of 27 November 2012 approving the decisions of the Executive Committee, the Director General maintains a mechanism to transparently monitor the income used for staff security which is generated from the overhead rate applied to a project's total costs. These funds are used to pay for the cost of IOM's participation in the United Nations Department of Safety and Security (UNDSS) and, within the limits of available resources, the cost of minimum operating security standards (MOSS) compliance requirements, evacuations and other staff security costs.

SOURCES AND APPLICATION OF OPERATIONAL SUPPORT INCOME FOR THE PERIOD ENDED 31 DECEMBER 2016 (continued)

III. IOM DEVELOPMENT FUND

Under Executive Committee Resolution No. 134 of 3 July 2012, and Council Resolution No. 1240 of 27 November 2012 approving the decisions of the Executive Committee, the Director General is requested to allocate USD 1.4 million from Operational Support Income for the development of migration projects in favour of developing Member States and Member States in transition on the basis of an equitable regional distribution, without prejudice to funds already allocated for these purposes, referred to as funding Line 1.

An additional 25 per cent of Operational Support Income (excluding security) in excess of USD 20.0 million is allocated to the IOM Development Fund referred to as funding Line 2.

On the basis of the Operational Support Income generated in 2016 of USD 70.8 million (2015: USD 59.1 million), an additional USD 6.1 million (2015: USD 5.3 million) was allocated to Line 2 of the IOM Development Fund for use in 2017. This amount is in addition to the USD 1.4 million annual allocation to Line 1 of the IOM Development Fund, bringing the total allocation for the IOM Development Fund for the year 2017 to USD 7.5 million.

The total amount available for the IOM Development Fund (excluding direct voluntary contributions) cannot exceed total miscellaneous income (unearmarked contributions and interest income) as stipulated in Executive Committee Resolution No. 134.

REFUGEE LOAN FUND

Establishment and purpose of the Fund

The Refugee Loan Fund, established pursuant to Resolution No. 210 of 12 May 1960, is used to finance, in part or whole, the cost of transporting and providing related services to refugees by giving interest-free loans to those who require financial assistance to migrate to resettlement countries. The repayment of such loans is secured by promissory notes signed by the refugee or his/her sponsor.

Formerly, there were two separate loan funds. At its Sixty-first Session on 28 November 1990, the Council approved the merger, effective 1 January 1991, of the Refugee Loan Fund and the Loan Fund for Refugees outside Europe.

During 2016, there were 107,493 movements (2015: 74,035) under the Refugee Loan Fund.

REFUGEE LOAN FUND (continued)

Accounting and evaluation of promissory notes

Refugees assisted through the Loan Fund are expected to subsequently contribute towards their transportation costs. The total cost is paid for initially by the Loan Fund, but each refugee (or family unit) is required to sign a promissory note for the cost. Once the refugees are resettled, they are expected to honour their promissory notes.

The collection by IOM as an agent of the United States Government of amounts due under the promissory notes is carried out by various voluntary agencies that are entitled to retain 25 per cent of the amount collected to cover their own expenses. The remaining 75 per cent is remitted to IOM and credited to the Loan Fund.

The total value of future collections from outstanding promissory notes represents a significant asset of the Loan Fund and therefore requires evaluation for financial reporting purposes. No exact evaluation can be made, however, since future recoveries depend on sustained collection efforts which may also be influenced by political and economic events.

One practical and conservative method for evaluating the future value of repayments from outstanding notes is to make an estimate based on past collection experience. A calculation of the average repayment rate as at 31 December 2016 for loans issued in 2001 and earlier yielded an average 70-per cent repayment rate. This 70-per cent repayment rate was used to project the recoverable value of new notes issued in 2016 in the analysis below. The recoverable value on previously issued notes was not significantly adjusted.

| | US | SD |
|---|--------------|--------------|
| | 2016 | 2015 |
| Estimated recoverable value at the beginning of the year | 115 700 000 | 116 500 000 |
| Estimated recoverable value of new notes issued during the year | 61 343 459 | 47 322 180 |
| Adjustment of previously estimated recoverable value | 61 419 | 55 906 |
| Cash collections during the year | (51 804 878) | (48 178 086) |
| Estimated recoverable value at the end of the year* | 125 300 000 | 115 700 000 |

^{*} Estimated recoverable value for the United States Government.

By way of background, it should be noted that the average repayment rate for loans that have been outstanding for five years or more has increased steadily in recent years, from an average of 44 per cent in 1996 to 74 per cent as of 2016. The improvement in the collection rate reflects the collection activities of IOM Orange County and better debt collection techniques used by the agencies.

General note

Under the umbrella of the Government of Guatemala – FONAPAZ (National Fund for Peace), IOM is the implementing partner for a variety of activities designed to improve the living conditions of the Guatemalan population, particularly in zones of return and reinsertion and adjoining areas. As a result of an exchange of letters between IOM and the Government of Guatemala in 1997, it was agreed that the financing of these activities would be in the form of a fiduciary fund. The terms of the fiduciary relationship were documented in an agreement dated 4 June 1998 and updated in a letter of understanding dated 12 December 2000. Under the terms specified in the agreement, the Fund's purpose is to administer the projects with which IOM, in cooperation with the Government of Guatemala – FONAPAZ, is involved. Fiduciary Fund expenditures are authorized by representatives of the Government and are subject to audit by IOM in compliance with the IOM Financial Regulations.

The Urban and Rural Community Support Programme is financed by the Executive Coordination Secretariat of the Presidency (SCEP), an institution accepting social investment requests from urban and rural communities according to the stipulations of Decree No. 35-04 of the Congress of Guatemala and the General Income and Expenditure Budget of the State (Fiscal Year 2005). Specifically, the Programme includes the following components: building local roads; providing drinking water and environmental sanitation; building schools; providing infrastructure, health services and social assistance; executing productive programmes; and other components contributing to improving the living standards of populations in conditions of poverty and extreme poverty throughout the country. IOM provides technical and administrative assistance for the implementation and operation of the Urban and Rural Community Support Programme promoted by the Presidency of Guatemala through the SCEP. The programme takes advantage of IOM's long experience in the successful execution of the comprehensive development projects of FONAPAZ.

Accounting policies

The financial statements were prepared on the modified cash basis of accounting. Consequently, income is recognized when received and not when earned, and expenses are recognized when paid and/or when obligation is acquired. Consequently, on an interim basis, expenditures could exceed recorded income for a given project category.

The Fiduciary Fund's resources and expenditure are presented by project category. The underlying transactions and accounts of record for the Fiduciary Fund are in Guatemalan quetzales. The summary financial statement is included in US dollars, converted at 7.54 at 31 December 2016 (7.62 at 31 December 2015).
