

STANDING COMMITTEE ON PROGRAMMES AND FINANCE

Twenty-ninth Session

PROVISIONAL WORKPLAN FOR THE IOM GOVERNING BODIES

DURING 2022

PROVISIONAL WORKPLAN FOR THE IOM GOVERNING BODIES DURING 2022

Provisional workplan for 2022

1. This year, during the discussions held by the Working Group on IOM Partnerships, Governance and Organizational Priorities, a number of Member States suggested that, in order to increase efficiency and enable Member States to better prepare for IOM governing bodies sessions, the Administration should provide an annual overview of the items to be considered by the Standing Committee on Programmes and Finance and the Council for the coming year (see document WG/PGOP/2021/1).
2. As mentioned in document WG/PGOP/2021/3, to respond to this request, the Administration has prepared an overview of the regular agenda items of the Standing Committee and the Council that will be covered during 2022, as well as related decisions to be taken. The overview is presented in the Annex to this document.
3. Additionally, should Member States wish the Administration to present information on a particular subject, they may make the request when this document is discussed by the Standing Committee, or at any other point.
4. In future, it is expected that the presentation of the yearly provisional workplan will become a standard item on the agenda of the October session of the Standing Committee.
5. With the two new Deputy Directors General having joined the Organization, the Administration is also taking this opportunity to review the organization of the work of the Standing Committee. As such, day one of each session will be dedicated to financial and governance issues and day two will focus on operational activities, in order to ensure a more consistent and coherent approach to the organization of the sessions.

Exchange of views on IOM activities

6. In June 2007, IOM Member States decided to introduce a regular item on the agenda of the Standing Committee on Programmes and Finance entitled “Exchange of views on items proposed by the membership” in order to discuss and exchange views on policies, migration management issues or operational activities carried out by the Organization. It was also agreed that the items for discussion would be chosen in advance of the sessions, through an informal consultation process.
7. Based on its analysis of current developments and ongoing dialogue with Member States, the Administration will suggest cross-cutting topics that thread through the work of the Organization, in line with its goal of breaking down internal silos, as outlined in the IOM Strategic Vision 2019–2023. As per past practice, at the beginning of each year, Member States will be asked to share their preferences regarding the topics to be selected for presentation at the sessions of the Standing Committee held during that year.
8. For the coming year’s sessions, a short paper outlining the proposed topics will therefore be shared with the membership in early 2022. Member States will be asked to select a maximum of four topics from the proposed list and inform the Secretariat of their preferences via email. Two topics will be selected for discussion at each session of the Standing Committee based on the amount of support received. The Administration will subsequently inform Member States of the selected themes well in advance of the meetings.

Action required by the Standing Committee

9. The Standing Committee is invited to take note of the provisional workplan.

Provisional workplan for IOM governing bodies during 2022

Area of work	30th Session of the Standing Committee on Programmes and Finance June/July 2022	31st Session of the Standing Committee on Programmes and Finance October 2022	113th Session of the Council November/December 2022
