REPORT OF MANAGEMENT

17 April 2020

REPORT OF MANAGEMENT

The Financial Report of IOM provides the financial information of the Organization on a transparent and accessible basis. It is an important element in the overall framework of accountability and financial integrity of the Organization.

The financial statements and associated disclosures have been drawn up in accordance with the International Public Sector Accounting Standards (IPSAS), the IOM Financial Regulations and the relevant resolutions adopted by the governing bodies of the Organization. Contributions from governments and other sources have been used solely for the purposes for which these were specifically designated. All transactions have been properly documented.

The system of internal control relating to financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Financial Regulations. This system includes relevant policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transaction; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements and that receipts and expenditures are executed in accordance with authorizations of management in compliance with the Financial Regulations; and (iii) provide reasonable assurance regarding the prevention or timely detection of unauthorized acquisition, use or disposition of the Organization's assets. Owing to the limitations inherent in a decentralized organization, internal control over financial reporting may not prevent or detect all misstatements.

To the best of our knowledge, the financial statements fairly present the Organization's financial position at 31 December 2019. During the external audit process, IOM provided the Ghana Audit Service with all relevant information and access as agreed in the terms of the audit engagement. The opinion of the External Auditor, the Auditor General of Ghana, is provided on the next page.

My Ref. No: AG/IOM/11

Your Ref. No:

Dear Mr. Vitorino

Audit Report of the External Auditor on the Financial Statements of the International Organization for Migration for the year ended 31 December 2019

Sir,

I have the honour to transmit the financial statements of the International Organization for Migration for the year ended 31 December 2019. I have audited these statements and have expressed my opinion thereon.

Please accept the assurances of my highest consideration.

Yours sincerely,

Daniel Yaw Domelevo (Auditor-General)

Mr. António Vitorino
Director General
International Organization for Migration
17, route des Morillons
CH 1211
Geneva 19
Switzerland

OPINION OF THE EXTERNAL AUDITOR (continued)

Independent Auditors Report

The Chairman
The 111th Council
International Organization for Migration

Report on the Financial Statements

We have audited the financial statements of the International Organization for Migration (IOM), which comprise the statement of financial position as at 31 December 2019, the statement of financial performance for the year ended 31 December 2019, statement of changes in equity, statement of cash flows, statement of comparison of budget and actual amounts, statements of financial performance and budget comparison, notes to the financial statements for the financial year ended 31 December 2019, and other explanatory notes.

Management responsibility for the financial statements

Management of IOM is responsible for the preparation and presentation of the financial statements in accordance with the International Public Sector Accounting Standards (IPSAS). This responsibility includes the design, implementation and maintenance of internal control procedures to enable the preparation of the financial statements which are free of material misstatements, whether due to fraud or errors. This responsibility also includes the selection and application of appropriate accounting policies and the use of accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the International Standards on Auditing. These standards require us to comply with ethical requirements and to plan and perform our audit in order to obtain a reasonable assurance that the financial statements are free from material misstatements.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's professional judgement, including assessment of the risks of material misstatements of the financial statements, whether due to fraud or errors. In making those risk assessments, the auditor considers the internal control procedures in place for the preparation and fair presentation of the financial statements, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used, the reasonableness of accounting

OPINION OF THE EXTERNAL AUDITOR (continued)

estimates made by management, and the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the financial position of the International Organization for Migration as at 31 December 2019, and its financial performance and cash flow for the period then ended in accordance with IPSAS.

Report on Other Legal and Regulatory Requirements

Further, in our opinion, the transactions of the International Organization for Migration that have come to our notice or which we have tested as part of our audit have, in all significant respects, been in accordance with the IOM Financial Regulations.

In accordance with Regulations 12.1 of the Financial Regulations, we have also issued a long-form Report on our audit of the International Organization for Migration.

Daniel Yaw Domelevo Auditor General of Ghana

External Auditor

Accra, Ghana 1 June, 2020

FINANCIAL HIGHLIGHTS

OVERVIEW

- 1. Combined total revenue consisting of assessed contributions under the administrative programme and voluntary contributions under the operational programmes, including interest and other unearmarked revenue, reached USD 2,127.1 million in 2019, representing a 17.4 per cent increase compared with the 2018 restated total revenue of USD 1,811.8 million. The deferred revenue under the operational programmes, which relates to contributions received from donors in advance of performance delivery for activities to be completed beyond 2019, reached USD 1,159.3 million as at 31 December 2019 compared with 2018 restated deferred revenue of USD 937.6 million, reflecting a notable increase of 23.6 per cent in funding secured for operational activities for future financial periods.
- 2. Earmarked voluntary contributions under the operational programmes amounted to USD 1,895.4 million (2018 restated: USD 1,617.5 million), which included softly earmarked contributions of USD 13.0 million (2018: USD 6.6 million) for IOM country operations and humanitarian appeals.
- 3. Unearmarked (core) contributions were received from the following Governments: Austria, Belgium, Denmark, Ireland, Netherlands, Norway, Portugal, Sweden, Switzerland, United Kingdom and United States of America, totalling USD 28.5 million (2018: USD 30.1 million).
- 4. The flexible funding (unearmarked and softly earmarked contributions) made available to IOM, and particularly the unearmarked (core) contributions received, provide vital support to IOM and allow the Organization to invest in institutional initiatives targeting the strengthening of its core functions in support of implementing its mandate and providing the much needed assistance to its beneficiaries and populations in need.
- 5. Combined total expenditure for the administrative and operational programmes reached USD 2,096.3 million in 2019, representing an increase of USD 302.8 million (an increase of 16.9 % compared with the 2018 restated result of USD 1,793.5 million).

| | USD | million | Differ | Difference | |
|--|---------|--------------------|------------------------|-------------|--|
| Expenditure | 2019 | 2018 (restated) | % of total expenditure | USD million | |
| Administrative programme | 54.4 | 54.9 | 3% | (0.5) | |
| Operational programmes | 2 041.9 | 1 738.6 | 97% | 303.3 | |
| Total expenditure for the year (excluding exchange rate differences) | 2 096.3 | 1 793.5 | 100% | 302.8 | |

- 6. The USD 303.3 million increase in operational activities materialized in most service segments, except for the Migration and Development and Migration Policy, Research and Communications segments, and across all the geographical regions, except Asia and Oceania and North America.
- 7. Expenditures related to activities implemented in the Movement, Emergency and Post-crisis Migration Management service segment increased by USD 202.7 million globally, with the increases in Europe (USD 121.1 million), Africa (USD 36.5 million) and the Middle East (USD 27.7 million) being notable. There were increased activities related to camp coordination and management in Greece, while emergency shelter activities increased across all regions, primarily in the Middle East related to emergency responses in Iraq and Yemen. Regulating Migration activities increased by USD 59.4 million, mainly in Africa and Europe due to return and reintegration assistance, counter-trafficking in Greece and border and asylum management activities in Iraq. Migration Health activities increased by USD 36.2 million due to increased Migration Health Assistance for Crisis-affected Populations activities in Africa and the Middle East and Migration Health Assessment and Travel Assistance across all regions.
- 8. The overall increase in operational activities across most of the geographical segments was accompanied by a decrease in programmes in Asia and Oceania and North America (decrease of USD 17.1 million), mainly due to a scale down of activities related to Emergency Response and Assistance to Displaced persons in Asia and Oceania and resettlement assistance North America.

- 9. The crises in Bangladesh, the Democratic Republic of the Congo, Libya, Mozambique, Nigeria, the Syrian Arab Republic, the Bolivarian Republic of Venezuela and Yemen required IOM to provide a continued extensive level of humanitarian assistance during 2019.
- 10. With reference to United Nations General Assembly resolution 72/279 of 31 May 2018 and subsequent implementation guidelines for the 1 per cent coordination levy, IOM collected more than USD 0.8 million during 2019. The funds have been transferred by IOM to the United Nations Special Purpose Trust Fund on behalf of the contributing donors.
- 11. One new Member State joined IOM in 2019, bringing the total membership to 173 (up from 172 in 2018). The number of financially active projects was 3,523 during the year (2018: 3,441). At 31 December 2019, 2,863 projects remained active (2018: 2,584). In 2019, 14,813 staff (excluding consultants) were employed in 398 field locations throughout the world (2018: 12,673 staff in 413 field locations).
- 12. IOM received an opinion from the Ghana Audit Service, stating that the financial statements and related notes and other disclosures give a true and fair view of the financial position for the year ended 31 December 2019.

ADMINISTRATIVE PROGRAMME

- 13. The administrative programme remains a very small part of total expenditure, accounting for 3 per cent of consolidated expenditure in 2019.
- 14. At 31 December 2019, total outstanding assessed contributions amounted to CHF 7,437,606, an increase of CHF 98,942 compared to the prior year (2018: CHF 7,338,664). Of the total outstanding assessed contributions, CHF 378,533 relates to five Member States that have concluded payment plans (see Appendix 2 for the list of outstanding assessed contributions at 31 December 2019).
- 15. In line with the increase in outstanding assessed contributions, the amount of aged receivables (contributions for 2018 and prior years) within the total outstanding assessed contribution receivable balance has increased compared with the previous year by CHF 398,858 (2018: decrease of CHF 517,229). The total outstanding assessed contributions requiring a provision thus increased to CHF 3,470,303 at 31 December 2019 (2018: CHF 3,071,445).
- 16. Assessed contributions for the 2019 administrative programme totalled CHF 52,240,024 (2018: CHF 50,728,318). Programme expenditures during the year of CHF 52,237,829 (2018: CHF 50,760,707) resulted in a surplus of CHF 2,195 (2018: deficit of CHF 32,389) before provision for doubtful receivables. After factoring in the above-mentioned increase in the provision for doubtful receivables of CHF 398,858 (2018: decrease of CHF 517,229) and the excess of expenses brought forward at the beginning of the year of CHF 1,083,711, the administrative programme ended with a deficit of CHF 1,480,374 (2018: deficit of CHF 1,083,711), on a modified accruals (budgetary) basis.
- 17. The Administrative Part of the Budget benefits from being naturally hedged, as most expenditures are in the same currency as the revenues, namely the Swiss franc.

OPERATIONAL PROGRAMMES

- 18. The Summary update on the Programme and Budget for 2019 (C/110/9) estimated expenditure of approximately USD 2,045.2 million for the operational programmes of IOM, based on the information available at that time.
- 19. Total expenditure realized under the operational programmes increased by USD 303.3 million, from USD 1,738.6 million in 2018 (restated) to USD 2,041.9 million in 2019, a 17.4 per cent increase overall.
- 20. The field locations with the highest levels of expenditure were (in descending order) as follows: Greece, Iraq, Bangladesh, Turkey, Yemen, Colombia, South Sudan, Somalia, Nigeria and Ethiopia. Appendix 5 lists total expenditure by field location.

21. Total expenditure, by geographical segment, is summarized in the table below.

| Operational programmes expenditure | USD million | | | |
|------------------------------------|-------------|---------|--------------------|-------------------------|
| by geographical segment | | 2019 | 2018 (restated) | Increase/ (Decrease) |
| Asia and Oceania | | 317.6 | 328.2 | (10.6) |
| Africa | | 588.0 | 509.1 | 78.9 |
| Europe | | 526.5 | 379.4 | 147.1 |
| Latin America and the Caribbean | | 168.7 | 153.3 | 15.4 |
| Middle East | | 285.5 | 244.2 | 41.3 |
| North America | | 17.1 | 23.8 | (6.7) |
| Global Support/Services | | 138.5 | 100.6 | 37.9 |
| 1 | Total | 2 041.9 | 1 738.6 | 303.3 |

22. Total expenditure, by service classification, is summarized in the table below.

| Operational programmes expenditure | | USD million | |
|--|---------|--------------------|-------------------------|
| by service classification | 2019 | 2018 (restated) | Increase/ (Decrease) |
| Movement, Emergency and Post-crisis Migration Management | 1 230.8 | 1 028.1 | 202.7 |
| Migration Health* | 187,3 | 151.1 | 36.2 |
| Migration and Development | 42.7 | 48.0 | (5,3) |
| Regulating Migration | 466.9 | 407.5 | 59.4 |
| Facilitating Migration | 88.1 | 67.1 | 21.0 |
| Migration Policy, Research and Communications | 10.1 | 10.8 | (0.7) |
| Land, Property and Reparation Programmes | 19.0 | 14.0 | 5.0 |
| General Programme Support | (3.0) | 12.0 | (15.0) |
| Total | 2 041.9 | 1 738.6 | 303.3 |

^{*} Health issues cut across all areas of IOM's work. This figure reflects only specific migrant health activities and does not include the health-related expenditure integrated into other services.

- 23. The key fluctuations by service classification, as highlighted in the above table, can be summarized as follows:
- Movement, Emergency and Post-crisis Migration Management increased by USD 202.7 million. The increase in activities was mainly due to: camp coordination and management in Greece; as well as increased emergency shelter activities across all regions, primarily in the Middle East related to emergency responses in Iraq and Yemen; resettlement assistance across all regions; durable solutions across Africa and the Middle East; and disarmament, demobilization and reintegration activities primarily in Africa. This increase was offset by a reduction in community stabilization activities across most regions.
- Migration Health increased by USD 36.2 million, primarily due to increased Migration Health
 Assistance for Crisis-affected Populations emergency response activities in Africa and the Middle
 East and Migration Health Assessment and Travel Assistance across all regions, which was offset by
 a decrease in Migration Health Assistance primarily in the Middle East.
- Migration and Development decreased by USD 5.3 million due to a decrease in Migration and Economic/Community Development activities across most regions, which was offset by a slight increase in Economic/Community Development activities across Africa and Latin America and the Caribbean.
- Regulating Migration increased by USD 59.4 million, primarily due to: an increase in return assistance for migrants and governments in Africa and Europe; an increase in counter-trafficking projects and emergency response in Greece; and increased support for migration, border and asylum management in Iraq. A decrease in return assistance and technical cooperation activities for migrants and governments was registered across Asia and Oceania along with a decrease in counter-trafficking activities and technical cooperation activities in the Latin America and the Caribbean region.

- Facilitating Migration increased by USD 21.0 million and over most regions, but mainly due to
 increased immigration and visa application administrative support for movements to North America
 and for family reunification assistance in Germany, which was offset by a slight decrease in activities
 in the Middle East.
- Migration Policy, Research and Communications decreased by USD 0.7 million compared with 2018 owing to decreased programming in Migration Policy activities, mainly in Europe and Asia and Oceania, which was offset by an increase in activities across Africa, Latin America and the Caribbean and the Middle East.
- Land, Property and Reparation Programmes increased by USD 5.0 million, owing primarily to institutional strengthening activities in Colombia.
- General Programme Support decreased by USD 15.0 million compared with 2018 primarily in the Global Support/Services segment due to the year-end net accruals adjustments for employee benefits (see Note 12) and a higher than budgeted project-related overhead income generated in 2019.
- 24. The operational programmes ended in 2019, on a modified accruals (budgetary) basis, as follows:
- (a) A carry-forward relating to the staff security mechanism of USD 18,541,175 (2018: USD 10,974,788). The mechanism carry-forward increased by USD 7,566,387 (2018: increase of USD 4,776,300).
- (b) An increase to the Operational Support Income reserve of USD 7,748,234 (2018: increase of USD 3,884,462), net of the drawdown of USD 5.4 million (approved by Member States in Resolution No. 21 of 19 June 2019 adopted by the SCPF at its Twenty-fourth Session), bringing the total reserve to USD 49,533,924 (2018: USD 41,785,690).
- 25. Operational Support Income is composed of project-related overhead and miscellaneous income. It is used to cover core structures, annual allocation to the IOM Development Fund and other priority needs of the Organization which are not covered by the Administrative Part of the Budget.
- 26. The budget for Operational Support Income was set for the year at USD 96.0 million. Operational Support Income fluctuates from year to year, as the amount of overhead income varies depending on the level of activities carried out. Thus, funds may need to be drawn from the Operational Support Income reserve should the amount of Operational Support Income available at the end of a financial year be less than the budgeted amount.
- 27. Actual Operational Support Income, excluding staff security, amounted to USD 111.9 million (2018: USD 95.7 million), while staff security-related overhead amounted to USD 18.4 million (2018: USD 16.0 million), bringing the total Operational Support Income during 2018 to USD 130.3 million (2018: USD 111.7 million). The actual Operational Support Income of USD 130.3 million exceeded the budgeted total of USD 96.0 million by USD 34.3 million. This excess was primarily due to higher than budgeted project-related overhead income and higher interest income. Appendix 4(I) compares the budgeted and the actual sources and application of Operational Support Income for 2019.
- 28. In compliance with Standing Committee on Programmes and Finance (SCPF) Resolution No. 18 of 27 June 2018, the Operational Support Income surplus is credited to the Operational Support Income reserve mechanism after: (a) applying the provisions relating to the IOM Development Fund and the staff security mechanism; and (b) covering any unbudgeted and unforeseen shortfalls during the year. Based on these criteria, the excess Operational Support Income of USD 34.3 million (i.e. actual amount minus budgeted amount), which excludes the USD 5.4 million drawdown (as per Resolution No. 21 of 19 June 2019 adopted by the SCPF at its Twenty-fourth Session), has been applied as outlined below.
- USD 4.9 million was applied to the staff security mechanism. See Appendix 4(I) Sources and application of Operational Support Income, and Appendix 4(II) Staff security mechanism.
- USD 12.8 million was allocated to support developing Member States and Member States with economy in transition under the IOM Development Fund (Line 2) for use in 2019. See also Appendix 4(I) – Sources and application of Operational Support Income, and Appendix 4(III) – IOM Development Fund.

C/111/3

- USD 1.9 million represents the net balance for budgeted activities where the approved Operational Support Income budget lines were overspent due to additional expenses incurred. See also Appendix 4(I) Sources and application of Operational Support Income.
- USD 1.5 million was applied towards unforeseen and unbudgeted project shortfalls that were mainly
 due to: project budget overruns and unrecoverable costs arising from completed projects, co-funding
 deficits and costs declared ineligible following donor audits of specific projects. See also
 Appendix 4(I) Sources and application of Operational Support Income and Note 23 (section on
 write-offs).
- The remaining amount of USD 13.1 million has been added to the Operational Support Income reserve in line with the requirements of SCPF Resolution No. 18 referred to above. See also Appendix 4(I) Sources and application of Operational Support Income.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: GOVERNANCE, STRUCTURE AND ACTIVITIES

Governance, purpose and functions

- 29. The Organization was established in December 1951 and began its operations in early 1952 as the Intergovernmental Committee for European Migration. Its Constitution was adopted on 19 October 1953 and came into force on 30 November 1954. The Constitution was amended, effective 14 November 1989, and the Organization was renamed the International Organization for Migration. The Organization possesses full juridical personality and has its Headquarters in Geneva. It had 173 Member States on 31 December 2019 (2018: 172).
- 30. The organs of the Organization are the Council and its subcommittee, the Standing Committee on Programmes and Finance, and the Administration. The Council, on which each Member State has one representative and one vote, is the highest authority and determines IOM policies. The Executive Committee was abolished by the entry into force on 21 November 2013 (see Council Resolution No. 1262) of the amendments to the Constitution adopted on 24 November 1998 by the Seventy-sixth Session of the Council (Resolution No. 997). The Standing Committee on Programmes and Finance, as a subcommittee of the Council, is open to the entire membership and, following the adoption of Council Resolution No. 1263 of 26 November 2013, assumed the functions previously carried out by the Executive Committee.
- 31. The Administration, which comprises the Director General, the Deputy Director General and such staff as the Council may determine, is responsible for administering and managing the Organization in accordance with the Constitution and the policies and decisions of the Council and the Standing Committee on Programmes and Finance. The Director General, who is the Organization's highest executive official, and the Deputy Director General are elected by the Council for a period of five years.
- 32. The purpose and functions of IOM are in accordance with its Constitution. IOM is committed to the principle that humane and orderly migration benefits migrants and society. It acts to help meet the operational challenges of migration, advance understanding of migration issues, encourage social and economic development through migration, and work towards effective respect for the human rights and well-being of migrants.
- 33. According to the IOM Strategy, adopted by the Council in June 2007, the primary goal of IOM is to facilitate the orderly and humane management of international migration. Building on its expertise and experience, and in coordination with other international organizations, IOM continues to act as the leading global organization focusing on migration management. It will continue to address the migratory phenomenon from a comprehensive perspective, including links to development, in order to maximize its benefits and minimize its negative effects.

Structure

Headquarters

- 34. Headquarters is responsible for the formulation of institutional policy, guidelines and strategy, standard-setting, quality control procedures and oversight and is composed of the following four departments under the Office of the Director General:
- Department of International Cooperation and Partnerships
- Department of Migration Management
- Department of Operations and Emergencies
- Department of Resources Management
- 35. The Office of the Director General manages the Organization and has overall responsibility for the formulation of coherent policies and oversight of activities to ensure compliance with strategic priorities. The Office comprises those units and functions that report directly to the Director General and provide advisory services and/or direct support to the whole Organization. The Office of the Director General is composed of: the Office of the Chief of Staff; the Office of the Inspector General; the Office of Legal Affairs; the Senior Regional Advisers; the Spokesperson; the Gender Coordination Unit; the Ombudsperson; the Office of Staff Security; the Ethics and Conduct Office; the Policy Hub; and the United Nations Network on Migration Secretariat.

NOTE 1: GOVERNANCE, STRUCTURE AND ACTIVITIES (continued)

- 36. The Department of International Cooperation and Partnerships is responsible for supporting and coordinating the Organization's relations with IOM Member States, intergovernmental organizations, civil society and the media. It also provides guidance and support for relations with governmental, multilateral and private sector donors. The Department leads and coordinates IOM's forum activities, including the International Dialogue on Migration, IOM's support for global and regional consultative processes and preparations for IOM's governing body meetings. It is also responsible for the Organization's communications and public information functions. One of the Department's principal functions is to act as a first port of call and a "window" into IOM for external partners, answering enquiries, arranging briefings and generally providing information about the Organization.
- 37. The Department of Migration Management is responsible for the development of policy guidance for the field; the formulation of global strategies; standard-setting and quality control; and knowledge management relating to mainstream migration sectors, including labour and facilitated migration, migration and development, counter-trafficking, assisted voluntary return, migration health, assistance for vulnerable migrants, immigration and border management and overall capacity-building in migration management. It also manages the IOM Development Fund.
- 38. The Department of Operations and Emergencies is responsible for overseeing IOM's activities related to resettlement, movement, logistics, preparedness and response in migration crises and humanitarian emergencies through recovery and transitional settings. It coordinates IOM's participation in humanitarian responses and provides migration services in emergencies or post-crisis situations to address the needs of individuals and uprooted communities, thereby contributing to their protection.
- 39. The Department of Resources Management is responsible for establishing and implementing the human, financial and IT resources policies required by the Organization to carry out its activities efficiently. The Department establishes and implements policies to ensure sound financial and personnel management; formulates financial and budgetary proposals for their dissemination to internal and external stakeholders; coordinates administrative, IT, personnel and financial policies; and assists the Director General in making overall management decisions.

Field

- 40. The Organization's field offices fell into three broad categories in 2019, as follows:
- Regional offices
- Special liaison offices
- Country offices
- 41. In 2019, nine regional offices oversaw, planned, coordinated and supported IOM activities within their regions. The regional offices are responsible for project review and endorsement and provide technical support to country offices, particularly in the area of project development.
- 42. IOM has two special liaison offices responsible for liaison with multilateral bodies. The Special Liaison Office in Addis Ababa, Ethiopia, maintains and strengthens IOM relations with the African Union, the United Nations Economic Commission for Africa and the Intergovernmental Authority on Development. The IOM Mission to the United Nations in New York, United States of America, acts as a Permanent Observer to the United Nations and strengthens migration elements within the United Nations system.
- 43. IOM has a global network of country offices and sub-offices which implement a wide range of projects addressing specific migration needs. These offices are financed predominantly by the projects implemented in these locations.
- 44. To ensure effective fundraising and liaison with donors, certain country offices that coordinate substantial funding for IOM's activities worldwide (in Berlin, Germany; Helsinki, Finland; Tokyo, Japan; and Washington, D.C., United States) have additional responsibilities for resource mobilization.
- 45. Within the large geographical areas covered by each regional office there are subregional migratory realities, for which certain offices have been designated as country offices with coordinating functions to deal with such specific migration dynamics. In 2019, there were five country offices with coordinating functions with the following areas of coverage: Nur-Sultan, Kazakhstan, for Central Asia; Canberra, Australia, for the Pacific; Georgetown, Guyana, for the Caribbean; Rome, Italy, for the Mediterranean; and Beijing, China. A sixth coordinating function to cover South Asia is located in the Regional Office in Bangkok, Thailand.

NOTE 1: GOVERNANCE, STRUCTURE AND ACTIVITIES (continued)

Administrative centres

- 46. IOM has two administrative centres, located in the Philippines and Panama, which are considered extensions of Headquarters in fulfilment of the Administration's commitment to manage growth without excessively increasing the need for additional resources.
- 47. The Manila Administrative Centre in the Philippines serves as an IT and administrative support centre for the Organization's activities.
- 48. The Panama Administrative Centre in Panama City provides administrative support to offices in the western hemisphere and some global support services, including for field personnel.

Description and summary of activities

- 49. In 2019, the Organization's activities fell into seven service categories: Movement, Emergency and Post-crisis Migration Management; Migration Health; Migration and Development; Regulating Migration; Facilitating Migration; Migration Policy, Research and Communications; and Land, Property and Reparation Programmes. These are complemented by the General Programme Support category. All IOM projects are categorized into one of these areas of activity.
- 50. Movement, Emergency and Post-crisis Migration Management: Projects under this service category are involved in arranging the safe, orderly and cost-effective movement of refugees, migrants, returnees and other persons of concern to the Organization and ensuring a comprehensive approach to assisting forced migrants and host communities in emergency preparedness and natural disaster responses, conflict management and mitigation, knowledge management, and cluster coordination and logistics management. One of the largest movement programmes, implemented by IOM on behalf of the United States Government since the early 1950s, is the United States Refugee Programme. The following subheadings classify the projects and programmes under this service classification: Resettlement Assistance; Overseas Processing; Repatriation Assistance; Community Stabilization; Internally Displaced Persons; Former Combatants; and Elections Support.
- 51. **Migration Health:** These projects aim to meet the needs of Member States in managing health-related aspects of migration and to promote evidence-based policies and integrated preventive and curative health programmes that are beneficial, accessible and equitable for migrants in situations of vulnerability and mobile populations. The following subheadings classify the projects and programmes under this service classification: Migration Health Assessments and Travel Health Assistance; Health Promotion and Assistance for Migrants; and Migration Health Assistance for Crisis-affected Populations.
- 52. **Migration and Development:** Maximizing the positive relationship between migration and development has long been a strategic focus of IOM's work. In an era of unprecedented human mobility, the need to develop a fuller understanding of the linkages between migration and development is particularly urgent, as is the need to act in practical ways to enhance the benefits that migration can have for development, and to devise sustainable solutions for problematic migration situations. The following subheadings classify the projects and programmes under this service classification: Migration and Economic/Community Development; Capacity-building through Return and Reintegration of Qualified Nationals; Remittances; and Migration, Environment and Climate Change.
- 53. Regulating Migration: Comprehensive, transparent and coherent approaches to migration management, involving all countries along the migration continuum, can help address irregular migration, including migrant smuggling and trafficking in human beings, minimize the negative impact of irregular migration and preserve the integrity of migration as a natural social process. IOM helps governments develop and implement migration policy, legislation and administrative mechanisms that enhance migration management, while also assisting migrants in ways that respond to their protection needs and are genderand age-sensitive and empowering. The following subheadings classify projects and programmes under this service classification: Return Assistance for Migrants and Governments; Counter-trafficking; and Technical Cooperation on Migration Management and Capacity-building.
- 54. **Facilitating Migration:** IOM provides policy and technical advice to governments on the regulation of migrant labour and other migratory movements; it also implements programmes to assist governments and migrants with recruitment, language training, pre-departure cultural orientation, pre-consular support services, arrival reception and integration. The following subheadings classify the projects and programmes under this service classification: Labour Migration; and Migrant Processing and Integration (including Pre-consular Support Services and Migrant Training).

NOTE 1: GOVERNANCE, STRUCTURE AND ACTIVITIES (continued)

- 55. **Migration Policy, Research and Communications:** IOM conducts research on migration issues to enhance the programme delivery of Member States and promotes awareness and understanding of international migration issues. The following subheadings classify the projects and programmes under this service classification: Migration Policy Activities; Migration Research and Publications; and Media and Communications.
- 56. Land, Property and Reparation Programmes are specialized global programmes, under which compensation is provided to eligible claimants. IOM also provides legal and technical advice and capacity-building services in the areas of property restitution and large-scale victim compensation to national and transitional governments and international players engaged in post-conflict peacebuilding and in rehabilitation efforts following national disasters.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Reporting entity

57. In addition to the migration services described earlier and reported in the financial statements, IOM provides financial services to the Intergovernmental Consultations on Migration, Asylum and Refugees and the Global Forum on Migration and Development, for which separate financial statements are provided to their respective governing bodies. The Guatemala Fiduciary Fund is recorded in a separate accounting system and not consolidated into IOM's financial statements – see Appendix 9.

Basis of preparation

- 58. The financial statements and accompanying schedules and notes are prepared on the accrual basis of accounting, in accordance with the International Public Sector Accounting Standards (IPSAS).
- 59. The preparation of financial statements in conformity with IPSAS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Examples include: assumptions relating to defined benefit medical insurance and other post-employment benefit obligations; financial risks on accounts receivable; and estimates for accrued revenue and accrued expenses. Although these estimates and assumptions are based on the management's best knowledge of current events and actions, actual results ultimately may differ from these estimates.
- 60. The statements, accompanying notes and appendices consolidate the administrative and operational programmes, unless otherwise stated.
- 61. Supplementary schedules are also provided, including those related to the administrative programme, the budget for which is denominated in Swiss francs, in accordance with the Financial Regulations. A supplementary Statement of financial performance and budget comparison for the administrative programme is also provided in Swiss francs (Statement V(b)).

Implementation of new IPSAS

62. All of the IPSAS in effect on the reporting date have been applied. IPSAS 41 – Financial Instruments and IPSAS 42 – Social Benefits, including amendments to both standards adopted by the IPSAS Board in 2019, will become effective on 1 January 2022.

Measurement base

- 63. The accounting principles adopted for the measurement and reporting of the financial performance and financial position on an accrual basis use historical costs or fair values, as appropriate, in the preparation of these statements.
- 64. The following specific accounting policies that materially affect the measurement of financial performance and the financial position are applied.

Foreign currency transactions

- 65. All transactions occurring in other currencies are translated into US dollars using the United Nations exchange rates prevailing at the date of the transaction. Both realized and unrealized gains and losses resulting from the settlement of such transactions and from the currency translation at the reporting date of financial assets and financial liabilities denominated in currencies other than US dollars are recognized initially in the Statement of financial position and subsequently included in the currency translation reserve.
- 66. Assessed contributions paid by Member States are fixed in Swiss francs in accordance with the Financial Regulations.

Cash and cash equivalents

67. Cash and cash equivalents include cash on hand and deposits held at call with banks for periods of less than 90 days. As a general rule, cash is held in Headquarters-controlled accounts to maximize the interest-earning potential. Interest earned is credited to the appropriate programmes. Separate project codes are used to monitor and report the financial performance of activities undertaken by the Organization on behalf of Member States and other donors, rather than using separate bank accounts, in order to capture all project-related costs.

Short-term investments

68. Financial assets within the scope of IPSAS 29 – Financial Instruments: Recognition and Measurement, including cash, short-term deposits and investments are classified as fair value through surplus or deficit and measured at fair value as at the reporting date. Realized and unrealized gains or losses arising from the change of market value of investments and revenue from interest and dividends are recognized in the consolidated statement of financial performance in the period in which they arise. The interest earned is credited to the appropriate programmes. Financial assets with maturities of more than 12 months or not expected to be realized within 12 months at the reporting date are categorized as non-current assets.

Receivables

- 69. Receivables are recorded at their estimated realizable value after providing for doubtful and uncollectible debts. A provision for doubtful receivables related to assessed contributions is recorded for all contributions outstanding for two years or more. Receivables from Member States that have negotiated long-term payment plans are measured initially at fair value and subsequently valued at amortized cost using the effective interest rate methodology. Amounts due for more than 12 months after the reporting date in accordance with payment plans are classified as non-current receivables. Voluntary contributions receivable are classified as "current" if the agreement with the donor provides for the receipt of payment within 12 months of the reporting date, or "non-current" if all or part of the contribution is not payable until 12 months after the reporting date. For all other receivables, a provision for doubtful receivables is established based on a review of the outstanding amounts at the reporting date.
- 70. Any advances (or down payments) paid by IOM to suppliers, implementing partners, staff and others (e.g. airline companies, insurance companies, local non-governmental organizations (NGOs)) are recorded as receivables to the Organization until the goods are received, services performed or the amounts repaid, as appropriate.

Inventory

71. The cost of inventory, such as global stocks of non-food items held in pre-positioning warehouses for future transfer to projects and subsequent distribution to beneficiaries, is valued at the lower of cost or current replacement cost. The cost is determined using a weighted average cost formula and includes costs incurred in acquiring the inventory and other costs incurred in bringing the inventory to the present location and condition (e.g. purchase cost, transport from the supplier to the warehouse, demurrage costs, unreimbursed taxes and custom duties). For inventory acquired through a non-exchange transaction (e.g. in-kind contributions), the fair value as at the date of acquisition is deemed to be its cost.

- 72. IOM regularly reviews its global stocks of pre-positioned inventory to determine the quantities on hand, their value and quantities used. If the review indicates estimated or actual losses arising from excess or obsolete inventory or a decline in the value of the global stocks of pre-positioned inventory, the value is reduced through an impairment charge to expenses in the Statement of financial performance.
- 73. IOM also purchases non-food items and food items using project-specific funds provided by donors which are then typically distributed very soon thereafter (within three months of procurement) or are immaterial in value. Such items, therefore, are expensed on delivery to IOM.

Investment property

74. Investment property is carried at fair value as determined by an independent valuation. Changes in fair value are recognized in the Statement of financial performance. On the sale of investment property, any difference between the net carrying value and the amount realized from the sale is recognized in the Statement of financial performance.

Property, plant and equipment

- 75. Land and buildings have been recorded at fair value (i.e. the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's-length transaction) as determined by independent valuers in accordance with international valuation standards.
- 76. Leasehold improvements are recorded at historical cost and presented at depreciated cost. Leasehold improvements are capitalized and recognized as an asset if their cost exceeds or is equal to a threshold of USD 100,000. Leasehold improvements are shown separately as work in progress until the asset can operate in the manner intended by management.
- 77. Other assets from which future economic benefit or service potential will flow to the Organization are capitalized if the total cost of acquisition is USD 5,000 or more.
- 78. Provided that the assets would otherwise have been purchased by IOM, any material in-kind donations are recorded at fair value at the time of donation (where the value is USD 5,000 or more). An amount equivalent to the fair value of such assets is simultaneously recognized as revenue in the reporting period when IOM received the goods. The fair value of such assets is amortized by way of depreciation over the useful life of the assets.
- 79. Depreciation of assets (other than land) is calculated on a straight-line (i.e. even) basis over their estimated useful lives, as shown in the table below.

| Asset class | Estimated useful life |
|-------------------------------|---|
| Land | No depreciation |
| Buildings | 30 to 50 years |
| Buildings - mobile structures | 3 to 5 years |
| Vehicles | 3 to 10 years |
| Communications and IT | 3 to 7 years |
| Furniture and fixtures | 3 to 12 years |
| Leasehold improvements | 10 years or the lease term (whichever is shorter) |

- 80. Depreciation is calculated from the date of acquisition until disposal occurs. Gains or losses on disposal, determined by comparing the proceeds, if any, with the carrying amounts, are recognized in the Statement of financial performance.
- 81. Impairment reviews are undertaken by each office for all assets as part of the annual property, plant and equipment stocktake.
- 82. It should be noted that, for donor financial reporting purposes, IOM will continue to use a modified accrual accounting approach, with property, plant and equipment fully expensed on acquisition in order to avoid deficits in view of IOM's project-based nature.

Intangible assets

- 83. Intangible assets principally consist of purchased computer software, which is capitalized if the total cost of acquisition is USD 5,000 or more, and internally developed software, which is capitalized if the total development cost is USD 100,000 or more. Intangible assets have been recognized prospectively as of 1 January 2012 in accordance with the transition provisions in IPSAS. Costs incurred prior to this date were previously expensed.
- 84. Intangible assets are carried at cost less accumulated amortization and impairment. Donated intangible assets, if any, are recognized at cost, using the fair value at acquisition date.
- 85. Amortization is calculated on a straight-line basis over the estimated useful lives of the intangible assets, as shown in the table below.

| Asset class | Estimated useful life |
|-------------------------------|-----------------------|
| Purchased software | 3 years |
| Internally developed software | 6 to 10 years |

86. Amortization is calculated from the date of acquisition for purchased software and from the date of roll-out for internally developed software. Gains or losses on disposal, determined by comparing the proceeds, if any, with the carrying amounts, are recognized in the Statement of financial performance.

Deferred revenue (contributions received in advance of delivery/performance)

- 87. Earmarked voluntary contributions received from donors for the operational programmes are treated as deferred revenue and recognized once the services required under the conditions included in agreements with donors of voluntary contributions are performed.
- 88. Assessed contributions received in advance of the year to which the assessment scale relates are recognized as deferred revenue.
- 89. Funds are received in advance from certain sponsors of migrants and from migrants themselves to cover costs of transport and other allowable costs. The amounts received are treated as advance receipts until the services covered by the payment are provided.

Staff benefits

- 90. IOM is a member organization participating in the United Nations Joint Staff Pension Fund (UNJSPF), which was established by the United Nations General Assembly to provide retirement, death, disability and related benefits, pursuant to Council Resolution No. 1130 of 2 December 2005 and United Nations General Assembly resolution 61/240.
- 91. The UNJSPF is a funded, multi-employer defined benefit plan. As specified in Article 3(b) of the UNJSPF Regulations, membership in the Fund is open to the specialized agencies and to any other international, intergovernmental organization which participates in the common system of salaries, allowances and other conditions of service of the United Nations and the specialized agencies.
- 92. The plan exposes participating organizations to actuarial risks associated with the current and former employees of other organizations participating in the Fund, with the result that there is no consistent and reliable basis for allocating the obligations, plan assets and costs to individual organizations participating in the plan. IOM and the UNJSPF, as with the other participating organizations in the Fund, are not in a position to identify IOM's proportionate share of the defined benefit obligations, the plan assets and the costs associated with the plan with sufficient reliability for accounting purposes. Hence, IOM has treated this plan as if it were a defined contribution plan, in line with the requirements of IPSAS 39 Employee Benefits. IOM's contributions to the plan during the financial period are recognized as expenses in the Statement of financial performance.

- 93. Other staff benefit obligations can include the following, depending on the entitlements of the individual staff member:
- Separation benefits:
 - Unused annual leave, repatriation travel and removal of personal effects. These elements are calculated on an actual entitlement basis using current salary scales and cost estimates.
 - Repatriation grants and separation entitlements (e.g. severance pay). These elements are calculated based on an annual independent actuarial assessment.
- After-service defined benefit plans, which include IOM's contribution towards after-service health
 insurance premiums for retired Professional staff and participating General Service staff. These
 elements are calculated based on an annual independent actuarial assessment. The liability for
 after-service health insurance is a defined benefit obligation which is determined using the projected
 unit credit methodology of valuation. Actuarial gains and losses, both financial and demographic, are
 recognized in a separate element of net assets.
- Other payables to staff: unpaid salaries and allowances, reimbursements payable, and so on, at the reporting date.
- 94. Separation and after-service benefits are collectively referred to as terminal emoluments. Employee benefits payable within 12 months of the reporting date are classified as current liabilities, and those payable more than 12 months after the reporting date are classified as non-current liabilities.

Payables to suppliers

95. As a general rule, IOM pays for goods and services after the goods are received and services provided. They are recorded simultaneously as an expense and an obligation payable to the supplier. This payable category includes accrued expense provisions raised for material consumption-based services (e.g. communications and utilities costs) for which the billing is received beyond 31 December and the costs can be reliably estimated based on recent supplier billings.

Borrowing costs

96. All costs incurred in connection with borrowing are treated as expenses in the period in which they are incurred. No borrowing costs have been capitalized during the reporting period.

Provisions

97. Provisions are generally recognized when the Organization has a legal or constructive obligation as a result of a past event, where it is probable that an outflow of resources will be required to settle the obligation and where a reliable estimate of the obligation can be made.

Revenue

- Non-exchange revenue
- 98. Assessed contributions to the Administrative Part of the Budget are recognized at the beginning of the year to which the assessment relates. The revenue amount is determined based on the approved budget and the scale of assessment approved by the Council.
- 99. Voluntary contributions are recognized upon the signing of a binding agreement with the donor. Revenue is recognized immediately if no condition is attached requiring that funds be utilized as specified in an agreement or returned to the contributing entity. If conditions are attached, revenue is recognized only upon satisfying the specified conditions based upon the level of expenditure of the contribution in accordance with the terms of the agreement. Until such conditions are met, a liability (deferred revenue) is recognized. Voluntary contributions which are not supported by binding agreements are recognized as revenue when received.
- 100. Goods in kind are recognized at their fair value, measured as of the date the donated assets are acquired.

Exchange revenue

101. Revenue from the fees charged to self-paying migrants and refugees, or their sponsors or through contractual billing arrangements, is recognized upon completion of the underlying service for which the fee has been charged. A liability is established covering the estimated amount of fees reimbursable to applicants. Interest income is recognized on a time proportion basis as it accrues, taking into account the effective yield.

Expenses

- 102. Expenses are recognized when confirmation is obtained that goods and services (including agreed services provided by implementing partners) have been delivered or provided.
- 103. Using funds provided by donors, IOM purchases non-food items and food items which are then typically distributed in life-saving operations following natural disasters and in other similar emergency situations. As such, IOM's warehouse stocks at 31 December (excluding those items held in global stocks in pre-positioning warehouses) in any given year are typically distributed very soon thereafter (within three months of procurement) or are immaterial in value. Such items, therefore, are expensed on delivery to IOM. Material in-kind contributions are valued at fair value at the time they are donated, provided they would otherwise have been purchased by the Organization. IOM also acts as an agent to distribute items on behalf of other organizations (e.g. other United Nations agencies, NGOs). IOM does not record these items in the accounts as it does not receive future economic benefits or service potential from such supplies and materials.
- 104. Equipment purchased for beneficiaries through, inter alia, community and economic development and integrated border management projects are fully expensed on acquisition. They are tracked via PRISM from their acquisition to formal handover (via signed deeds of donation) for internal control purposes.

Leases

105. Leases are classified as operating leases when a significant portion of the risks and rewards of ownership are retained by the lessor. Payments under operating leases (net of any incentives received from the lessor) are recognized in the Statement of financial performance on a straight-line basis over the period of the lease.

Taxation

106. IOM is an intergovernmental non-profit organization and is generally exempt from taxation in countries that have granted IOM full privileges and immunities. In other jurisdictions, taxes paid are reimbursable.

Financial instruments

- 107. A financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. A financial instrument is derecognized when the right to receive cash from another entity in connection with a financial asset or the obligation to deliver cash to another entity in connection with a financial liability has expired.
- 108. In IOM, financial assets consist of the following:
- (a) Cash and cash equivalents held for periods of less than 90 days. These are valued at fair value at the reporting date.
- (b) Investments in the form of short-term deposits, which are financial assets held for periods of 90 days and longer or containing put options enabling the Organization to redeem the investment at 90 day intervals at full face value. These are classified as current assets if maturity dates are within 12 months of the reporting date and as non-current assets if maturing in periods longer than twelve months. Short-term deposits are valued at fair value at the reporting date.
- (c) Investments in bonds, which the Organization acquires with the intention of holding to maturity, are valued at amortized cost using the effective interest rate methodology.

- (d) Non-conditional receivables, which include assessed contributions and other amounts receivable in cash. Short-term receivables are valued at nominal value. Longer-term receivables covering arrears from Member States are valued at nominal value less allowances for estimated doubtful receivables. Receivables that are subject to conditions are fully offset by a liability (deferred revenue) and are not considered financial instruments since their recognition results in both a financial asset and a matching financial liability for the Organization.
- (e) Derivatives to manage short-term cash flows of foreign currency received from voluntary contributions provided by donors in currencies other than US dollars. All derivative hedging agreements are accounted for as "fair value through surplus and deficit" with realized gains or losses during the financial year recognized in the Statement of financial performance. In accordance with IPSAS 29 Financial Instruments: Recognition and Measurement, unrealized gains or losses at the reporting date are recognized in the Statement of financial performance and as an asset (if a gain) or as a liability (if a loss) in the Statement of financial position.
- 109. In IOM, financial liabilities consist of the following:
- (a) Accounts payable valued at nominal value owing to their short-term nature;
- (b) Borrowings (loans) valued at amortized cost using the effective interest rate method.

Contingent liabilities

- 110. In the interests of transparency, disclosures of contingent liabilities are made within the notes to the statements. A contingent liability is the following:
- (a) A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- (b) A present obligation that arises from past events but is not recognized because:
 - (i) It is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or
 - (ii) The amount of the obligation cannot be measured with sufficient reliability.

Agency relationships

111. Where the Organization enters into an agreement with a government or government entity for the purpose of rendering administrative support services related to the creation or acquisition of an asset that remains the property of the government or government entity, the Organization is assumed to be acting as an agent of the government or government entity. In such cases, the Organization is not exposed to the risks or rewards associated with the rendering of the services nor does the inflow of cash received result in a net increase in the net assets of the Organization. The inflow of cash received in connection with such agreement is, therefore, not recognized as revenue nor is the associated outflow of cash recognized as an expense. The inflow of cash is recognized as an advance payment which is reduced as payments are made from the cash advance when authorized by the government or government entity. However, the service fee charged by the Organization for performing the administrative support services under the agreement is recognized as revenue in the financial period in which it is earned.

NOTE 3: RESTATEMENT

Agency relationships

- 112. In 2019, the Organization adopted a change in its accounting policy to recognize as agency relationships those agreements with governments where the gross inflows of economic benefits or service potential do not result in increases in net assets/equity for IOM. When carrying out the terms of such agreements, the amounts collected from the government are determined not to be revenue. Only the service fee received from the government is to be recognized as income by the Organization.
- 113. The implementation of this new policy required the reclassification of deferred revenue received from governments under such agreements, including voluntary contributions received in advance and funds from agency relationship advance payments. In addition, interest revenue previously classified as deferred revenue will no longer be recognized, as the agreements provide that such interest is returned to the government. A further adjustment was required to reduce the deferred revenue to reflect the portion of the support cost charge that had not been earned at the reporting date. The result of these adjustments relating to balances prior to 2019 was a decrease in net assets of USD 12.0 million.

Separate (non-consolidated) entities

114. The Organization provides financial accounting services for two entities: the Global Forum on Migration and Development and the Intergovernmental Consultations on Migration, Asylum and Refugees. These entities are separate organizations with their own members, and each has governance structures that are separate from those of the IOM. A review determined that IOM is not exposed to, nor has rights to, benefits from its involvement with the other entities. The review further determined that IOM does not have the ability to affect the nature of those benefits through power over the other entities, as required by IPSAS 33 – First-time Adoption of Accrual Basis IPSASs, and that the entities' assets, liabilities, net assets/equity, revenue and expense should therefore not be consolidated into IOM's financial statements. The result of these adjustments relating to balances prior to 2019 was a decrease in net assets of USD 1.0 million.

Leasehold improvements

- 115. In 2019, an internal review of modifications made to leased facilities identified USD 3.6 million of improvements including USD1.6 million of work in process that should have been capitalized in accordance with IPSAS 17 Property, Plant and Equipment and with the accounting policy on leasehold improvements included in Note 2 to these financial statements. The total capitalized value was then reduced in recognition of USD 1 million in depreciation covering financial periods prior to the date the improvements reached the condition intended by management. An adjustment was made to the 2018 opening balance to reflect the impact of capitalization of improvements and recognition of depreciation at that date and the 2018 expenses, assets and net assets have been adjusted for transactions that took place in 2018. The impact of these adjustments, including USD 1.6 million of work in progress, was an increase in net assets of USD 2.6 million.
- 116. The table below summarizes the adjustments made to the Statement of financial position (Statement I), the Statement of financial performance (Statement II), the Statement of changes in equity (Statement III) and the Statement of cash flows (Statement IV) to reflect the impact on assets, liabilities, net assets and the 2018 revenue and expenses relating to the reclassification of agreements where IOM acts as an agent rather than a principal; adjustments for separate non-consolidated entities; and leasehold improvements previously not capitalized, the combination of which resulted in a decrease in net assets of USD 10.4 million.

NOTE 3: RESTATEMENT (continued)

| | | Statement | Ì | Statement II | Statement III | | | | Statement IV | | | |
|---|---------------------------------|---------------|-----------------------|-------------------|--------------------------|---|-------------------------------------|---|--|--|---|---|
| | | | | | | | | Net cash fle | Net cash flows from operating activities | ng activities | | |

| Total: Cash and cash equivalents | 886 988 668 | 922 818 960 |

- 118. Approximately 71 per cent of cash and cash equivalents held at the reporting date is held in accounts controlled by Headquarters. Overall, approximately 72 per cent of cash and cash equivalents were in currencies other than the US dollar.
- 119. The Organization has no confirmed credit lines but does maintain limited and informal overdraft arrangements with banks with which the Organization has funds on deposit. These arrangements may be withdrawn by the banks at any time.

NOTE 5: INVESTMENTS

- 120. IOM's main investment objective is to protect the safety of the principal of its cash assets and maintain adequate liquidity while earning a competitive market rate. Investments are placed with counterparties that meet credit ratings in line with the approved treasury policy approved by the Treasury Risk Committee. As at 31 December 2019, IOM did not have any impairment on investments. The exposure to IOM from credit, market and currency risks and risk management activities related to investments are disclosed in Note 24. Investments are controlled by Headquarters.
- 121. Short-term investments are instruments held for a period of 90 days or longer and classified as current assets given that maturity dates are within 12 months of the reporting date. Long-term investments are instruments (bonds) held for longer than 12 months and classified as current assets if their maturity dates are within 12 months of the reporting date. The Organization held short-term deposits and bonds maturing within 12 months equivalent to USD 474.3 million at 31 December 2019 (2018: USD 506.5 million) and long-term investments maturing in more than 12 months equivalent to USD 133.4 million, as shown in the table below.

NOTE 6: CONTRIBUTIONS RECEIVABLE AND OTHER RECEIVABLES

- 122. Assessed contributions receivable represent uncollected amounts related to the administrative programme. The Council determines the budget and consequently the amounts due from each Member State in Swiss francs each year. The receivables are considered current (i.e. those contributions expected to be received within the next fiscal year) unless long-term payment plans for the payment of arrears have been negotiated with the Member State. Amounts due under such long-term payment plans in financial periods beyond the next fiscal year are classified as non-current receivables. For further details, see Appendix 2 Outstanding assessed contributions. For contributions received in advance, see Note 11: Funds received in advance.
- 123. Amounts receivable for operations from governments and voluntary agencies increased in 2019 to USD 234.3 million (2018 restated: USD 174.7 million), consisting of invoiced and uninvoiced receivables of USD 161.9 million (inclusive of revaluations) (2018: USD 77.4 million) and USD 72.4 million (2018 restated: USD 97.3 million), respectively. Of the invoiced receivables at 31 December 2019, USD 134.7 million had been received by 31 March 2020.
- 124. The invoiced receivables (inclusive of revaluation) at 31 December 2019 are shown in the table below.

| | | US | SD . |
|----------------------------------|-------|---------------------------|---|
| Receivable from | | Invoiced receivables 2019 | Subsequent receipts up to 31 March 2020 |
| Canada | | 10 158 198 | (9 514 714) |
| Democratic Republic of the Congo | | 5 498 254 | (5 498 254) |
| France | | 4 701 111 | (18 877) |

| United States of America | | 68 689 160 | (68 004 908) |
| European Commission | | 22 436 421 | (20 914 352) |
| Others | | 22 503 693 | (17 837 944) |
| | Total | 161 904 248 | (134 697 369) |

NOTE 6: CONTRIBUTIONS RECEIVABLE AND OTHER RECEIVABLES (continued)

- 125. The Administration regularly follows up with the donors on amounts receivable. Delays arise as a result of donor requests for detailed reporting and/or audits and of delays by donors in review and settlement procedures.
- 126. At 31 December 2019, the Organization had USD 2.0 million (2018: USD 4.5 million) of invoiced amounts receivable for more than one year. The following table provides an ageing summary of invoiced receivables, the majority of which (86%) are less than 120 days old.

Breakdown of invoiced receivables, including revaluations and excluding refunds/cancellation of invoices (USD million)

| < 30 days | 31 to 120 days | 121 to 365 days | > 1 year | TOTAL |
|-----------|----------------|-----------------|----------|-------|
| 101.5 | 36.9 | 21.6 | 2.0 | 162.0 |
| 63% | 23% | 13% | 1% | 100% |

127. The following table provides a summary of receivables and the associated provisions for doubtful receivables.

| | US | SD |
|--|-------------|--------------------|
| | 2019 | 2018 (restated) |
| Current | | |
| Receivables – voluntary contributions – donors | 234 277 754 | 174 711 088 |
| Net voluntary contributions receivable | 234 277 754 | 174 711 088 |
| Receivables – assessed contributions | 7 303 144 | 7 086 493 |
| Less provision for doubtful receivables | (3 559 285) | (3 111 900) |
| Net assessed contributions receivable | 3 743 859 | 3 974 593 |
| Receivables - other | 30 857 894 | 23 058 715 |
| Less provision for doubtful receivables | (511 368) | (509 572) |
| Net receivables – other | 30 346 526 | 22 549 143 |
| Subtotal: Current receivables | 268 368 139 | 201 234 824 |
| Non-current | | |
| Receivables – assessed contributions | 337 550 | 361 060 |
| Receivables - other | 3 211 506 | 3 745 239 |
| Subtotal: Non-current receivables | 3 549 056 | 4 106 299 |
| Total: Receivables | 271 917 195 | 205 341 123 |

128. Other current and non-current receivables from exchange transactions consist mainly of receivables from vendors of USD 18.7 million (2018: USD 13.6 million) and other taxes reimbursable by host governments of USD 8.8 million (2018: USD 7.8 million) and interest accrued of USD 6.6 million (2018: USD 5.2 million).

NOTE 7: INVENTORIES

129. The movement of global stocks of pre-positioned inventories during the 2019 reporting period is as shown in the table below.

| | | USD |
|---|-------------|-------------|
| | 2019 | 2018 |
| Balance as at 1 January | 663 211 | 5 980 |
| Additions | 1 833 883 | 1 989 284 |
| Transfers to projects for distribution to beneficiaries | (1 318 323) | (1 330 959) |
| Write-down | (986) | (1 094) |
| Impairments | (344) | |
| Balance as at 31 December | 1 177 441 | 663 211 |

NOTE 8: OTHER ASSETS

130. The following table provides a summary of other assets, consisting of vendor down payments, guarantee deposits and unrealized gains: financial instruments – derivatives.

| | U | SD |
|---|-------------|-------------|
| | 2019 | 2018 |
| Current | | |
| Vendor down payments | 206 889 306 | 159 784 699 |
| Guarantee deposits | 1 604 345 | 1 526 862 |
| Unrealized gains: financial instruments - derivatives | | 58 504 |
| Subtotal: Current assets | 208 493 651 | 161 370 065 |
| Non-current | | |
| Guarantee deposits | 1 287 631 | 1 689 810 |
| Subtotal: Non-current assets | 1 287 631 | 1 689 810 |
| Total: Other assets | 209 781 282 | 163 059 875 |

131. The vendor down payments of USD 206.9 million (2018: USD 159.8 million) consist of advances to implementing partners, suppliers, consultants and service providers. The increase of USD 47.1 million compared with 2018 is mainly due to increased advances to implementing partners (USD 31.8 million) (owing to expanded cooperation with implementing partners in 2019) and to advances to service providers and other supply, air transport and consultancy vendors (USD 15.3 million).

NOTE 9: PROPERTY, PLANT AND EQUIPMENT

- 132. The Organization owns offices in six countries, namely in Argentina, Australia, the Plurinational State of Bolivia, Chile, Peru and Switzerland. In order to accurately reflect the value of buildings and land owned by IOM, the buildings and land were revalued at fair value at 31 December 2016, as determined by independent appraisals conducted by valuation experts in each of the countries in which the properties are located. The valuations were conducted based on international valuation standards as promulgated by the International Valuation Standards Council and included assumptions relating to current market conditions. The net difference between historical cost and change in subsequent fair values for land and buildings of USD 23,073,889 is accounted for in the asset revaluation reserve, which forms a separate component of net assets/equity. No material changes within the respective market conditions during 2019 were noted that would warrant fresh market appraisals for this class of assets.
- 133. During 2019, IOM received donated assets valued at USD 847,850 (2018: USD 210,862) and the same amount has been recognized under "Property, plant and equipment" in the year as an acquisition. The fair value of such assets is amortized by way of depreciation over the useful life of these assets.

NOTE 9: PROPERTY, PLANT AND EQUIPMENT (continued)

134. Property, plant and equipment holdings for 2019 and 2018 (restated) are summarized in the tables below.

| | | | | | USD | | | | |
|---|---------|-------------|-------------------------------------|--------------|-----------------------|------------------------------|------------------------|---------------------|--------------|

| Net carrying value at 1 January | 154 295 | 1 129 655 | 1 283 950 | 177 355 | 695 301 | 872 656 |
| Net carrying value at 31 December | 154 283 | 1 033 802 | 1 188 085 | 154 295 | 1 129 655 | 1 283 950 |

136. The Headquarters building in Geneva, Switzerland, is situated on land provided by the Canton of Geneva for a period of 99 years at a nominal cost of CHF 1. Though the Organization has the right to dispose of the property to another international organization, the Canton may refuse to grant approval under certain conditions. The land rights will revert to the Canton at the end of the term. Taking into consideration the various conditions imposed on the rights to use the land and its disposition, the land rights are not valued as an asset in the Statement of financial position.

NOTE 11: FUNDS RECEIVED IN ADVANCE

- 137. Voluntary contributions received from donors in advance of performance delivery under the operational programmes totalled USD 1,159.3 million (2018 restated: USD 937.6 million).
- 138. Assessed contributions received from Member States in advance of the following year's assessment scale taking effect under the administrative programme totalled USD 1,010,275 (2018: USD 637,637) (see Appendix 1).
- 139. In terms of funds received in advance as part of agency relationships which are related to agreements with governments or government entities for the purpose of rendering administrative support through which funds are received by IOM acting as an agent on behalf of the entities the funds not yet disbursed on behalf of the entities totalled USD 245.4 million (2018 restated: USD 417.2 million).
- 140. Other deferred contributions received from migrants and self-payers and down payments from customers totalled USD 16.7 million (2018 restated: USD 18.1 million).

NOTE 12: LIABILITIES RELATING TO EMPLOYEE BENEFITS

- 141. Terminal emoluments are the sum of entitlements due to a staff member upon separation from the Organization in line with the employment contract or the Staff Regulations and Rules. Terminal emoluments include: accumulated leave, repatriation and travel costs for international staff, separation entitlements and after-service health insurance coverage for retired staff. For terminal emolument obligations relating to termination indemnities, and so on, see Note 17: Reserves.
- 142. At its Seventy-second Session in November 1996, the Council adopted a budgetary method of funding terminal emoluments for staff.
- 143. Under the Administrative Part of the Budget, terminal emoluments are funded by a yearly allotment based on the anticipated entitlements for staff departing in the coming year. For 2019, the budget for terminal emoluments was CHF 700,000 (2018: CHF 700,000), whereas the actual terminal emolument payments on a modified (budgetary) basis were CHF 1,101,766 (2018: CHF 954,743). The number of staff departing during the next year and the entitlements required cannot be fully anticipated at the time the budget is prepared. The unfunded liability related to employee benefits in the Administrative Part of the Budget on a full accruals (IPSAS) basis amounts to USD 21.3 million (2018: USD 18.4 million).
- 144. Under the Operational Part of the Budget, terminal emoluments for staff are funded through a fixed percentage charged to salary costs. During 2016, the percentage was reviewed by an actuary and was established at 6 per cent effective from 1 January 2017. The applied percentage is regularly reviewed to determine its appropriateness.
- 145. Staff (and their dependants) participating in either the Health Insurance Plan or the Medical Service Plan are eligible to obtain after-service health insurance for which IOM contributes towards the insurance premium costs.
- 146. The present value of the defined benefit obligations for after-service medical insurance and other long-term benefits have been determined using the projected unit credit method, which includes discounting the estimated future cash outflows using a discount rate based upon high-grade corporate bonds.
- 147. Provisions and payables relating to employee entitlements are summarized in the table below.

| | | USD | |
|------------------------------|---------------------------------------|-------------|-------------|
| | | 2019 | 2018 |
| Current | | | |
| Employee benefit liabilities | | 11 287 738 | 11 104 331 |
| UNJSPF | | 491 015 | 144 098 |
| Other payables to employees | | 10 459 069 | 9 658 795 |
| | Subtotal: Current | 22 237 822 | 20 907 224 |
| Non-current | | | |
| Employee benefit liabilities | | 130 571 218 | 104 820 445 |
| | Subtotal: Non-current | 130 571 218 | 104 820 445 |
| | Total: Payables relating to employees | 152 809 040 | 125 727 669 |

148. Employee benefit liabilities are further broken down as shown in the table below.

| | USD | |
|--|-------------|-------------|
| | 2019 | 2018 |
| CURRENT LIABILITIES – Employment benefits provision for: | | |
| Accumulated leave | 3 631 079 | 3 820 192 |
| Repatriation grant | 1 572 206 | 1 472 572 |
| Repatriation travel and removal of personal effects | 1 955 632 | 1 758 118 |
| Separation entitlements | 602 668 | 446 348 |
| Early retirement | 562 | 5 951 |
| After-service health insurance - Health Insurance Plan | 2 405 347 | 2 177 887 |
| After-service health insurance – Medical Service Plan | 1 120 244 | 1 423 263 |
| Subtotal: Current employee benefit liabilities | 11 287 738 | 11 104 331 |
| NON-CURRENT LIABILITIES – Employment benefits provision for: | | |
| Accumulated leave | 41 757 413 | 34 804 044 |
| Repatriation grant | 16 558 856 | 12 720 888 |
| Repatriation travel and removal of personal effects | 22 489 768 | 16 052 873 |
| Separation entitlements | 4 735 539 | 4 355 471 |
| Early retirement | 6 454 | 53 556 |
| After-service health insurance - Health Insurance Plan | 36 758 012 | 31 360 243 |
| After-service health insurance - Medical Service Plan | 8 265 176 | 5 473 370 |
| Subtotal: Non-current employee benefit liabilities | 130 571 218 | 104 820 445 |
| Total: Employee benefit liabilities | 141 858 956 | 115 924 776 |

Actuarial assumptions and methods

- 149. Each year, IOM reviews and selects assumptions and methods that will be used by the actuary in the valuation to determine the expense and contribution requirements for after-service health insurance, repatriation grants and separation entitlements. The assumptions as at the reporting date are used to determine the present value of the defined benefit obligation at that date and the pension expense for the following year.
- 150. The principal financial assumptions used at 31 December 2019 and 31 December 2018 are presented in the table below.

| | 2019 | 2018 |
|--|-------|-------|
| Discount rate | | |
| Health Insurance Plan and Medical Service Plan (CHF payroll) | 0.20% | 0.90% |
| Health Insurance Plan and Medical Service Plan (USD payroll) | 3.60% | 4.65% |
| Repatriation grant | 2.80% | 4.10% |
| Severance pay | 3.10% | 4.10% |
| Salary increases | | |
| Professional staff | 3.76% | 3.49% |
| General Service staff | 8.68% | 8.63% |
| Medical cost trend rate | 3.50% | 3.50% |

- 151. Discount rate selection: The method for setting the discount, and in particular the rate used to discount post-employment benefit obligations (both funded and unfunded), reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money are consistent with the currency and estimated term of the post-employment benefit obligations. The discount rate reflects the estimated timing of benefit payments. IOM considered the high-quality corporate bonds market as the best reference. The market conditions as of 31 December 2019 of the bonds market for Switzerland, the eurozone and the United States were considered. The discount rate has been calculated as a single equivalent rate based on AA corporate bonds calculated using the harmonized yield curves developed by actuaries for use by United Nations entities and taking into consideration the longevity of the IOM liability.
- 152. Sickness premium increase rate selection: The method for setting the sickness premium increase rate is based on assumptions about medical costs which take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs. An entity estimates future medical costs on the basis of historical data about the entity's own experience, supplemented, where necessary, by historical data from other entities, insurance companies, medical providers or other sources.
- 153. The following tables provide additional information and analysis in relation to employee benefit liabilities as calculated by the actuary.

| | USD | | | | |
|--|---|--|---------------------|-------------------------|-------------|
| Reconciliation of defined benefit obligation | After-service Health Insurance Plan | After-service Medical Service Plan | Repatriation grants | Separation entitlements | Total |
| Net defined benefit obligation at 1 January 2019 | 33 538 130 | 6 896 634 | 14 193 460 | 4 801 819 | 59 430 043 |
| Service cost for 2019 | 1 176 967 | 802 958 | 1 029 484 | 420 255 | 3 429 664 |
| Interest cost for 2019 | 1 228 380 | 317 286 | 542 722 | 182 413 | 2 270 801 |
| Total expense recognized in Statement of financial performance at 31 December 2019 | 2 405 347 | 1 120 244 | 1 572 206 | 602 668 | 5 700 465 |
| Actuarial (gain)/loss resulting from changes in: | | | | | |
| Demographic assumptions | (1 333 595) | (477 686) | 38 350 | 8 253 | (1 764 678) |
| Financial assumptions | 6 371 583 | 2 318 833 | 1 724 355 | 386 721 | 10 801 492 |
| Effect of experience adjustments | (616 129) | (370 647) | 1 709 210 | 893 605 | 1 616 039 |
| Total actuarial (gain)/loss of above changes | 4 421 859 | 1 470 500 | 3 471 915 | 1 288 579 | 10 652 853 |
| Benefits paid from plan/company | (1 201 977) | (101 958) | (1 106 519) | (1 354 859) | (3 765 313) |
| Defined benefit obligation at 31 December 2019 | 39 163 359 | 9 385 420 | 18 131 062 | 5 338 207 | 72 018 048 |

| Sensitivity to trend rate assumptions | 1% increase in assumption | 1% decrease in assumption |
|---------------------------------------|---------------------------|---------------------------|
| Discount rate | | |
| After-service Health Insurance Plan | (6 480 523) | 8 698 299 |
| After-service Medical Service Plan | (2 188 520) | 3 161 449 |
| Repatriation grants | (1 138 800) | 1 299 712 |
| Separation entitlements | (369 806) | 437 465 |
| Health-care cost trend rate | | |
| After-service Health Insurance Plan | 5 335 903 | (4 387 128) |
| After-service Medical Service Plan | 1 533 854 | (1 249 354) |
| Salary increase rate | | |
| After-service Health Insurance Plan | 1 583 642 | (1 394 599) |
| After-service Medical Service Plan | 1 010 406 | (851 948) |
| Repatriation grants | 1 273 735 | (1 139 211) |
| Separation entitlements | 407 322 | (353 961) |

United Nations Joint Staff Pension Fund

- 154. IOM is a member organization participating in the UNJSPF, which was established by the United Nations General Assembly to provide retirement, death, disability and related benefits to employees. The UNJSPF is a funded, multi-employer defined benefit plan. As specified in Article 3(b) of the UNJSPF Regulations, membership in the Fund is open to the specialized agencies and to any other international, intergovernmental organization which participates in the common system of salaries, allowances and other conditions of service of the United Nations and the specialized agencies.
- 155. The plan exposes participating organizations to actuarial risks associated with the current and former employees of other organizations participating in the Fund, with the result that there is no consistent and reliable basis for allocating the obligations, plan assets and costs to individual organizations participating in the plan. IOM and the UNJSPF, as with the other participating organizations in the Fund, are not in a position to identify IOM's proportionate share of the defined benefit obligations, the plan assets and the costs associated with the plan with sufficient reliability for accounting purposes. Hence, IOM has treated this plan as if it were a defined contribution plan, in line with the requirements of IPSAS 39 Employee Benefits. IOM contributions to the plan during the financial period are recognized as expenses in the Statement of financial performance.
- 156. The UNJSPF Regulations state that the United Nations Joint Staff Pension Board shall have an actuarial valuation made of the Fund at least once every three years by the consulting actuary. The practice of the Board has been to carry out an actuarial valuation every two years using the open group aggregate method. The primary purpose of the actuarial valuation is to determine whether the current and estimated future assets of the Pension Fund will be sufficient to meet its liabilities.
- 157. IOM's financial obligation to the UNJSPF consists of its mandated contribution, at the rate established by the United Nations General Assembly (currently at 7.9% for participants and 15.8% for member organizations) together with a share of any actuarial deficiency payments under Article 26 of the UNJSPF Regulations. Such deficiency payments are payable only if and when the United Nations General Assembly has invoked the provision of Article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Fund as of the valuation date. Each member organization shall contribute to this deficiency an amount proportionate to the total contributions which each paid during the three years preceding the valuation date.
- 158. During 2017, the Fund identified anomalies in the census data utilized in the actuarial valuation performed as of 31 December 2015. As such, as an exception to the normal biennial cycle, a roll-forward of the participation data as of 31 December 2013 to 31 December 2016 was used by the Fund for its 2016 financial statements.
- 159. The actuarial valuation as of 31 December 2017 resulted in a funded ratio of actuarial assets to actuarial liabilities, assuming no future pension adjustments, of 139.2 per cent (150.1% in the 2016 roll-forward). The funded ratio was 102.7 per cent (101.4% in the 2016 roll-forward) when the current system of pension adjustments was taken into account.
- 160. After assessing the actuarial sufficiency of the Fund, the consulting actuary concluded that there was no requirement, as of 31 December 2017, for deficiency payments under Article 26 of the UNJSPF Regulations as the actuarial value of assets exceeded the actuarial value of all accrued liabilities under the plan. In addition, the market value of assets also exceeded the actuarial value of all accrued liabilities as of the valuation date. At the time of preparing the present report, the United Nations General Assembly had not invoked the provision of Article 26.
- 161. Should Article 26 be invoked due to an actuarial deficiency, either during the ongoing operation or due to the termination of the UNJSPF pension plan, deficiency payments required from each member organization would be based upon the proportion of that member organization's contributions to the total contributions paid to the Fund during the three years preceding the valuation date. Total contributions paid to the UNJSPF during the preceding three years (2016, 2017 and 2018) amounted to USD 7,131.56 million, of which 2 per cent was contributed by IOM.
- 162. During 2019, the IOM contributions paid to the UNJSPF amounted to USD 50.6 million (2018: USD 42.6 million). Expected contributions due in 2020 are approximately USD 59.4 million.

- 163. Membership in the Fund may be terminated by decision of the United Nations General Assembly, upon the affirmative recommendation of the United Nations Joint Staff Pension Board. A proportionate share of the total assets of the Fund at the date of termination shall be paid to the former member organization for the exclusive benefit of its staff who were participants in the Fund at that date, pursuant to an arrangement mutually agreed between the organization and the Fund. The amount is determined by the Board based on an actuarial valuation of the assets and liabilities of the Fund on the date of termination; no part of the assets which are in excess of the liabilities is included in the amount.
- 164. The United Nations Board of Auditors carries out an annual audit of the UNJSPF and reports to the United Nations Joint Staff Pension Board and to the United Nations General Assembly on the audit every year. The UNJSPF publishes quarterly reports on its investments which can be accessed on the UNJSPF website (www.unjspf.org).

NOTE 13: PAYABLES TO SUPPLIERS, IMPLEMENTING PARTNERS, INDIVIDUAL MEMBER STATE RESERVES AND OTHER

165. Amounts owing to suppliers, implementing partners and individual Member State reserves are summarized in the tables below.

| | USD | | |
|--|-------------|-------------|--|
| | 2019 | 2018 | |
| Current | | | |
| Invoiced payables | 198 896 942 | 142 018 962 | |
| Accrued expenses | 6 470 483 | 8 110 821 | |
| Total: Payables to suppliers and implementing partners | 205 367 425 | 150 129 783 | |

166. Invoiced payables consist mainly of consultancy services, implementing partners and suppliers.

| | USD | | |
|---|------------|--------------------|--|
| | 2019 | 2018 (restated) | |
| Current | | | |
| Refunds due | 14 126 458 | 6 233 885 | |
| Unrealized losses - financial derivatives | 382 974 | 16 589 | |
| Other liabilities | 19 807 502 | 17 753 173 | |
| Subtotal: Other current liabilities | 34 316 934 | 24 003 647 | |
| Non-current | | | |
| Sasakawa Endowment Fund | 2 000 000 | 2 000 000 | |
| Other liabilities | 2 702 511 | 2 897 265 | |
| Subtotal: Other non-current liabilities | 4 702 511 | 4 897 265 | |
| Total: Other liabilities | 39 019 445 | 28 900 912 | |

- 167. Other liabilities consist mainly of payables to individual Member State reserves.
- 168. The Sasakawa Endowment Fund was established in 1990 for the purpose of promoting the expansion of human resource transfer programmes and other migration for development programmes. Under the endowment agreement with the Sasakawa Foundation, the capital of the Fund must remain permanently intact. Only the interest income generated from the Fund may be used to finance activities of the Organization.

NOTE 13: PAYABLES TO SUPPLIERS, IMPLEMENTING PARTNERS, INDIVIDUAL MEMBER STATE RESERVES AND OTHER (continued)

| | USD | |
|--|-----------|-----------|
| | 2019 | 2018 |
| Capital account balance at the end of the year | 2 000 000 | 2 000 000 |
| Income account | | |
| Interest income during the year | 33 400 | 30 000 |
| Transfers from Sasakawa Endowment Fund to projects | | |
| Situation Analysis of Migrant Health in Viet Nam | | (30 000) |
| Integrated IOM Global Assistance Fund | (33 400) | |
| Income account at the end of the year | 0 | 0 |

NOTE 14: BORROWINGS

169. The Organization borrowed funds from the Canton of Geneva for the purpose of purchasing its Headquarters building in Geneva. The loan is repayable over 50 years, until 2033. The repayment for 2019 was CHF 368,600 (2018: CHF 368,600). The loan is not subject to interest payments based upon a decision of the Swiss Federal Department of Foreign Affairs to waive any payments of interest, and the loan requires solely the reimbursement of the principal. The value of the interest at a rate of 3 per cent waived in 2019 was CHF 132,010 (2018: CHF 138,901) and the value of interest to be waived until the final payment on the loan due in 2033 is CHF 996,677 (2018: CHF 1,128,687). The value of the waiver of interest is equal to the future value of the loan discount.

170. The Swiss franc loan is translated into US dollars at the year-end rate of exchange and the total original borrowing and amounts outstanding are shown in the following table.

| | | СН | F |
|----------------------------------|--------------------|--------------|--------------|
| | | 2019 | 2018 |
| Swiss Government loan | | 18 000 000 | 18 000 000 |
| Accumulated repayments | | (12 839 572) | (12 470 972) |
| | Loan balance - CHF | 5 160 428 | 5 529 028 |
| | Loan balance - USD | 5 292 747 | 5 601 852 |
| - current | | 378 051 | 373 455 |
| - non-current | | 4 914 696 | 5 228 397 |
| | Loan balance - USD | 5 292 747 | 5 601 852 |
| Year-end exchange rate (CHF/USD) | | 0.975 | 0.987 |

NOTE 15: RESOURCES CARRIED FORWARD

- 171. The operational programmes on a full accruals (IPSAS) basis ended in 2019 as follows:
- (a) A surplus relating to the staff security mechanism of USD 7,478,575 (2018: surplus of USD 4,775,237);
- (b) An increase to the Operational Support Income reserve of USD 7,386,610 (2018: increase of USD 4,143,238), which was partially offset by a drawdown of USD 5.4 million (as per Resolution No. 21 of 19 June 2019 adopted by the SCPF at its Twenty-fourth Session), bringing the total of the reserve to USD 47,017,828 (2018: USD 39,631,218).
- 172. At its Twenty-fourth Session, the Standing Committee on Programmes and Finance adopted Resolution No. 21 of 19 June 2019 on the Revision of the Programme and Budget for 2019, approving a drawdown from the Operational Support Income reserve of USD 5.4 million. Some of the activities being funded by the approved drawdown will be completed during 2020, and consequently USD 2.8 million has been carried forward to the next financial year.

NOTE 15: RESOURCES CARRIED FORWARD (continued)

173. Operational Support Income is not predictable. It fluctuates from year to year depending on the level of activities carried out. In accordance with SCPF Resolution No. 18 of 27 June 2018, the level of the Operational Support Income budget will be estimated based on the previous year's actual results as derived from the Organization's annual Financial Report and budget documents and will consider current and expected trends. The Operational Support Income reserve will be maintained at 1 per cent of the Organization's total expenditures as reported for the prior year as at 31 December. The Administration will put forward proposals of a strategic nature to the Member States in the annual budget or its revisions for the utilization of funds from the reserve that exceed the minimum amount established. Proposals for the use of the excess reserve balance will be strategic in nature, support the Organization's long-term objectives and be used to cover non-recurrent expenditure items. When necessary, amounts available in the reserve exceeding the minimum level required will be applied to bridge the difference between the projected amount of Operational Support Income and the actual amount generated, if the latter is lower than the projected amount.

174. Resources carried forward on a full accruals (IPSAS) basis are summarized in the following table.

| | | USD | |
|--|--------------|--------------------|-------------------------|
| | 2019 | 2018 (restated) | (Increase)/ Decrease |
| Resources carried forward – surplus/(deficit) | | | |
| Administrative programme | | | |
| Resources from previous years | 474 652 | 474 652 | |
| Resources for current year | (7 501 882) | (7 095 048) | 406 834 |
| Increase/(Decrease) in administrative surplus – previous years | (1 293 008) | (1 293 008) | |
| Net impact of IPSAS adjustment | (12 197 852) | (10 754 229) | 1 443 623 |
| Administrative programme: Resources carried forward | (20 518 090) | (18 667 633) | 1 850 457 |
| Operational programmes | | | |
| Operational programmes - Operational Support Income | 52 779 452 | 41 831 218 | (10 948 234) |
| Contingency reserve transfer to Operational Support Income reserve | | 1 000 000 | 1 000 000 |
| Drawdown - Operational Support Income reserve | (5 400 000) | (3 200 000) | 2 200 000 |
| Staff security mechanism | 19 826 531 | 12 260 144 | (7 566 387) |
| Accumulated surplus/(deficits) | 56 163 604 | 30 153 052 | (26 010 552) |
| Net impact of IPSAS adjustment | 29 332 954 | 28 543 861 | (789 093) |
| Operational programmes: Resources carried forward | 152 702 541 | 110 588 275 | (42 114 266) |
| Subtotal: Accumulated surpluses/(deficits) | 132 184 451 | 91 920 642 | (40 263 809) |
| Accumulated surpluses/(deficits) – exchange transactions | 21 230 596 | 29 999 658 | 8 769 062 |
| Currency translations (gains/(losses)) | (58 350 305) | (64 358 078) | (6 007 773) |
| Total: Resources carried forward | 95 064 742 | 57 562 222 | (37 502 520) |

NOTE 16: ACCUMULATED FUND BALANCE

175. The accumulated fund balance carried forward on a full accruals (IPSAS) basis is summarized in the following table.

| | USD | | |
|--|--------------|--------------------|--|
| | 2019 | 2018 (restated) | |
| Accumulated surpluses/(deficits) | | | |
| Non-exchange transactions | 132 184 451 | 91 920 642 | |
| Exchange transactions | 21 230 596 | 29 999 658 | |
| Subtotal: Accumulated surpluses/(deficits) | 153 415 047 | 121 920 300 | |
| Currency translations gains/(losses) | (58 350 305) | (64 358 078) | |
| Total accumulated surpluses/(deficits) | 95 064 742 | 57 562 222 | |

176. The currency translations (gains/(losses)) carried forward on a full accruals (IPSAS) basis are summarized in the following table.

| | USD | | |
|--|--------------|--------------|--|
| | 2019 | 2018 | |
| Opening balance at the beginning of the year | (64 358 078) | (28 704 238) | |
| Realized foreign exchange gains/(losses) | (14 396 946) | (28 676 439) | |
| Unrealized foreign exchange gains/(losses) | 20 829 608 | (7 413 075) | |
| Financial instruments - derivatives (see Notes 8 and 13) | (424 889) | 435 674 | |
| Closing balance at the end of the year | (58 350 305) | (64 358 078) | |

177. The currency translations (gains/(losses)) amount of (USD 58,350,305) (2018: (USD 64,358,078)) mainly represents the accumulated unrealized revaluation of foreign currency monetary assets and liabilities converted into US dollars together with any realized exchange gains and losses upon settlements of accounts receivable and payable and balances of completed projects reported in a currency other than US dollars.

NOTE 17: RESERVES

178. Reserves carried forward on a full accruals (IPSAS) basis are summarized in the following table.

| | | USD | | | |
|---|---------------|------------|------------|--|--|
| | | 2019 | 2018 | | |
| Reserves | | | | | |
| Terminations reserve | | 82 920 431 | 85 080 546 | | |
| Rapid Response Transportation Fund | | 844 599 | 830 012 | | |
| Emergency Preparedness Account | | 129 594 | 129 594 | | |
| Loans - Member States | | 1 680 400 | 1 680 400 | | |
| Refugee Loan Fund - IOM equity (see Appendix 6) | | 311 553 | 311 553 | | |
| Migration Emergency Funding Mechanism | | 2 983 564 | 2 148 656 | | |
| To | otal reserves | 88 870 141 | 90 180 761 | | |

Terminations reserve

179. Funds have been set aside to meet other end of service requirements. For instance, under the Staff Regulations and Rules, termination indemnities are typically payable to staff whose contracts are terminated before their expiration date. The amount set aside from the terminal emoluments reserve for this purpose totalled USD 82,920,431 (2018: USD 85,080,546).

Rapid Response Transportation Fund

180. A guidance note was concluded on 31 May 2000 between IOM and the Office of the United Nations High Commissioner for Refugees (UNHCR) on cooperation in the field of transportation. To enable IOM to meet its responsibilities under this guidance note, the Rapid Response Transportation Fund was established through IOM General Bulletin No. 1277 of 27 December 2000.

NOTE 17: RESERVES (continued)

- 181. The Fund may be drawn on particularly in emergencies where it is established that there is a clear need for immediate assessment and transportation expenditure prior to receipt of external funding. UNHCR may request the assistance of IOM for transportation during voluntary repatriations, return movements, the resettlement of refugees and, in specific cases, organized evacuations. IOM assumes responsibility for the timely arrangement of air, sea and land transportation of refugees and other persons of concern to UNHCR.
- 182. Any authorized use of the Fund is considered as an advance against specific activities involving transportation assistance. All funds advanced from the Fund are to be fully reimbursed prior to the operation's conclusion and no later than six months after authorization.

Statement for the Rapid Response Transportation Fund for the year ended 31 December 2019

| | USI |) |
|---|---------|---------|
| | 2019 | 2018 |
| Opening balance at the beginning of the year | 830 012 | 820 382 |
| Contributions to the Fund | | |
| Interest income | 14 587 | 9 630 |
| Total: Contributions to the Fund | 14 587 | 9 630 |
| Repayment to the Fund from the following projects Facilitating Voluntary, Safe and Orderly Return and Pre-departure Medical Screening and Assistance for Burundian Refugees in the United Republic of Tanzania Rapid Response Transportation Fund – Burundian refugees – United Republic of Tanzania | 415 088 | 350 000 |
| Total: Repayments to the Fund from projects | 415 088 | 350 000 |
| Transfers from the Fund to the following projects | | |
| Facilitating Voluntary, Safe and Orderly Return and Pre-departure Medical Screening and Assistance for Burundian refugees in the United Republic of Tanzania | 415 088 | |
| Rapid Response Transportation Fund – Burundian refugees – United Republic of Tanzania | | 350 000 |
| Total: Expenditure | 415 088 | 350 000 |
| Closing balance at the end of the year | 844 599 | 830 012 |

Emergency Preparedness Account

183. The Emergency Preparedness Account (EPA) was established in accordance with General Bulletin No. 1054 of 30 August 1993. It is drawn on in emergency situations where there exists a clear need for immediate assessment and operational expenditure prior to the actual receipt of external operational funding. Any authorized use of the EPA is considered an advance against the specific operation that it supports, and all funds disbursed from the EPA are normally to be reimbursed as soon as possible once the operation obtains donor support. The amount available at the end of the year is USD 129,594 (2018: USD 129,594).

Loans from Member States

184. A cash reserve of USD 1,680,400 consisting of interest-free loans from Member States was established by Resolution No. 70 of 30 April 1954. The loans provide the Organization with a cash reserve to cover temporary liquidity problems in the administrative or operational programmes. The cash reserve is governed by Article 14 of the Financial Regulations.

Migration Emergency Funding Mechanism

185. The Migration Emergency Funding Mechanism was established in accordance with Council Resolution No. 1229 of 5 December 2011. The Mechanism was established with the purpose of bridging the gap between the start-up of emergency operations and the subsequent receipt of donor funding. The Mechanism is funded from voluntary contributions on as broad a basis as possible, including from Member States, the private sector and individuals, and any interest income accrued is retained within the Mechanism. The Director General is authorized to expend funds from the Mechanism to ensure a rapid response to an emergency involving migration, pending receipt of donor contributions for the said emergency. The Mechanism is replenished upon receipt of donor contributions, and within the limits of funds allocated for the emergency in question.

NOTE 17: RESERVES (continued)

Statement for the Migration Emergency Funding Mechanism for the year ended 31 December 2019

| | US | D |
|---|-----------|-----------|
| | 2019 | 2018 |
| Opening balance brought forward at the beginning of the year | 2 148 656 | 3 011 309 |

| Total transfers from the Mechanism to projects | 2 197 000 | 2 145 79 |
| | | 2 148 65 |

NOTE 18: CONTINGENT LIABILITIES

Co-funding

186. Certain donors, particularly the European Commission, commit to finance only a fixed percentage of total project expenditure and specifically require co-funding from other sources to cover the remaining percentage. IOM has signed agreements without the entire co-funding being confirmed up-front but commits itself to securing co-funding over the life of the project. To date, IOM has been mostly successful in securing co-funding for these projects principally by external funding, including by aligning IOM Development Fund proposals with co-funding needs and, if necessary, reducing or stopping project activities. However, the cofunding exposure has been identified as a risk to IOM and was brought to the attention of Member States in document IC/2006/2 (Co-funding mechanism) at the Informal Consultations on Budgetary and Management Matters on 22 June 2006. In addition, various measures have been put in place internally to address this issue. The Co-funding Group was established comprising staff from Headquarters and Brussels to review the status of these exposures and ways to finance co-funding needs. During 2019, the IOM Co-funding Group monitored 14 projects. As at 31 December 2019, two of the projects being monitored that ended during 2019 have a cumulative exposure amounting to USD 76,162 (EUR 68,241). The managers of such projects are required to actively pursue options to secure the full co-funding requirement within the project's implementation period.

Frozen bank accounts in Guatemala

- 187. Four bank accounts held in IOM's name at the Rural Development Bank of Guatemala (Banrural) were frozen by a Guatemalan court in 2008. In June 2012, the 17 remaining IOM accounts in Banrural were also frozen by court order. The actions that caused the freezes were initiated against IOM by Tradeco, a Mexican construction company, pending resolution of a dispute involving Tradeco, FONAPAZ (National Fund for Peace) and IOM. The dispute concerns an unfinished road construction project administered by IOM with the resources of the Government of Guatemala on behalf of FONAPAZ (see Appendix 9). It should be noted that IOM ended formal cooperation with FONAPAZ in 2010 and IOM has closed the vast majority of subprojects financed by FONAPAZ.
- 188. Discussions to resolve this long-running dispute have taken place at senior political levels between the Government of Guatemala, the Government of Mexico, Tradeco and officials from IOM Headquarters and the field. On 27 December 2012, funds in the amount of USD 10,828,513 were debited from IOM's 21 frozen deposit accounts at Banrural. IOM had received no notification prior to this action. The debits were discovered on 2 January 2013 in the course of year-end accounting procedures. IOM initiated legal actions seeking recovery of the funds on 7 January 2013, including an amount of USD 32,121, representing December 2012 interest on the debited funds. On 7 February 2013, the court ordered the bank to credit the funds to IOM and the bank did not comply with the court order. In March 2015, the Constitutional Court of Guatemala, the country's highest judicial instance, recognized that IOM had not been duly notified of the lawsuit and decided that all actions from the date of the wrongful notification had to be rendered null and void.
- 189. After the decision moved back down through the courts in order to be implemented, Tradeco set out again the collection lawsuit and the request for the freezing of the IOM accounts before the ordinary court. In the corresponding process, IOM set out the arguments related to the privileges and immunities that correspond to the Organization and its staff members; however, these arguments were rejected by the judge in the decision dated 29 December 2017. IOM appealed against this decision through the relevant instances, without a favourable judgement. While waiting for the final decision of the Constitutional Court, Tradeco and IOM resumed negotiations in 2019, which ended in the signing of a settlement agreement to put an end to their disputes before Guatemalan courts. Pursuant to this agreement, Tradeco has withdrawn all its claims against IOM and IOM has not opposed the transfer to Tradeco of the money that was frozen and debited from the IOM accounts, up to the amount of USD 8.3 million. The execution of the agreement is still in progress; once the execution is finalized, the matter will be closed, with no further liabilities for the Organization.

Contractual dispute

190. Under the project funded by USAID to provide health and education facilities for displaced populations in Afghanistan, IOM hired a local construction subcontractor in 2010 but terminated the contract in 2013 owing to unsatisfactory performance. This subcontractor has been seeking damages from IOM in the amount of approximately USD 1.9 million and has proposed that an arbitration process be conducted with the United Nations Commission on International Trade Law. IOM contested and responded to counter the

NOTE 18: CONTINGENT LIABILITIES (continued)

subcontractor's claim. The contractor has hired different law firms since the negotiation of the dispute commenced in January 2015. Following a period of two years in which no further correspondence was received, in September 2019, the contractor mandated a new law firm to continue pursuing their claim and to either settle the matter with IOM or escalate to arbitration.

Iraq out-of-country voting project

- 191. In late 2004, IOM was retained by the Interim Government of Iraq to manage the out-of-country voting for Iraqi citizens abroad in the first election following the caretaker administration known as the Coalition Provisional Authority. IOM implemented this project, in close collaboration with an NGO, the International Foundation for Election Systems. The project involved establishing and operating a series of offices and polling stations around the world in countries where large numbers of Iraqi diaspora were present, and had a total expenditure of approximately USD 75 million.
- 192. Although the project and the out-of-country voting process went smoothly and without incident at the time, the Iraqi Government raised questions about the high cost of the project, noting that the per capita cost was quite high as only about 200,000 overseas Iraqis voted, rather than the 1 million that had been hoped for. The view of the Government of Iraq is that IOM's expenditures were excessive and that the project costs should have been USD 57 million lower. IOM firmly believes that the costs of the project were appropriate and fully justified, as the implementation had to be carried out in an extremely short time frame of 83 days and with significant and necessary security expenditures given the numerous security risks prevailing at the time. Furthermore, IOM believes that it cannot be held accountable for the lower than expected voter turnout, which was the principal reason for the high per capita cost result.
- 193. The Iraqi Government brought an action against IOM in a local court in Baghdad to try to recover the funds related to the questioned costs. With the aim of reaching an understanding with the Iraqi Government on this matter, an IOM delegation from Headquarters met with senior Iraqi Government officials in Amman on 20 October 2015 to begin negotiations on a resolution to the outstanding issues relating to this 12-year-old project. The Iraqi Government agreed to temporarily suspend its legal actions while negotiations were under way. During the course of 2017, the court case was re-activated. On 22 January 2018, however, the Appeal Court confirmed the First Instance Court judgement in IOM's favour, dismissing the Government's claim. A subsequent appeals process confirmed the judgement of the Appeal Court, and, on 4 March 2018, the Court of Cassation of Iraq endorsed the decision of the First Instance Court and the case was closed. On 12 November 2018, the Government of Iraq called for further meetings on the issue, and subsequently reiterated its demand that IOM repay the USD 57 million. At the request of the Permanent Mission of the Republic of Iraq to the United Nations Office and other international organizations in Geneva, IOM has issued several invitations for a delegation from the Government of Iraq to meet with the Director General in Geneva to resolve the matter, but due to civil and political unrest in Iraq, the meeting has yet to take place and is unlikely to do so before mid-2020.

NOTE 19: COMMITMENTS

Operating lease commitments

194. The future aggregate minimum lease payments under non-cancellable operating leases where IOM is lessee are shown in the table below.

| Duration of energting league (IOM as league) | USD |
|--|------------|
| Duration of operating leases (IOM as lessee) | 2019 |
| No later than 1 year | 3 729 020 |
| Later than 1 year and no later than 5 years | 6 782 323 |
| Later than 5 years | 2 983 065 |
| Total | 13 494 408 |

195. Some of the operating lease agreements contain renewal clauses which enable IOM to extend the terms of the leases at the end of the original lease terms and escalation clauses that may increase annual rent payments based on increases in the relevant market price indexes in the respective countries where the field offices are located.

NOTE 20: RELATED PARTIES

- 196. IOM, as lessor, receives lease payments from the rental of office space in IOM buildings that are owned in Santiago (Chile), Buenos Aires (Argentina) and La Paz (Plurinational State of Bolivia).
- 197. The Organization is governed by the Council, which is composed of representatives of all 173 Member States. They do not receive remuneration from IOM. Transactions between IOM and its Member States take the form of assessed contributions in accordance with an assessment scale approved each year by the Council. In addition, Member States provide voluntary contributions for individual programmes and projects in the normal course of IOM's business.
- 198. The Organization has no ownership interest in associations or joint ventures.
- 199. The Director General, the Deputy Director General, the Legal Counsel, the Chief of Staff, the Directors of Headquarters Departments and the Director of the Manila Administrative Centre have the authority and responsibility for planning, directing and controlling the activities of IOM. These key management personnel are remunerated by the Organization.
- 200. Key management personnel and their aggregate remuneration (including salaries, allowances, health and pension contributions) were as shown in the table below.

| | 20 | 019 | 2018 | | |
|--|-----------------------|------------------------------|-----------------------|------------------------------|--|
| | Number of individuals | Aggregate remuneration (USD) | Number of individuals | Aggregate remuneration (USD) | |
| Director General, Deputy Director General and other senior staff from the Office of the Director General | 4 | 1 355 020 | 4 | 1 542 006 | |
| Other senior managers | 6 | 1 520 751 | 5 | 1 463 216 | |

201. There were no loans to key management personnel and their close family members which were not available to other categories of staff. Key management personnel have the same after-service entitlements (including pension and health benefits) as other staff. There was no other remuneration or compensation to key management personnel or their close family members.

NOTE 21: BUDGET TO ACTUAL COMPARISONS

- 202. The budget documents are prepared based on known confirmed funding and the projected level of activities until the end of the year, as follows:
- Programme and Budget in August of the year preceding the budget year
- Revision of the Programme and Budget in March of the budget year
- Summary update on the Programme and Budget in September of the budget year
- 203. The first two budget documents are approved, while the Summary update is an information document presented to the Council on the status of contributions and project implementation.
- 204. IOM received additional confirmed funding of approximately USD 611 million in the last four months of the year (2018: USD 642 million). Actual implementation for the remainder of the year can in some cases be faster and in other cases slower than originally anticipated due to operational realities. The Director General is authorized, in exceptional circumstances, to incur obligations and make payments in respect of operational projects which have not been included in the approved Operational Part of the Budget, provided that certain conditions are satisfied (Financial Regulation 4.7).
- 205. The actual amounts expressed on a comparable basis for General Programme Support include budgeted expenditures forming part of the Services/Support summary table VIII in budget documents C/109/6/Rev.1 and S/24/6 for the following activities: Seconded Staff, Migrant Management and Operational Systems Application (MiMOSA), Staff and Services Covered by Miscellaneous Income, Sasakawa Endowment Fund, International Migration Law, Project Information and Management Application (PRIMA), Institutional Initiatives, Unearmarked Contributions and Private Partnerships.

NOTE 21: BUDGET TO ACTUAL COMPARISONS (continued)

206. The budget to actual comparison for the administrative programme is presented separately in Swiss francs as required by Financial Regulation 3.2 – see the Statement of financial performance and budget comparison (administrative programme) (Statement V(b)). The total 2019 assessed contribution from a new Member State of CHF 10,362 has been used to contribute towards costs relating to staff development and learning, specifically, on IOM's staff exchange programme, which provides on-the-job learning to national staff members to build their capacity and enable them to better support their country offices and the Organization at large, as presented in the Revision of the Programme and Budget for 2019 (S/24/6) and approved by Member States through SCPF Resolution No. 21 of 19 June 2019 and Council Resolution No. 1382 of 26 November 2019

207. The sources and application of Operational Support Income, including any carry-forwards, are provided separately in accordance with Financial Regulation 6.3 – see Appendix 4.

208. The major differences between the full accruals (IPSAS) basis presented in the Statement of financial performance and the Statement of cash flows and the modified accruals (budgetary) basis presented in the Statements of comparison of budget and actual amounts are explained below.

- Property, plant and equipment acquisition On the modified accruals (budgetary) basis (and for donor reporting purposes), costs of assets are fully expensed in the month of acquisition. In the Statement of financial position, the Statement of financial performance and the Statement of cash flows, assets acquired are capitalized and depreciated in accordance with the accounting policies outlined in Note 2.
- Staff benefits As explained in Note 12 (Liabilities relating to employee benefits), on the modified accruals (budgetary) basis, terminal emoluments are expensed when disbursed under the Administrative Part of the Budget. Under the Operational Part of the Budget, these payments are expensed based on a fixed percentage of salary costs as established by the Council. In the Statement of financial performance and the Statement of cash flows, the expenses for these benefits also take into consideration the change in the provision (liability) for each benefit as computed by the actuary or by the Organization in accordance with the accounting policies outlined in Note 2.

Reconciliation of the Statements of comparison of budget to actual amounts (Statements V(a) and V(b)) and the Statement of financial performance (Statement II)

| | USD | | | | |

NOTE 22: SERVICES IN KIND

209. Services in kind are services provided to IOM free of charge. The major classes of services in kind received by IOM include those outlined in the table below.

| Donor | Type/Class of services in kind received | Unit/Measure |
|---|---|--------------|
| Audit and Oversight Advisory Committee | Audit advisory services | 69 days |
| City of Lausanne (SYNI Programme) | Personnel services | 812 days |
| Danish Refugee Council | Personnel services | 216 days |
| Government of Ghana | Audit Service | 325 days |
| iMMAP | Personnel services | 993 days |
| Netherlands Enterprise Agency | Personnel services | 244 days |
| Norwegian Refugee Council | Personnel services | 4 286 days |
| RedR Australia | Personnel services | 568 days |
| Swedish Civil Contingencies Agency (MSB) | Personnel services | 1 000 days |
| Swiss Agency for Development and Cooperation | Personnel services | 569 days |
| United Kingdom Department for International Development | Personnel services | 236 days |

210. Offices in the following countries (at the indicated locations) receive office space rent free or at a nominal "peppercorn" charge from the host governments: China (Hong Kong Special Administrative Region), Greece (Athens), India (New Delhi), the Sudan (Kadugli), Thailand (Bangkok) and the United Republic of Tanzania (Moshi).

NOTE 23: REVENUE AND EXPENSES

Revenue

211. The below table presents the revenue recognized by IOM on a modified accruals (budgetary) basis and the net accrual adjustments to full accruals (IPSAS) basis. In accordance with the change in accounting policy adopted in 2019 and applied retrospectively, revenue no longer includes transfers from governments when the Organization acts as an agent of the government.

| TOTAL REVENUE | 52 927 963 | 2 075 153 483 | (1 011 860) | 2 127 069 586 | 1 811 772 265 | |

NOTE 23: REVENUE AND EXPENSES (continued)

- 212. The amounts shown for the assessed contributions represent actual revenue related to the Organization's administrative programme, as adopted by the Council. Assessed contributions for the Administrative Part of the Budget are invoiced in Swiss francs and converted to US dollars at the United Nations operational rate of exchange at the invoice date.
- 213. Earmarked (non-core) voluntary contributions received from donors for operational programmes represent earmarked revenue received for activities where the use of the funds is specified in the agreement with the donor. All such contributions are tied to conditions contained in the agreements with donors requiring IOM to deliver specified services to governments and individuals. Revenue is recognized when the underlying services covered by these funds have been delivered.
- 214. The earmarked (non-core) contributions included softly earmarked contributions of USD 13 million (2018: USD 6.6 million) received by IOM from donors for operational programmes in a specific country or countries and/or to be used for achieving the objectives of an appeal, but without the use of the contribution being limited to specific deliverables within the country operations or the appeal. Softly earmarked contributions grant IOM greater flexibility with regard to their use than earmarked contributions; however, their use is still restricted in terms of time, purpose or location to a certain degree. Revenue from softly earmarked contributions, if received without refund obligations and/or where discretion is granted to IOM in reallocating and/or utilizing the unused funds within the country operations or the appeal, is recognized when the funds are received.
- 215. Unearmarked (core) voluntary contributions are received from donors for use by IOM at its own discretion in carrying out its mandate, without conditions or restrictions limiting the use of the contribution. Such contributions may, however, be received with an indication of intended support to a broad area of IOM's mandate, institutional priorities or an established IOM fund or mechanism that is fully controlled by the Organization (e.g. the IOM Development Fund or the Migration Emergency Funding Mechanism). Revenue from such contributions is recognized when the funds are received.
- 216. Receipts from refugees, migrants, sponsors and others represent funds received by IOM to cover travel, visa and medical costs incurred. Revenue is recognized when the underlying service covered by the funds has been delivered. The net accrual adjustments relate to the recognition of the gain or loss on the sale of equipment and represent the difference between the carrying value of the equipment (cost less accumulated depreciation) and the amount realized from the sale.
- 217. In-kind contributions represent contributions of goods and equipment received from donors. Revenue is recognized at the fair US dollar value of the contribution on the date when the goods or equipment become available for IOM to use in providing services.
- 218. Interest relates to funds earned on cash balances held by IOM pending their use in delivering services. Interest revenue is recognized when the revenue is earned.

Expenses

219. The table below presents the expenses recognized by IOM on a modified accruals (budgetary) basis and the net accrual adjustments to full accruals (IPSAS) basis. In accordance with the change in accounting policy adopted in 2019 and applied retrospectively, expenses no longer include payments made on behalf of governments when the Organization acts as an agent of the government. An adjustment has also been made in the 2018 comparative figure to reflect the capitalization of certain leasehold improvements that had previously been classified as expenses.

NOTE 23: REVENUE AND EXPENSES (continued)

| Other expenses | 4 359 | 3 471 243 | | 3 475 602 | 2 473 273 | |
| TOTAL EXPENSES | 52 938 684 | 2 042 963 650 | 416 480 | 2 096 318 814 | 1 793 534 652 | |

- 220. The amounts shown for transportation assistance, medical assistance, other direct assistance to beneficiaries and a portion of contractual services cover the actual costs incurred by IOM in the direct provision of assistance to individuals and groups of beneficiaries in accordance with IOM's mandate. Expenses are recognized when the underlying service is delivered to the beneficiary. All staff costs directly or indirectly related to delivering the assistance are reported under the "Staff salaries and benefits" line and are therefore excluded from these report lines.
- 221. The amounts shown as implementing partner transfers, to implement specific services under donor agreements, represent funds provided during 2019 to implementing partners whereas the expenses are recognized when confirmation is obtained that goods and/or services have been delivered and/or provided by implementing partners. The table below presents implementing partners by category and corresponding expenses recognized during 2019, which totalled USD 159.2 million (2018: USD 97.2 million).

| Transfers to implementing partners by setagen. | USD | USD |
|--|-------------|------------|
| Transfers to implementing partners by category | 2019 | 2018 |
| United Nations and related agencies | 9 721 020 | 3 812 253 |
| Intergovernmental organizations (non-United Nations) | 9 495 285 | 6 605 643 |
| International civil society organizations | 62 689 090 | 30 033 104 |
| National civil society organizations | 75 095 968 | 53 202 748 |
| National government entities | 2 178 620 | 3 562 668 |
| Total | 159 179 983 | 97 216 416 |

- 222. Contractual services cover the costs of services purchased from external suppliers and consultants, including when obtaining such services on behalf of beneficiaries. Costs are recognized when the contracted service has been delivered. The net accrual adjustments relate to the recognition of costs incurred in connection with internally developed software.
- 223. Staff salaries and benefits include all costs of compensation provided to international Professional staff and locally employed staff engaged in delivering operational project services and general IOM administration. Expenses are recognized when the salaries and benefits are earned by IOM staff. The net accrual adjustments relate to the recognition of the cost of employee benefits such as annual leave, separation benefits and after-service health insurance that have been earned but not paid at the reporting date (31 December of each year).

NOTE 23: REVENUE AND EXPENSES (continued)

- 224. Travel and subsistence expenses represent the travel and living costs incurred by IOM staff while on official missions. The reimbursable expenses of staff members are processed in accordance with the Staff Regulations and Rules and IOM's travel instructions. Expenses are recognized when the travel is undertaken.
- 225. Supplies and consumables represent the costs of goods and equipment acquired in connection with IOM's operations and administration. Expenses are recognized when the goods are received by IOM. The net accrual adjustments relate to the capitalization of equipment above the capitalization threshold of USD 5,000, as specified in IOM's accounting policies. Undistributed equipment purchased for beneficiaries totalled USD 17.5 million at 31 December 2019 (2018: USD 14.7 million), of which USD 5.2 million was retired at the beginning of 2020. The cost of the items is fully expensed in the month of purchase.
- 226. The net accrual adjustments for depreciation and amortization represent the annual charge for the use of property, plant and equipment and IT software capitalized in accordance with IOM's accounting policies.
- 227. Doubtful receivables represent an adjustment in the provision required by IPSAS to bring the value of the provision to a sufficient amount to fully offset receivables from assessed contributions that have been outstanding for two years or more and for which no payment plan has been agreed. All other receivables, including voluntary contributions, are reviewed and the provision is adjusted to reflect the value of receivables for which receipt is considered doubtful and the difference is charged or credited to expenses.
- 228. Other expenses mainly include banking charges, which are recognized as expenses when the service covered by the charge is delivered by the bank.
- 229. Exchange losses include the net realized difference between the value of transactions incurred in currencies other than the US dollar at the United Nations operational rate of exchange and the value at the exchange rate provided by the bank. Exchange losses also include the unrealized loss on the revaluation of assets (including accounts receivable, cash and investments) and liabilities (including accounts payable) valued in currencies other than the US dollar.

Write-offs

- 230. IOM Financial Regulation 10.2 provides that: "The Director General may, after full investigation, authorize the write-off of losses of cash or other assets. A statement of all such write-offs shall be submitted to the External Auditors and reported in the annual financial statements."
- 231. The total amount of write-offs was USD 1,494,974 (2018: USD 2,416,052). In the absence of other sources of revenue, this amount had to be applied from Operational Support Income to cover unforeseen project shortfalls that were mainly due to: (a) unrecoverable costs and budget overruns of approximately USD 1.3 million arising from completed projects; and (b) USD 0.2 million relating to costs declared ineligible following donor audits on specific projects. Expenses related to such shortfalls are included in the appropriate expenses lines (see above for definitions) according to the nature of the expense.

NOTE 24: FINANCIAL RISKS

- 232. The Organization receives revenue from contributions and service fees and incurs expenses in currencies other than the US dollar (IOM's reporting currency) and is, therefore, exposed to foreign currency exchange risks arising from exchange rate fluctuations between those currencies and the US dollar. The Organization's principal method of mitigating foreign exchange risks is to strive to maintain an equilibrium between assets and liabilities in the currencies it uses, which is a naturally hedged position. The Administration uses some derivative financial instruments, the proceeds of which are credited to miscellaneous income.
- 233. The Organization has offices in various countries with assets and liabilities denominated in local currencies. In addition, the Administration held deposits in other currencies, including Australian dollars, British pounds sterling, Canadian dollars, Danish kroner, euros, Norwegian kroner, Swedish kronor and Swiss francs. The currency translations (gains/(losses)) are part of the accumulated fund balance (see Note 16).
- 234. The Organization's financial instruments per foreign currency as at 31 December 2019 is as shown in the table below.

NOTE 24: FINANCIAL RISKS (continued)

| 2019 | USD | CHF at USD equivalent | EUR at USD equivalent | GBP at USD equivalent | COP at USD equivalent | PEN at USD equivalent | Other currencies at USD equivalent | Total USD |

| Accounts receivable: other (Note 6) | 12 110 491 | 4 203 858 | 596 084 | 100 941 | 1 347 024 | 26 074 | 7 909 910 | 26 294 382 |
| Derivatives (Notes 8 and 13) | | | 7 407 | | | | 34 507 | 41 914 |
| Payables to suppliers (Note 13) | (112 210 511) | (6 652 480) | (6 230 482) | (2 441 710) | (3 058 151) | (608 305) | (18 928 144) | (150 129 783) |
| Borrowings (Note 14) | | (5 601 852) | | | | | | (5 601 852) |
| Net exposure | 616 817 835 | 1 419 249 | 247 531 415 | 17 489 121 | 11 104 218 | 347 477 623 | 62 438 692 | 1 304 278 153 |

235. The following table shows the impact on surplus/deficit and the impact on net assets as at 31 December 2019, if the major currencies in which the Organization held financial instruments had weakened or strengthened by 5 per cent.

| | USD (in m | nillions) |
|-------------|-----------------------------|----------------------|
| 2019 | Impact on surplus/(deficit) | Impact on net assets |
| +5 per cent | 43.64 | (32.37) |
| -5 per cent | (48.23) | 35.78 |

- 236. In order to mitigate the Organization's foreign exchange risk exposure inherent to IOM's worldwide footprint and funding structure, the Treasury Division maintains a policy of natural hedging by currency, which also takes into account unspent project balances. Linking the level of cash held in each currency to the currency of the project balances in which there is a foreseen substantial outflow of cash is utilized as a hedge to significantly reduce the impact of the foreign exchange exposure.
- 237. IOM mitigates the currency fluctuation risk to the Administrative Part of the Budget by naturally hedging through matching the receipt of revenues and liabilities in various currencies. IOM may use spot or forward foreign exchange trades or acquire derivatives to hedge its overall assets and liabilities. Currency fluctuation risks which have a direct impact on projects are monitored within projects based on each project's reference currency. Currency exposure is limited as the related project budgets are adjusted to reflect the value of the project currency relative to other currencies.

NOTE 24: FINANCIAL RISKS (continued)

- 238. The Organization is exposed to credit risk due to non-payment, which also has an impact on liquidity. A provision for doubtful receivables has been established for amounts that have been receivable for two years or more as a result of the non-payment of assessed contributions by Member States. Credit risks also exist for receivables from donors under the operational programmes (for non-payment) and for down payments to suppliers and implementing partners (for non-performance). Provisions for doubtful receivables are also made where donor contributions are in doubt at the reporting date. Receivables are monitored and followed up on an ongoing basis. Down payments are made where it is otherwise unavoidable (e.g. global airline agreements) or where it is financially viable to do so. Field offices are required to monitor down payments on a monthly basis.
- 239. The Organization's exposure to liquidity risk is limited by its requirement that projects financed from earmarked voluntary contributions, which make up 90 per cent of revenues, do not commence operation until the cash resources required to finance project activities have been deposited into an IOM bank account. The Administrative Part of the Budget is financed by mandatory assessed contributions paid by IOM Member States. Based on experience, over 92 per cent of these funds are received within the current year and 99 per cent within a two-year period. IOM also manages liquidity risk by continuously monitoring actual and estimated cash flows. The Organization does not have the authority to contract long-term debt without the approval of its Council.
- 240. The Organization's objective is to maintain a balance between continuity of funding and flexibility through the use of deposits with banks and cash funds. The following table summarizes the maturity of financial assets and financial liabilities.

| | | | | USI |) | | | |

NOTE 25: EVENTS AFTER THE REPORTING DATE

241. IOM's reporting date is 31 December 2019. The coronavirus disease 2019 (COVID-19) pandemic was declared after the 2019 accounts had been closed. The global effects of this pandemic may have significant impacts on the Organization's operations in 2020. The monetary impact on the Organization's revenue and expenses or the longer-term impact on its asset values cannot be reliably estimated at this time. In accordance with IPSAS 14 – Events after the reporting date, the possible impact of the pandemic has been treated as a non-adjusting event for the 2019 financial statements.

NOTE 26: SEGMENT REPORTING

242. The geographical segments are broadly based on the regional classifications adopted by the United Nations, with the grouping of regions in some instances. The "Latin America and the Caribbean" geographical segment combines the United Nations two regions of "Central America and the Caribbean" with "South America". Similarly the "Asia and Oceania" geographical segment combines the United Nations two regions of "Central, East and South Asia" with the "South Pacific". The geographical segment for Europe includes Turkey. The global activities segment includes all activities that are not restricted to a single or multiple regions. The administrative programme segment includes the activities financed from the Administrative Part of the Budget. For segments by services, see Appendix 3.

NOTE 26: SEGMENT REPORTING (continued)

STATEMENT OF FINANCIAL PERFORMANCE BY GEOGRAPHICAL REGION FOR THE PERIOD ENDED 31 DECEMBER 2019

(in US dollars)

Notes:

- 1. IOM had 173 Member States at the end of 2019 (172 at the end of 2018).
- 2. Uzbekistan was admitted as a Member State on 15 March 2019, following submission of the instrument ratifying the IOM Constitution.
- 3. The contribution of Uzbekistan is prorated from the date of entry into the Organization.

Assessed contributions received in advance

Assessed contributions received from Member States in advance of the following year's assessment scale are presented in the table below.

Notes:

- 1. The Operational Support Income reserve balance for 2019 on a full accruals (IPSAS) basis stands at USD 47,017,828 (2018: USD 39,631,218) and on a modified (budgetary) basis at USD 49,533,924 (2018: USD 41,785,690).
- 2. The carry-forward relating to the staff security mechanism on a full accruals (IPSAS) basis is USD 19,738,721 (2018 restated: USD 12,260,146) and on a modified (budgetary) basis is USD 18,541,175 (2018: USD 10,974,788).

SOURCES AND APPLICATION OF OPERATIONAL SUPPORT INCOME FOR THE PERIOD ENDED 31 DECEMBER 2019 (continued)

II. STAFF SECURITY MECHANISM

Following SCPF Resolution No. 18 of 27 June 2018, the Director General maintains a mechanism to transparently monitor the income used for staff security which is generated from the overhead rate applied to a project's total costs. These funds are used to pay for the cost of IOM's participation in the United Nations Department of Safety and Security (UNDSS) and, within the limits of available resources, the cost of minimum operating security standards (MOSS) compliance requirements, evacuations and other staff security costs.

Statement for the staff security mechanism for the period ended 31 December 2019

SOURCES AND APPLICATION OF OPERATIONAL SUPPORT INCOME FOR THE PERIOD ENDED 31 DECEMBER 2019 (continued)

III. IOM DEVELOPMENT FUND

Under SCPF Resolution No. 18 of 27 June 2018, the Director General is requested to allocate USD 1.4 million from Operational Support Income for the development of migration projects in favour of developing Member States and Member States in transition on the basis of an equitable regional distribution, without prejudice to funds already allocated for these purposes, referred to as funding Line 1.

An additional 25 per cent of Operational Support Income (excluding security) in excess of USD 20 million is allocated to the IOM Development Fund, referred to as funding Line 2.

On the basis of the Operational Support Income generated in 2019 of USD 111.9 million (2018: USD 95.7 million), an additional USD 18.1 million (2018: USD 13.5 million) was allocated to Line 2 of the IOM Development Fund for use in 2020. This amount is in addition to the USD 1.4 million annual allocation to Line 1 of the IOM Development Fund, bringing the total allocation for the IOM Development Fund for the year 2019 to USD 19.5 million (2018: USD 14.9 million).

The total amount available for the IOM Development Fund (excluding direct voluntary contributions of USD 1.2 million (2018: USD 1.5 million)) cannot exceed total miscellaneous income (unearmarked contributions and interest income), as stipulated in SCPF Resolution No. 18.

REFUGEE LOAN FUND

Establishment and purpose of the Fund

The Refugee Loan Fund, established pursuant to Council Resolution No. 210 of 12 May 1960, is used to finance, in part or whole, the cost of transporting and providing related services to refugees by giving interest-free loans to those who require financial assistance to migrate to resettlement countries. The repayment of such loans is secured by promissory notes signed by the refugee or his/her sponsor.

Formerly, there were two separate loan funds. At its Sixty-first Session on 28 November 1990, the Council approved the merger, effective 1 January 1991, of the Refugee Loan Fund and the Loan Fund for Refugees outside Europe.

During 2019, there were 33,926 movements (2018: 28,288) under the Refugee Loan Fund.

Fund statement for the year ended 31 December 2019

REFUGEE LOAN FUND (continued)

Accounting and evaluation of promissory notes

Refugees assisted through the Loan Fund are expected to subsequently contribute towards their transportation costs. The total cost is paid for initially by the Loan Fund, but each refugee (or family unit) is required to sign a promissory note for the cost. Once the refugees are resettled, they are expected to honour their promissory notes.

The collection by IOM as an agent of the United States Government of amounts due under the promissory notes is carried out by various voluntary agencies that are entitled to retain 25 per cent of the amount collected to cover their own expenses. The remaining 75 per cent is remitted to IOM and credited to the Loan Fund.

The total value of future collections from outstanding promissory notes represents a significant asset of the Loan Fund and therefore requires evaluation for financial reporting purposes. An exact evaluation cannot be made, however, since future recoveries depend on sustained collection efforts which may also be influenced by political and economic events.

One practical and conservative method for evaluating the future value of repayments from outstanding notes is to make an estimate based on past collection experience. A calculation of the average repayment rate as at 31 December 2019 for loans issued in 2001 and earlier yielded an average 70 per cent repayment rate. This 70 per cent repayment rate was used to project the recoverable value of new notes issued in 2019 in the analysis below. The recoverable value on previously issued notes was not significantly adjusted.

| | USD | | |
|---|--------------|--------------|--|
| | 2019 | 2018 | |
| Estimated recoverable value at the beginning of the year | 72 000 000 | 102 300 000 | |
| Estimated recoverable value of new notes issued during the year | 23 454 402 | 20 457 506 | |
| Adjustment of previously estimated recoverable value | 18 673 | 9 452 | |
| Cash collections during the year | (43 573 075) | (50 766 958) | |
| Estimated recoverable value at the end of the year* | 51 900 000 | 72 000 000 | |

^{*} Estimated recoverable value for the United States Government.

By way of background, it should be noted that the average repayment rate for loans that have been outstanding for five years or more has increased steadily in recent years, from an average of 44 per cent in 1996 to 80.8 per cent as of 2019. The improvement in the collection rate reflects the collection activities of the IOM Office in Orange County and better debt collection techniques used by the agencies.

General note

Under the umbrella of the Government of Guatemala – FONAPAZ (National Fund for Peace), IOM was an implementing partner for a variety of activities designed to improve the living conditions of the Guatemalan population, particularly in zones of return and reinsertion and adjoining areas. As a result of an exchange of letters between IOM and the Government of Guatemala in 1997, it was agreed that the financing of these activities would be in the form of a fiduciary fund. The terms of the fiduciary relationship were documented in an agreement dated 4 June 1998 and updated in a letter of understanding dated 12 December 2000. Under the terms specified in the agreement, the Fund's purpose is to administer the projects with which IOM, in cooperation with the Government of Guatemala – FONAPAZ, is involved. Fiduciary Fund expenditures are authorized by representatives of the Government and are subject to audit by IOM in compliance with the IOM Financial Regulations.

The Urban and Rural Community Support Programme is financed by the Executive Coordination Secretariat of the Presidency (SCEP), an institution accepting social investment requests from urban and rural communities according to the stipulations of Decree No. 35-04 of the Congress of Guatemala and the General Income and Expenditure Budget of the State (Fiscal Year 2005). Specifically, the Programme includes the following components: building local roads; providing drinking water and environmental sanitation; building schools; providing infrastructure, health services and social assistance; executing productive programmes; and other components contributing to improving the living standards of populations in conditions of poverty and extreme poverty throughout the country. IOM provides technical and administrative assistance for the implementation and operation of the Urban and Rural Community Support Programme promoted by the Presidency of Guatemala through the SCEP.

Accounting policies

The financial statements were prepared on the modified cash basis of accounting. Consequently, income is recognized when received and not when earned, and expenses are recognized when paid and/or when obligation is acquired. Consequently, on an interim basis, expenditures could exceed recorded income for a given project category.

The Fiduciary Fund's resources and expenditure are presented by project category. The underlying transactions and accounts of record for the Fiduciary Fund are in Guatemalan quetzales. The summary financial statement is included in US dollars, converted at 7.70 at 31 December 2019 (7.74 at 31 December 2018).
