DATA FOR FORESIGHT

GDI **OUTLOOK** 12/24/36 MONTHS

data for **action**

GDI will provide evidence-base for long-term planning for life-saving actions and deliver solutions for some of the world's most vulnerable populations.

With partners, IOM will standardize data points to inform country level solutions programming.

data for **insight**

GDI will deliver insight on migration flows across corridors, drivers, risks for migration management at national, regional and global level to facilitate regular pathways.

data for **foresight**

Data and analysis will provide the foundation for IOM's approach to climate change and migration.

Data will help IOM better anticipate migration trends & direct resources to regions most impacted by climate change.

data foundations

accessible, scalable and **secure data system** to deliver sustainable, lower-cost data for action, insight and foresight.
